Police Commissioners' Report.

OFFICE OF THE POLICE BOARD, }
Toledo, Jan. 1, 1877. }

To the Honorable Common Council:

GENTLEMEN:—The Board of Police Commissioners of the City of Toledo, as guardians of the public peace and good order therein, take pleasure in submitting to your Honorable Body, this our Annual Report of the condition and transaction in the Police Department, for the year 1876, just closed.

Though eventful in history as the first of the Second Century of our National existence as a Republic, the year just departed has been an unimportant one in our Police affairs, little having transpired to seriously shock the moral sense of our community; consequently we are confined to record simply, though not reluctantly, the ordinary routine of Police transactions.

We have been remarkably fortunate in escaping crime of magnitude and the periodical marauding expeditions of burglars and thieves from abroad, who have infested our neighboring Cities. The central portion of our City has been almost entirely free from their depredations, while their operations in the distant and unprotected suburbs, though not numerous, have been in a great measure prevented by the vigilance and energy of the Department in ferreting out and bringing the offenders to justice. Arrests for minor offenses have but very slightly increased upon previous years; while the amount of money and goods reported stolen has been reduced at least forty per cent.

Under the items of drunkenness, disturbance, and their adjuncts, we are pleased to report a decrease of about ten per cent., as against the number reported last year; while petty offenses against property have somewhat increased, which is no doubt partly due to the straightened circumstances of the poorer classes, very many amongst whom have been for a long time without employment. It may also be added, that with the increase of population an increase of crime will follow as a natural consequence, unless the efforts made to improve the condition of the poor and laboring classes keeps pace with the increase of population.

Society has yet another important duty to perform, which it will be well to seriously consider: it must raise the plane of public morals, and teach the rising generation wholesome lessons as to social duties. An examination of the tables of this and previous reports of the educational attainments and age of prisoners, abundantly shows that education without sound moral instruction does not tend to improve the character of society. Laws can and are made to protect society, by punishing the offender; this is well, so far as it goes, but it is a remedy without the cure, and it remains for society alone to effect the latter.

The regular recurrence of almost the same number of the same petty crimes proves these to be inherent to the natural condition of man when in close community; yet the friends of humanity and its morality need borrow no special anxiety, so far as our City is concerned, in this respect, when we take into consideration the total number of arrests, after deducting those made upon requisitions from abroad, and such for which no sufficient grounds were found, it leaves us but one arrest per day for every ten thousand of our population. Nor can any essential increase of crime be detected in any one particular direction.

The Police, so far as lies within its power, have used their best endeavors for the protection of the community, and their activity in that direction has been commendable. The year just closed, on account of its political campaigns, has been one of unusual public excitement. And the great Centennial Celebration, held in this City during the 3d, 4th, and 5th days of July, though assisted by the appointment of an additional force for the emergency, which rendered valuable services, it may be said severely tested the efficiency of the Police in controlling

the dense crowds with which our streets were filled during those days of public joy; offering splendid opportunities to the petty thief and pick-pocket to ply their nefarious trades, and no less to the crowds of roughs ever ready to instigate tumult; but, so far as ascertained, not even an attempt was made at either, and it was the general, and we may say pleasant, surprise of the community at the close of the festivities to find that no accidents had happened nor any serious crime been committed in their midst to mar the pleasure of the occasion. This result, we do not hesitate to aver, is greatly if not entirely due to the zeal and activity displayed by the Police.

Many instances could be cited of heroic and gallant conduct of individual members; of their utter disregard for self, when duty called them to the performance of acts necessary for the rescue or protection of life and property.

The important question, how shall we better protect our large and extended suburbs, has been fully discussed, but from the limited means at the command of the Board, little could be done to afford adequate relief. To mitigate this evil, a force of several hundred men, or a complete system of Police Telegraph, would be necessary. Private enterprise has established a District Telegraph in the City, and upon the petition of the Directors of the Corporation, requesting a policeman to be detailed and stationed at its office, proposing at the same time to put the signal circuit of the Fire Department Telegraph to the additional use of police telegraph signals from every Engine House in the City; also to make a like arrangement with the Water Works Telegraph. The Board has met the proposition by adopting the following, which was accepted by the District Telegraph Company:

1st Put a box in the Central Station, subject to the use of the Police Department, and connecting with the Central Office of the Company.

