<i>On Official Papers</i>	—Messrs. Nohl, Baumbach and Merickel.

THIRTEENTH ANNUAL REPORT
OF THE
BOARD OF POLICE COMMISSIONERS
OF THE
CITY OF TOLEDO.

OFFICE OF THE BOARD OF POLICE COMMISSIONERS, }
TOLEDO, O., January 1, 1881. }

To the Honorable Common Council:

GENTLEMEN:—In accordance with the provisions of the ordinance in relation to the Police Department, the Board of Police Commissioners have the honor to submit the following report of the doings of the Department for the year ending December 31, 1880.

It affords us much pleasure to be enabled to say that since our last report our city has generally enjoyed peace and quietness, notwithstanding the disadvantages under which this department labors, in the numerical strength of our police force.

In preparing new rules for the government and discipline of the police, the Commissioners endeavored to fix as nearly as possible the responsibility of each member of the department, from the Superintendent down, and to make it entirely clear—not only to those already in office,

but to those who applied for admission—that appointments and promotions would be made only on grounds of merit and ability, and entirely independent of political or personal consideration or influence.

We are pleased to speak in approving terms of the successful management and efficiency of our police force, believing that there has been a *marked improvement during the past year, and that quite a number of officers on the force deserve special mention for their energetic and valuable services to the city.*

For the general information of the workings of the department, we respectfully refer you to the reports of the Secretary and Chief of Police, hereto annexed, which seem to contain everything necessary to give an adequate idea of the workings of the department for the past year, and containing such recommendations and suggestions as these officers deem proper for the general good and welfare of the city, all of which have our approval.

Very Truly Yours,

JACOB ROMEIS, Mayor and President,			
A. J. BEANS, Commissioner 1st District.			
FREDERICK RITTER,	“	2d	“

JOHN BOLAN,	“	8th	“

JOHN H. MCGUIRE, Secretary.

WM. P. SCOTT, Supt. Police.

REPORT
OF
SUPERINTENDENT OF POLICE.

OFFICE OF CHIEF OF POLICE,

CENTRAL STATION, *January 1, 1881.* }

To the Honorable Members of the Police Board, City of Toledo, O.:

GENTLEMEN:—Herewith I have the honor of submitting for your consideration the annual report of the Police Department, showing the strength of the force under my command, and giving such statistical information as will enable your Honorable Body to obtain a correct knowledge of the transactions of this important branch of the city government, for the fiscal year ending December 31, 1880.

For the full information of all the affairs of the department, I respectfully refer you to the Secretary's report, which contains everything necessary to show a complete outline of the condition of the Police Department.

The numerical strength of the police force for the past year has been as follows: One (1) Chief, two (2) Sergeants, two (2) Roundsmen, thirty-eight (38) Patrolmen, two (2) Doormen, one (1) Engineer, one (1) Assistant Engineer, and one (1) Janitor—Total, 48. Total last report, 48.

Of the thirty-eight patrolmen, one was Acting Market Master, one as Court Officer, and one Acting Detective, leaving but thirty-five patrolmen for patrol duty; until December 1, 1880, when your Honorable Body made the office of Detective permanent, then placing one more patrolman for patrol duty.

These, divided into three Reliefs, one for day and two for night duty, to look after two hundred and seventy-one miles of streets and innumerable alleys, give to each night patrolman eleven and one-third miles to patrol. The Patrol Districts, or Beats, of most all the men are entirely too large. But the large amount of territory we have compels us to extend our patrol districts so as to cover as large a part of the city as possible.

Considerable complaint comes from the unprotected precincts, by citizens and tax-payers. But it can hardly be expected that so small a force could give entire satisfaction to every citizen.

The total number of arrests for the year was 3,408 against 2,795 for 1879—an increase of 608, an average of 77 to each member of the force, and an average to our population of 15½. There have been twenty-eight (28) persons sent to the Ohio Penitentiary, their sentences aggregating 88 years, a decrease of State-Prison cases as compared with the record of previous years.

It is as much the duty of a police officer to prevent the commission of crime, if possible, as to bring the criminal to justice after an offense has been committed. The prevention of crime from roving criminals has been due, to a great extent, to the vigilance of the police force in promptly interviewing all suspicious characters, and giving them to understand that they must ply their vocation elsewhere; and also to the fact that these attentions to the criminal class are duly reported to their fellows elsewhere, and many are thus deterred from visiting us.

The amount of stolen property and money reported during the year is \$4,835, and we have recovered \$4,845—ten dollars more recovered

than was reported lost. We have also recovered 1,250 dollars' worth of property for other cities and officers, making a total of recovered property and money of \$6,095.

I deem it but justice to say that the members of the police department have performed their respective duties faithfully and efficiently during the year, and that the force is now in a good working condition. And I pledge my best efforts in promoting a faithful and economical administration of this department of our city government.

