Police Commissioners' Report.

OFFICE OF THE POLICE BOARD, }
Toledo, *January 1st, 1878.* }

To the Honorable Common Council:

GENTLEMEN:—In pursuance of law, the Police Commissioners herewith present their Tenth Annual Report of the condition and transactions of the Police Department under their charge, for the year ending December 31st, 1877.

THE RAILROAD STRIKE.

The year just past has been one of unexampled financial distress: throwing great numbers of persons out of employment, producing a feeling of uncertainty in the minds of those who depended upon earnings for support, which has led to agitations, and, in the instance of the railroads, to a formidable strike, which threatened serious consequences, not only to the commerce of the country, but to the peace and good order of communities and States. There is a sympathetic contagion among classes of men affected with the same ideal maladies, which prompts a fellow being to aid and encourage others to persevere in the accomplishment of their ends, whether unlawful or not; the grievances of the railroad men, who were engaged in this strike, found a ready support among large masses of the community in all our cities where it existed.

Such was the case in this City. The 26th day of July will long be remembered as one of the days which foreboded peril to the good name

of Toledo. Fortunately by the timely action of the authorities and citizens, disturbances were prevented, and the law triumphed without bloodshed.

VIGILANCE OF THE FORCE.

The want of employment has increased the crimes against property, and promoted vagrancy, as might have been expected; this state of things has made great vigilance necessary on the part of the officers and men of the Force. We are happy to be able to speak in approval of their endeavors to do their duty faithfully.

The Force now consists of forty-one men, two Sergeants, and one Captain; all good, and well trained in their profession. This Board, ever since its organization, has never allowed political preference to disturb the harmony of the Force; preferring to restrain any disposition on the part of members of the Force to interfere in politics, rather than dispense with the services of the officer, whose experience has made his services valuable.

TRI-STATE FAIR.

In the month of September a Tri-State Fair was held in this City, and more than one hundred thousand strangers from abroad visited it. Owing to the admirable police arrangements, not a single injury was sustained, or life lost; and very few crimes were committed on this occasion. A few pockets were picked, but all that were reported to the police were speedily ferretted out, and the perpetrators arrested, convicted, and worked out their sentences in the Workhouse.

REDUCTION OF EXPENSES.

In accordance with a resolution passed by the Council in November last, requiring the expenses of the Force to be limited to twenty-four thousand dollars per annum, the Board abolished the office of Detective, and reduced the pay of the men to forty-five dollars; Sergeants, fifty dollars; Captain, ninety-one dollars and sixty-six cents; and Clerk, eight dollars and thirty-three cents per month; and resolved to only keep such a number of men as could be paid on the basis of a pay-roll of two thous-

and dollars per month. At present there is one more patrolman than is contemplated ; but the loss of time by sickness and other causes has so far kept the amount within the stipulation.

The Board are convinced that the pay of the men and Sergeants is too low, and that it will be impracticable to depend upon keeping them longer than when there is a revival of business ; for many of them can do better pecuniarily than accept that price. When that time does occur, it will be necessary to increase the pay, or else discharge a number, in order that those who are left may be sufficiently compensated.

Owing to the extent of territory comprised within the City limits, and the fact of its being a commercial center, which attracts people of all classes, we need a larger number of policemen than most other cities with the same population. In adjusting the expenses to the amount directed by the Council, the Board believed that the interest of the City demanded that the efficiency of the Force should not be lessened by reducing the numbers, if possible to avoid it, and therefore reduced the pay to the lowest amount at which good men could be induced to stay. When it is considered that the expenses of a patrolman for clothing, and other incidentals, required by the rules to promote the respectability and efficiency of the Force, are fully one hundred per cent. greater than that of men engaged in other pursuits, where similar wages are received, it will be seen that the pay is too low, and that a reasonable demand for labor will induce them to seek other avenues for employment, unless they are better compensated.

THE TRAMP QUESTION.

Last year an arrangement was made with the Workhouse authorities for lodging tramps and destitute persons, who were required to do a certain amount of work on streets, under the direction of the Street Commissioner. That officer made a very favorable report of the work done by these persons, for their food and lodging, which will be found in our last Annual Report. Early last summer the Workhouse Board refused to carry out the agreement ; and accommodations had to be made for this class of persons at the Station House, or else permit them

to beg from house to house. The accommodations at the Station House are very limited, and the large number of these destitute persons, who have been compelled to apply for lodging and food, has taxed the accommodations so heavily as to make it almost a nuisance. If some better provision could be made, we believe the public interest would be conserved.

STATE LAW.

As *germain* to this subject, we think it would be better if the question of relief to tramps could be settled by State law; as it is, the Infirmary fund escapes any draft, because the Infirmary Director refuses to grant relief to the starving man, because he has not gained a residence in the corporation. The theory of our civilization declares that the public is *compelled to relieve destitution and distress wherever found*; and the law also makes the public authorities liable to pay for such relief, when, from any cause, there is a necessity for it, either by providing food, lodging, or medical aid. The tramp nuisance has become so formidable as to attract general attention, and it is hoped, for the benefit of the country, that some satisfactory solution of it may be worked out.

MORGUE.

The County Commissioners are now proposing to supply a Morgue, and desire the City to join them in obtaining a building, which could be utilized for that and other purposes of the City. The Board recommend that some action be taken, in connection with the County, for providing these accommodations.

Respectfully submitted.

W. W. JONES,

President Police Board.

JOSEPH KEIP, *Secretary.*

Captain and Acting-Superintendent's Report.

TOLEDO, *February 5th*, 1878.

To the Mayor and Police Commissioners:

GENTLEMEN:—It affords me great pleasure in this, my Report for 1877, to say that perfect unanimity of action between yourselves, myself, and the Force, has existed during the entire year.

In all important matters, or such as I deemed proper to lay before you, I have invariably found your advice and counsel of great benefit to me in the discharge of the onerous duties of my position. To your hearty support of my efforts to enforce discipline; to the Mayor and other individual members of the Board, for their earnest and valuable advice in many matters that have presented themselves, belong the credit of the enviable reputation of the Force at home and abroad.

During the past year, notwithstanding the very great stringency of the times, the vast amount of unemployed labor that drifted to the City, the many incentives to crime, occasioned by the unexampled number of unemployed men, women, and children, and their consequent poverty, I am pleased to be able to report that at no time since I became attached to the Force has there been less crimes of great or small magnitude.

I can only attribute this result to the vigilance of the Force in the prevention; or, in case of the accomplishment, to the certainty of arrest and punishment of the offender.

No crime of serious magnitude has been committed without detection; and almost invariably has the criminal been apprehended and punished.

During the railroad and labor strikes, and the Tri-State Fair, the Force were on duty day and night. In no instance did any member of the Force attempt to shirk or avoid duty or danger; on the contrary, they performed it cheerfully, promptly, and efficiently. I am under great obligations to the Sergeants and Roundsmen, for their earnest and successful efforts in assisting me to preserve and enforce the necessary discipline; and to the efficient and proper discharge of police duties by the Patrolmen.

At the first meeting of your Board in December, the office of Detective was abolished. Since that time those duties have been most satisfactorily performed by regular Patrolmen, detailed for that purpose.

I most respectfully refer you to the Report of your Secretary, for a detailed report of the workings of the Force for the last year; and must say that I am justly proud of the record which my little handful of men have made during the past year.

Thanking you, one and all, for the many kindnesses and favors which the Force and myself have received at your hands,

I am, gentlemen, with great respect,

Your very obedient servant,

J. C. PURDY,

Chief of Police.