2d. If it shall be desired by the Fire Department, permit the wires now used to connect the several Engine Houses to center at the Principal or Central Office of said Company.

3d. To request the (private) owners or lessees of boxes to not only permit their use for the general good, but also to use them, when occasion may arise, for the benefit of individuals, or for the prevention of crime in their vicinity.

4th. To keep in repair all instruments used in carrying out the aforesaid propositions, as well as putting up all wires and apparatus necessary for the carrying out of the same.

5th. To do all the foregoing without expense to the City ; in short, to protect the City against any expense attendant upon the acceptance of their said proposition, except the salary of patrolman.

Upon the foregoing conditions, the Police Board hereby agrees to direct the Chief of Police to place a patrolman, day and night, upon a beat, which shall embrace Summit street between Madison and Jefferson, who shall be subject to the calls through the office of the District Telegraph Company ; provided, that whenever the Police Board shall believe that the public interest is not subserved by such use of its patrolmen, it shall have full power to rescind its action ; and the District Telegraph Company shall be privileged, whenever notified of such action, to remove any boxes, wires, connections, or apparatus, constructed by it under this arrangement.

The tramp nuisance, and the proper disposition of lodgers nightly congregating at the Station House, has received mature and careful consideration, and the following order in relation to the subject has been made by the Board :

Resolved, by the Police Board of the City of Toledo, That all male persons hereafter applying to any of the City authorities for lodging and food at the expense of said City, shall be lodged and boarded at a building to be provided at the Work House Yard, upon the following conditions, to-wit :

1st. That each and every able bodied person so applying for relief, or board, or lodging, at the expense of the City of Toledo, shall be offered work, by the proper City authorities, on the morning following the first night that such lodging and food has been furnished them, to be

performed under the direction of the Street Commissioner: and for such labor they shall receive a suitable compensation, to be applied to the payment of the cost and expense of providing such lodging and food.

2d. The feeding and lodging of all such persons above specified shall be under the direction of the Superintendent of Work House, who shall, until further orders, furnish food to such lodgers in accordance with the rules heretofore prescribed for inmates of the Work House; and said Superintendent is further requested to transfer all cots or bunks not now in use at the Station House to the Work House Yard for the accommodation of such lodgers.

3d. The co-operation of the Board of Work House Directors is hereby respectfully requested for the carrying out of the provisions of the foregoing resolution.

After the above order had been in force one month, the Street Commissioner reported the following result upon its effect:

“The experiment of making this class of poor work for their board and lodging has far exceeded my most sanguine expectations; they have done more labor—and done it without compulsion—than I expected they would do. It has reduced the number applying for assistance, it has relieved our citizens from being called on for something to eat, and has done more than paid all expenses for feeding and lodging them, and I feel confident the same result will follow hereafter.”

The ordinance to restrain cattle from running at large within the City limits has been strictly enforced, but has been a source of considerable annoyance to Police authorities on account of the many importunities for release of stock impounded without paying the prescribed penalty.

In compliance with a resolution of your Honorable Body, limiting the expenses for salaries to the Police Force to \$36,000 per annum, the Board has made a reduction of three members of the Force, namely: two Detectives and one Sergeant, and has also reduced and fixed the salaries of the Police as follows: Captain of Police, \$1,100 per annum; Detective, \$800; Sergeants, each, \$800; Roundsmen and Patrolmen,

each, \$720. This, with the number of the Force at present, consisting of one Captain, one Detective, two Sergeants, two Roundsmen, forty-two Patrolmen, and adding the salary of the Secretary of the Board, will cause an expenditure of \$35,580 per annum, being \$420 less than the amount limited by your Honorable Body. There is in the Treasury, to the credit of the Police Fund, at the date of this Report, the sum of \$2,261.50, which, with the levy of two mills on the tax duplicate of 1876-77, will be sufficient to meet the wants of the Fund for the ensuing year, so that no special appropriation will be necessary.

