TWENTY-FIRST ANNUAL REPORT

OF THE

Board of police Commissioners

OF THE

CITY OF TOLEDO.

OFFICE OF THE BOARD OF POLICE AND HEALTH COMMISSIONERS, }
TOLEDO, O., January 1st, 1889. }

To the Honorable Common Council City of Toledo, Ohio:

GENTLEMEN:—In compliance with the provisions of the Revised Statutes of Ohio, we herewith submit this, the Twenty-first Annual Report of the Police Department for the year ending December 31st, 1888.

For a detailed record of the department we respectfully refer your Honorable Body to the accompanying reports of the Chief of Police and Secretary of this Board.

When it is remembered that Toledo is a seaport city, and that during the season of navigation a large number of steam and sailing vessels daily arrive and depart; that it is the center of one of the most extensive railway systems in the country, making it any easy "dumping ground" for vicious and desperate characters, who, by a journey of seven miles northward would be outside of the jurisdiction of Ohio,

and that during 1888 many large assemblages were held, bringing thousands of strangers to the city, it is not without credit to the department that so little crime has been committed within a territory containing $21\frac{1}{2}$ square miles, and a population approximating 100,000, guarded by seventy patrolmen under the supervision of superior officers.

We have frequently been petitioned by citizens of the out-lying sections of the city to afford them greater security by increasing the patrol force in their respective localities. In every instance we have recognized the reasonableness of the petitions, but when we have felt compelled to deny the requests after consultation with the Chief of Police, it has been in consequence of the hazzard that would attend life and property should any number of policemen be detailed from, and vigilance in any degree be abated, in the more central and populous portions of the city, that affords greatest temptation for crime.

Twice during the year we have requested authority from the Common Council to increase the patrol force, and we believe now, not less than heretofore, that such increase should be made, at least fifteen in number.

The necessity for erecting a suitable patrol barn in the central portion of the city, accessible to the police station, is urgent. The patrol barn now occupied without definite lease, but at the pleasure of the owner, is decidedly unsuitable for the purpose now employed, not being sufficiently commodious, light nor healthy.

With a view to inaugurating district stations which would facilitate the work of the department, we renew our former request for the erection of a sub-station in the vicinity of the Wheeling and Lake Erie depot. The erection of such stations is no experiment; they are in use in most of the principal cities of the country, and are regarded indispensable to the greatest efficiency in the police branch of city government.

By the adoption of Sec. 2141 of the Revised Statutes, Sec. 2136 is no longer applicable to the city of Toledo. By the former section the duties usually pertaining to boards of health devolve upon the police board.

The absence of anything approaching epidemic, and the exceedingly low percentage of deaths appearing in the mortality report of the health officer, are referred to as evidence that the sanitary condition of the city has not been neglected.

For the purpose of detecting and exposing imposition in adulterated and unwholesome food, the services of a chemist, at a moderate compensation, have recently been employed

Inability to successfully prosecute, in the absence of expert testimony, the violators of law, who, from mercenary motives, dispose of food dangerous to life and health, we believe justify the action in creating the office of chemist.

Mercenary motives, disposing of food dangerous to life and health, will, since the appointment of a chemist, no longer exist. The necessity for making a thorough analytical test of articles suspected of adulteration, in the numerous articles of daily consumption, is best appreciated by those who have had experimental knowledge of sanitary subjects. We particularly endorse the suggestions of the Health Officer, Dr. Collamore, respecting a thorough system of plumbing. His entire report we commend to your thoughtful consideration.

Respectfully submitted,

J. K. HAMILTON, *President*,

ANNUAL REPORT OF CHIEF OF POLICE.

HEADQUARTERS POLICE DEPARTMENT, }
 TOLEDO, O., January 1, 1889. }

To the Honorable Board of Police Commissioners, City of Toledo.

GENTLEMEN:—I beg leave to submit this, my fourth annual report of the operations and condition of the Police Department for the year 1888.

The numerical strength of the force is about the same as that of the previous year, to-wit:

Chief.....	1
Lieutenant.....	1
Sergeants.....	6
Detectives.....	3
Patrolmen.....	70
Patrol Wagon Sergeant.....	1
Patrol Drivers.....	2
Hostler.....	1
Secretary.....	1
Total.....	86

The 70 patrolmen of the force are detailed as follows :

Market superintendent.....	1
Court officer.....	1
Serving official papers.....	1
Detailed with Health Department.....	2
Detailed as detectives.....	2
Detailed with patrol wagon.....	3
Detailed as turnkey.....	1
Regular patrol duties—days.....	15
Regular patrol duty—nights.....	45
Total.....	70

The following changes have occurred in the force during the year:

Patrolmen dismissed	2
Patrolmen died.....	1
Detective resigned	1
Patrolmen appointed.....	4
Patrolmen promoted to detective.....	1

The accompanying schedule of arrests show a total of 3,866, of which 888 are state cases; and, 2,978 city cases, and, as compared with the previous year, show a falling off, in the aggregate, of 11 arrests.

I desire to state here that this shortage is not due to any lack of efficiency or promptness on the part of the police in making arrests; I am satisfied it is due to the fact that the city has been more orderly, and hence less occasion for arrests, and I am further satisfied—and I trust that the general public are also—that the violation of the laws and ordinances that are reasonably within the control of the police have been reduced to the minimum during the year just closed.