I would again respectfully urge upon your Honorable Board the necessity of having our State law changed, so as to allow one patrolman for every one thousand inhabitants, instead of one for every fifteen hundred, as it now is. The police force of our city is entirely too small in numbers for the protection of the citizens, and I can only hope your Honorable Body will at least see the necessity of increasing the force to at least one patrolman for every one thousand inhabitants, and to fix the rate of compensation at such a figure as will command the services of competent men.

The cry of some tax-fighters that men can be had to discharge the arduous and frequently perilous duties of a policeman at the wages paid ordinary laborers, may seem reasonable to many. But I feel assured that those of you who have given the matter any consideration will agree with me that the services of nine-tenths of the applicants for positions on the police force would be dear at any price.

I would respectfully call your attention to the necessity for a harbor police. The immense business transacted along our river front demands a share of police protection, and the last few years have shown us that a great many thieves are continually robbing our business men of their stores. They are supplied with small boats, and do their work at night, and thousands of dollars' worth of goods and property are taken away, year after year. Repeated complaints from our river-front business men, of property stolen, come to us, and, after investigation, show the work to be done by river thieves. To remedy this, I would suggest a good

small police boat, manned with about three responsible patrolmen, would have the desired effect. They would also be of good service as a life-saving crew.

I would also suggest the necessity of purchasing a horse and light wagon for the use of the department, which would pay for itself in a year.

In conclusion, I desire to again call your attention to the complete statistical tables hereto annexed, showing in detail the character and extent of work performed by the force the past year. The faithful, prompt and generous assistance rendered me by the Sergeants, Roundsmen, Patrolmen and Detective, during the past year, entitle them to my sincere thanks, and to more substantial recognition at the hands of your Honorable Body.

Trusting your Honorable Body will carefully examine this report, with a view of strengthening a department that has labored faithfully and earnestly to merit the approval of all good citizens, and proven a terror to evil doers, I remain,

Your Obedient Servant,

W. P. SCOTT, *Chief of Police.*

REPORT

OF THE

SECRETARY OF POLICE COMMISSIONERS.

OFFICE OF THE POLICE BOARD,

TOLEDO, O., *January 1, 1881.* }

To the Honorable Board of Police Commissioners of Toledo, O.

GENTLEMEN :—I take pleasure in presenting to your honorable body, as the legislative representatives of this important branch of our municipal government, a full report of the business transacted within the Police Department for the fiscal year just closed.

THE BOARD.

Since the last annual report four changes have occurred in the membership of the Board. The first change was caused by the death of the honorable member elect from the third district, William Cook Earl, who departed this life at his residence on Erie street, January 26th, A. D. 1880. On February 18, 1880, Col. L. F. Lyttle was appointed by the Honorable Common Council to represent the 3d district in this Honorable Board until an election was had. At the regular municipal election held April 2d, 1880, the following members were elected from the various districts: 2d

district, Frederick Ritter; 3d district, Col. L. Lyttle; 4th district, Alex. Nohl; 6th district, L. A. Metzger; 8th district, John Bolan. Messrs. Lyttle and Metzger were elected their own successors.

IN MEMORIAM.

At a special session of the Board of Police Commissioners, held on the morning of January 27th, 1880, the information was announced of the death of William Cook Earl, which occurred on the previous evening. Mr. Earl had been a member of the Board of Police Commissioners since April, 1873, and the faithful manner in which he served the public welfare in this, as in other important positions of trust, was ample proof of his fidelity to matters entrusted to his care.

It was ordered that the Board and the Police Force attend the funeral as bodies, and that the office of the Board be draped with crape, in memory of the deceased, for thirty days.

The committee appointed to draft resolutions relative to the death of Mr. Earl, presented the following, which was unanimously adopted :

WHEREAS: Death has visited our ranks and taken from among us our highly esteemed and much *confrere*, William Cook Earl. Therefore, be it

Resolved, That by the death of William Cook Earl the Board of Police Commissioners of the City loses one of its most active and upright members, whose greatest desire was to promote the efficiency of the force, so that they might become a power against evil-doers, and thus tender the protection to all good citizens, that would redound to the city at large.

Resolved, That in addition to his valued services as a member of this Board we are all aware of his efficiency in other public positions of trust which he has held during his long residence in this City, in all of which he performed his duties faithfully and to the entire satisfaction of all concerned.

Resolved, That in view of the death of Mr. Earl, Toledo loses one of its best citizens, a gentleman whose every act was characterized by motives of the purest kind, and whose general and charitable disposition made friends of all, high or low, with whom he came in contact.