The amount reported to the credit of the Life and Health Fund in our last Report has been reduced \$153.48, which is chiefly due to the very small amounts received from per centages from rewards for extra services reported, and the expense attendant upon the decease of two members of the Force. The Fund has now a credit of \$488.22.

The health of the Police Force during the past year has not been up to the usual standard. Considerable time has been lost on account of sickness, and we regret to be compelled to record the death of two of its most valuable members, Sergeant Henry Stricker and Patrolman Bertrand Langel.

In justice to the Police Force, we will say, in conclusion, that it has our entire approbation for the very efficient and valuable services rendered, and the meritorious conduct displayed in the discharge of its duties; and while not wishing to make invidious distinction, our thanks are nevertheless due to J. C. Purdy, Chief of Police, J. M. O'Sullivan and J. J. Nohl, Sergeants, Ed. O'Dwyer and W. P. Scott, Roundsmen, for the able manner in which they have discharged their duties as superior officers, and the exemplary influence they have brought to bear on the members of the Force.

SPECIAL POLICE.

Special Police Powers, without pay, are conferred upon persons upon recommendation and request of citizens, when in the opinion of the Board the persons so empowered have the necessary qualifications to use such power intelligently, and for the welfare and good order of the community. Usually, however, these powers, extending through the entire Police District, are requested more especially for the purpose of protecting business and manufacturing interests from depredations and theft, which the small number of the Regular Force, in comparison with the large territory under its care, is unable to sufficiently protect.

Numerous petitions, calling upon the Board for Police protection throughout the extensive suburbs of the City, have to be ignored on account of the inadequate number of our Force, which the Board is unable to augment, for reasons sufficiently cognizant to your Honorable Body; and it is only through the appointment of these Special Policemen upon request of parties individually interested that the evil is in a measure removed.

The following were appointed during the year:

COST OF BOARDING CITY PRISONERS.

The cost of boarding prisoners at the county jail, sentenced to confinement at that place by the Police Court, has, since the operation of the City Work House, been reduced over one-half, and amounts to \$687.70, against \$1,557.65 in the previous year.

No exact statement of the cost of feeding prisoners at the Station House while awaiting trial, or those sentenced to the Work-house, can be given, as food is furnished alike to prisoners and lodgers and those asking momentary relief at the Station House, without a separate account being kept of the cost for each specific purpose; nor can an exact aggregate cost of the whole be arrived at, as quite a number of bills contracted for the above purpose have not been rendered at the close of the year. The items for feeding all classes of persons at the Station House and City Work House, gathered from the claim ordinances for the year, and such bills as have been rendered up to the date of this report, amount in the aggregate to about \$1,450.00.

LOST AND STOLEN PROPERTY.

Money and goods reported stolen and lost during the year amount to \$7,944 45, of which \$5,199.14 has been recovered and returned to owners. The larger portion of the amount stolen is due to the unprotected condition of the suburbs of our City, most of the burglaries and petty thievery being committed in those localities. Much credit is due the Police force in tracing up and recovering nearly all property stolen, and bringing the guilty to justice.

DETAILS FOR DUTY.

No material changes in the details for duty have been made since our last Report. The Police Force, as then, is divided into three Reliefs, one for day and two Reliefs for night duty, comprising one Sergeant and fourteen Patrolmen on duty in day time, and one Sergeant, two Roundsmen, and twenty-eight Patrolmen for duty in the night time, giving each member alternately two weeks day and four weeks night duty. Day duty commences at 7:30 A.M. and ceases at 7:00 P.M., allowing one hour alternately for dinner. Two Reliefs are set aside for night duty, of which the first enters on duty at 6:50 P.M. and remains until 5:00 A.M.; the second relief enters on duty at 9:00 P.M., and is relieved at 6:00 A.M., one-half hour being allowed for lunch between the hours of twelve and one o'clock.