We have had but few burglaries, and in no case of theft or burglary has the value of property taken exceeded \$300 dollars, and by reference to the accompanying statement of stolen and recovered property it will be seen that the department has been eminently successful in the recovery of stolen property.

In preparing the statement referred to I have seen fit to include two items; \$900 in one instance, and \$150 in another, that might properly have been omitted.

The amounts mentioned were secured by confidence men from non-residents, who were *en route* to points that necessitated a short stop at the depot, and the slight pretext upon which they gave up their money was most incredulous.

Few, if any, noticeable disturbances occurred during the year, and police matters generally have been very quiet.

The two arrests for murder recorded in July were the arrests of the principals in a case of abortion, the circumstances of which were so very serious, that the charge was originally made murder, but the defendants were bound over to the Common Pleas Court on the charge of abortion;

and the case has not, as yet, been disposed of. The tardiness of courts generally in dealing with such cases is painfully remarkable, and it is little wonder that advantage is taken of the premium that seems to be offered on this particular and most atrocious crime.

The department has experienced much trouble in a vain effort to enforce the city ordinance in reference to the cleaning of snow, ice, etc., from sidewalks.

It would be impracticable to attempt to arrest the violators of this ordinance, for that could not be accomplished in a month; there are various other reasons that render it impossible for the police to enforce the ordinance to any satisfactory extent. I would therefore recommend that the Common Council be requested to frame an ordinance, directing the Street Commissioner to clean the sidewalks (and cross walks) where property owners fail to, and certify the cost of same to the City Clerk as a special tax against the property. Such an ordinance, I think, would be pretty thoroughly obeyed, and its violation would furnish work for needy laborers.

I would respectfully request the Board to secure the necessary legislation for the establishment of a small Contingent Fund to be used by the department in pursuing fugitives from justice, securing requisitions, etc. The want of such a fund has long been felt for the reason that when a sum of money is required for the purposes mentioned, some individual of the department is obliged to advance the amount, and frequently he is not reimbursed for months, if at all.

I feel indisposed to repeat the recommendations and requests I have so frequently and recently made in reference to the imperative necessity for a new patrol barn adjacent to the central station, the establishment of a sub-station with a patrol wagon, and the appointment of the maximum number of patrolmen allowed by law. I would state, however, that if the efficiency of the department is to be maintained those additions are absolutely necessary to that end.

The detective force have labored diligently during the year; their vigilance and efficiency has been frequently demonstrated by the timely

arrest of professional burglars, confidence men, and general thieves. I have only words of commendation for those officers.

I have been attacked frequently and severely by citizens through the newspapers on the subject of closing the saloons on Sunday—the statement having gone out that I said the law, in this respect, could not be enforced. Now, I wish to state, as I believe this to be the proper time and place, that it has never been my desire to manage the police department, or air its course of management through any medium of the public press, and hence it is that the statement referred to was not contradicted. Were I now unable to truthfully deny the statement I should certainly feel considerable chagrin at the attacks, but as it is I have no blushes or excuses to offer—simply a flat denial of the alleged statement that the saloons could not be closed on Sunday. I never said that the law could not be enforced, for, indeed, if I was inclined to that opinion I would not be so indiscreet as to give it out for publication.

My position on the saloon question is precisely the same as my position on any other matter within the line of my duty, and I submit to the judgment of the general public whether or not I have endeavored to secure obedience to the laws within the scope of my authority, and I submit the condition of police matters in this city for judgment in passing upon the management of this department. Eleven arrests for the violation of the Sunday liquor law were made during the year, and the defendants were all convicted and fined.

As I have stated in my former annual report, I believe that a little time and discretion in the matter of arrests will bring about a close observance of the law.

For an account of the finances of the department, and other matters of interest, I would refer you to the accompanying report of the Secretary.

In conclusion I desire to offer a word of commendation to the force as a body, for faithful performance of duty, and return thanks to the individual members of your honorable Board for your constant and generous support.

Respectfully submitted,

EDWARD O'DWYER,

Chief of Police.

REPORT OF SECRETARY.

OFFICE BOARD OF POLICE COMMISSIONERS, }

TOLEDO, JANUARY 1st, 1889. }

To the Honorable Board of Police and Health Commissioners:

GENTLEMEN:—In compliance with the annual custom I beg leave to submit the following summary of police matters for the year 1888:

HON. J. KENT HAMILTON, *President.*

JOHN J. BERNEY, *Secretary.*

The board, as well as the officers of the department, are to be congratulated upon the flattering condition of the police and sanitary affairs of the city.

The commissioners, as chief executives of the department, are especially responsible for its affairs. I am in a position to know, and I can truthfully state, that it has been the aim of the board to bring the department to the highest standard of efficiency and discipline.

The deliberations of the board upon the sanitary affairs of the city are given in a voluminous report annually, prepared by the health officer and his subordinates.

FINANCES.

There was no levy allowed by the tax commission for police purposes for the year 1889, and the department will be entirely dependent upon the balance now in the fund, and the amount accruing from the liquor tax. It is obvious that with those limited resources some of the additions to the department, to which attention has been called in the accompanying reports, will have to be deferred.

Following is an itemized statement of the receipts and expenditures of the department, the police pension fund account, and the various tabulated statements, all of which is respectfully submitted.
