

ANNUAL REPORT

OF THE

POLICE AND HEALTH BOARD

OF THE

CITY OF TOLEDO, O.

FOR THE YEAR ENDING DECEMBER 31ST,

1881.

ANNUAL REPORT

— OF —

THE POLICE AND HEALTH BOARD

— OF THE —

CITY OF TOLEDO.

TOLEDO, O., January 1, 1882.

To the Honorable City Council, Toledo, Ohio.:

GENTLEMEN,—In accordance with section 1996 of the revised statutes of the State of Ohio, we herewith submit the annual report of the Police Department for the past fiscal year.

Respectfully yours,

JACOB ROMEIS,

Pres. Police and Health Com'rs.

ABNER L. BACKUS.

JOHN CUMMINGS.

HERMAN BAUMBACH.

GEO. MILMINE,

Commissioners.

JOHN H. MCGUIRE,

Secretary pro tem.

REPORT OF SUPERINTENDENT OF POLICE.

HEADQUARTERS TOLEDO POLICE,

February 1, 1882.

To the Honorable Board of Police Commissioners :

GENTLEMEN,—By appointment from your honorable body I assumed command of this Department on the twentieth day of June last. Since that time I have endeavored to the best of my ability to see that the ordinances of the city and laws of the State and government were enforced, and I trust that the manner in which it has been done has been acceptable to all parties concerned.

The force as at present organized consists of 45 patrolmen, 4 sergeants, 3 Detectives, 1 Lieutenant, 1 Captain and Acting Superintendent, making a total of 54 men. Of the Patrolmen, one is detailed for court duty, two for sanitary work, leaving a working force of 42 men. Fourteen of these are detailed for day duty, leaving 28 for night service, which it will be readily seen is vastly insufficient, considering the large amount of territory which has to be protected. However, taking everything into consideration, I think I can truly say that Toledo has fared far better during the past year in the way of escaping loss by thieves than any other city of its size.

For statistics showing the changes made in the Department and the workings of the force, I would respectfully refer you to the report of the Secretary. The increasing population of the city and the consequent increase in the demand upon this Department for assistance and protection, brings plainly forward the necessity of having more men.

This need has doubtlessly suggested itself to your honorable body ere this, and has also been referred to in my monthly reports. Use could be made of double the number of men that we have at present, and all be located in portions of the city where their presence is required; yet such an increase as this cannot be expected, but the full number allowed under the law should at once be added to the force.

In this connection I desire to suggest the advantage that would be derived from the possession of a patrol wagon operated under the present system in use in Chicago. Sentry boxes are placed in different parts of the city from which notices of needed police assistance are communicated to headquarters by electricity. Almost instantly the patrol wagon, equipped with at least three competent men, is forwarded to the spot, and whatever assistance is required can be rendered nearly as quickly as officers could be summoned from adjoining beats. In this way three men acting under special orders, can be made to perform service which would soon become invaluable. They would be equal to at least six times their number added to the patrol force.

If the establishing of sentry boxes equipped with call bells and telephones, which are the principal cost of the system, appear too great and cannot be afforded, I would suggest that a patrol wagon be furnished to answer calls by telephone such as we now receive. A team of horses and a wagon for this department is an actual necessity, and could also be used in conveying prisoners to the jail of the county, work-house and house of refuge, or sick and wounded persons to their home or a hospital. It is not generally known that the present method of escorting prisoners through the street after having been convicted is against the law, and liable to cause the city a suit for damages at any time, yet such is the case, and is a matter which should be taken into consideration by your honorable body at once.

Another feature which I would suggest for the better detection of criminals, is a rogues' gallery. This addition can be made at a comparatively small expense. That each prisoner bound over for felony, or known to live by unlawful practices be photographed, and it will assist very materially in securing him a second time, should he be wanted.

This is a feature which the department should have adopted years ago, and is in practical use in all other cities of any note.

I have several times referred in my monthly reports to the inadequate salaries paid the members of the patrol force. The present salary, while it may be sufficient for inexperienced or incompetent men, yet you will undoubtedly agree with me when I say it is insufficient for a man who has proven himself a brave and responsible officer, and one whom the city should take pride in keeping in the service.

Experience has proven that out of the men appointed a large per cent. serve but a short time, some resigning for various causes, while others are discharged upon being found incompetent. You will also agree with me in saying that the service of experienced men should not be put upon the same footing as new appointees.

That this inconsistency may be remedied, I would suggest the adoption of the London plan, *i. e.*: let the present salary be paid men for the first year's service. If at the end of that time they prove themselves worthy, add one hundred dollars, and after two years' service one hundred more.

A census of the city has just been completed by the day patrol force which I consider nearer correct than any that has yet been taken As compiled it is as follows:

Public buildings.....	52
Places of worship.....	52
Places of amusement.....	8
Hotels.....	25
Banks	11
Cemeteries.....	4
Large manufactories.....	115
Small manufactories.....	195
Business blocks.....	425
Wholesale dealers	186
Retail dealers.....	825
Railroad depots.....	8
Vessels in Harbor.....	85
Dwellings.....	9153
Population	56915

For the support and consideration I have received from each member of your honorable body, I desire to thank you most heartily; and to you I wish to express my appreciation of the valuable assistance rendered by the men of my command.

I remain, gentlemen, your obedient servant.

E. E. MORSE,

Chief of Police.

ANNUAL REPORT

OF THE

SECRETARY POLICE AND HEALTH BOARD.

1881.

OFFICE POLICE AND HEALTH BOARD,

January 1st, 1882.

}

Mr. President, and Gentlemen Police and Health Commissioners.

In compliance with the annual custom established from a desire to acquaint the members of this Board, in common with the community at large, with the services performed by the members of the Police Department, I herewith submit a synopsical review, accompanied by a tabulated statement of each incident suggestive of importance embracing the past fiscal year. The period covered by this report has recorded a great many changes in the affairs of this department, both varied and important. The law enacted by the General Assembly, April 8th, A. D. 1881, causing the abolishment of the former Police and Health Boards, and providing that the same be under the supervision of four commissioners to be elected by the city at large, excepting the first four which

were to be appointed by the Governor of the State, for 1, 2, 3 and 4 years respectively, with his Honor the Mayor as ex-officio president, went into effect immediately after its passage, and the following gentlemen were appointed members of said Board, in accordance with the law, viz: Abner L. Backus, Guido Marx, John Cummings and George Milmine. On September 1st, 1881, Hon. Guido Marx tendered his resignation, and the Common Council appointed Mr. Herman Baumbach to fill the vacancy until an election was had. The Standing Committees of the Board are as follows, to-wit:

Claims Account and Official Papers, Messrs. Backus, Cummings and Baumbach.

On Station House, Messrs. Cummings, Milmine and Baumbach.

On Applications for Membership, Messrs. Milmine, Backus and Bumbauch.

On Discipline, Messrs. Backus, Cummings and Milmine.

On Health, Messrs. Cummings, Backus and Milmine.

FINANCE.

The pay rolls of the police from January 1st, 1881, to January 1st, 1882, amounted to \$29,262.88; balance to credit of fund January 1st, 1882, \$4,873.76; levy for 1882, \$33,761.54; total to credit of fund, \$38,635.00. Hereafter incidental expenses of the Chief, buttons, badges, stationery, etc., will be paid from this fund. During the past fiscal year for those necessities was expended \$450.98; pay rolls for sanitary department for same period, \$4,347; fund overdrawn January 1st, 1882, \$212.98; levy for 1882, \$8,440.38; amount to credit of fund, \$8,227.40; amount to credit police pension fund January 1st, 1882, \$516.95; police court assessments of fines in city cases, \$21,636.47; collection, \$8,208.48; paid witnesses, \$1,032.82; balance deposited with city treasurer, \$7,175.66; assessment in State cases, \$9,208.75; collected, \$2,271.99; incidental expenses of police department including the food account for Station House, \$526.71; incidentals health department, \$2,008.

STATION HOUSE.

Under the prison rules Section 21 provides that a room shall be provided by the Turnkey for interviews between attorneys and their clients, where such interviews may be conducted in privacy and without interruption. Under the present management it is impossible to comply with the above provision, and attorneys are obliged to see their clients in their cells, and often in the presence of other prisoners. The room now designated for the accommodation of lodgers might be used also for this purpose, and the necessary expense for arranging this convenience would be very trifling. Otherwise the Station House seems to be adequate to meet all present demands, and ample accommodation for the full quota of men appointable under the existing Statute.

One thousand nine hundred and thirty-five persons were furnished lodging during the year, 1855 males and 80 females. The reduced circumstances of these people make it necessary to furnish them with a sufficiency of food to relieve their immediate wants, and the cost of this assistance was \$75 73

The persons properly in charge of this building are Messrs Stein and Kirk, doormen, and Mr. Horlein, engineer. The duties involving upon the former gentlemen are very important as well as tedious. All the valuables of imprisoned persons are deposited with them, and dishonesty is as yet unknown to impair this important trust. But the most desirable qualities of the men that fill this position is the treatment they are capable of giving persons under their charge. They are compelled to deal with people of all classes and in all grades of life, and the mental derangement of a large number of those people, caused by intoxication, make their actions tolerable only to the most charitable nature, and dealing with this class of individuals is where these officials have established their worth, and such qualities are too rare to go unappreciated or too valuable to go unrewarded.

The engineer, Mr. Horlein, is a practical mechanic and has proven himself a very valuable employe to the city. In connection with the duties environing his position, he has saved the city considerable expense by keeping the pipes in order, and doing general repairing about the building.

STATISTICS.

Total number arrests for the year, 4,100; increase over 1880, 797; over 1879, 1,315; native born, 3,275; foreign born, 825; white, 3,866; colored, 234; discharged by the criminal court, 978; sentenced, 3,122.

Hereto annexed are the various tables.

Yours Truly,

J. H. McGUIRE,

Secretary *pro tempore.*

MEMBERS OF THE FORCE.

The following list shows the name, rank, date of appointment, and salary of the several members of the present force:

Rank.	Name.	Appointed.	Salary.
Capt. and Act. Supt.	E. E. Morse	June 19, 1881	\$1500 00
Lieutenant	Edward O'Dwyer	July 19, 1871	900 00
First Sergeant	Henry Hugh	July 2, 1869	720 00