Resolved, That the members of this Board and the Police Force attend the funeral of the deceased to-morrow. That the Secretary of this Board forward a copy of these resolutions to the widow and family of our late friend, expressive of our sympathy with them in their sad bereavement, and that a copy of the foregoing be furnished the papers of the City for publication.

SECRETARYSHIP.

By appointment from your Honorable Board, I assumed charge as Secretary, October 1st, 1880. I have endeavored to perform the duties of that office to the best of my ability, and, I hope, to the satisfaction of all concerned.

FINANCE.

The expenses necessary for the maintenance of our Police for the fiscal year was \$26,534 87; an increase of \$1,645 44 as compared with the previous year. The aggregate amount of fines and costs assessed both in City and State cases was \$22,149 08, against \$17,400 14 in 1879, an increase of \$4,748 94. The amounts collected were, in 1879, \$4,710 14; in 1880, \$8,502 59; an increase of \$3,792 45.

THE POLICE FORCE.

The discipline of the Police Force during the year compares favorably with former years, there being a comparatively small number of complaints preferred against members of the force, few of which were of sufficient gravity to merit dismissal.

The health of the members of the force has been generally good, there being but 234 days lost through sickness and other causes, averaging a loss per officer of six days.

The measure of success of a police department, to a large extent, is usually judged either by the absence or the number of crimes committed within the territory over which it has control, and the vigilance on the part of the police in bringing the criminal to justice. An examination of the tables hereto appended will be sufficient to satisfy the public that the police have discharged their arduous duties faithfully and well considering the amount of territory which each officer is expected to protect from criminal abuse.

It is a well-established fact that the police of the City are numerically insufficient, the population, commerce and thickly settled territory of Toledo have grown beyond all proportion to our limited force. As it is necessary to regulate the patrol districts of the officers so as to keep the central portion of the city well guarded, the small corps of policemen make it impossible to render the outskirts of the city much protection.

The greater number of burglaries committed during the year were confined to localities outside the patrol districts of the police, and at different times it was found necessary to detail officers in citizens attire to scout in the unprotected parts of the city, where danger was apprehended.

The number of arrests made by the Police Force during the year is 3,403; an increase of 608 as compared with the number made during the year 1879, and averaging 77 arrests to each member of the force. The arrests, according to population, was one to every 15 5.

STATION HOUSE.

The Police Station is kept in a very neat and tidy condition. The prison part of the building is thoroughly cleaned each morning by the Janitor, and in addition to this is washed twice each week with warm water. The prison cells are inspected once each month by the Chief of Police and Judge of Police Court, who are particular to see that no pains are spared to keep this part of the building in a healthy state.

The padded cell, for which we are indebted to Turnkey Stein, is found to be of great service where prisoners are insane or troubled with delirium tremens, as they are immediately removed to this cell, where it is impossible to do themselves personal injury.

It seems to be the desire of prisoners to cause as much damage as they can by the maltreating of private property while in their imprisoned state. The air pipes running through the male department of the prison are, at different times, found disfigured or broken and other damage is being done by prisoners which it seems impossible for them to do without the aid of some implement which they have secreted about their person when imprisoned.

The windows in this part of the prison are being continually broken by prisoners who wish to converse with parties outside. This might be prevented were iron blinds placed upon the windows from the interior, and this improvement might be made without much expense.

When it is possible to ascertain the perpetrator of these mischievous acts, due punishment is awarded the offender in our Police Court, but this seems to be a remedy without a cure, as it is only possible to ascertain who the guilty parties are when they are caught in the act.

The floor in the Turnkey's room and in the hall-way to the side-door is badly worn, and should be replaced with a new one, which seems to be the only repairs necessary for the present, unless the combining of the Detective and Patrolmen's rooms, which I believe is now under consideration.

The aggregate number of lodgers accommodated at the Police Station during the year was 2,807, being a decrease of 2,843 as compared with the year 1879. The decrease in this respect conveys the encouraging information that the hordes of tramps and destitute people who travelled from place to place during the past two or three years are rapidly disappearing, and have, with the revival of business, engaged in legitimate and useful employment.

LIFE AND HEALTH FUND.

The Police Life and Health insurance fund, as created under the law establishing a metropolitan police, has more than demonstrated the wisdom of its original suggestion. As this fund is principally supported from percentages from rewards for extra service reported, it makes it unburdensome to the members of the Police, and at the same time creates a fund which has at different times been quite an auxiliary in relieving distress among the members of the force, and the families of deceased officers. The fund has now a credit of \$448 85.

NEWSBOYS, BOOTBLACKS, ETC.

I would respectfully call the attention of this Honorable Board to an ordinance now in force in different cities requiring newsboys and bootblacks to procure a license to carry on their business, thus bringing the boys under the surveillance of the police, and causing them to respect law and order, as any infraction of the ordinance regulating their business would cause the license of the infractor to be revoked, and it would at the same time discourage the presence of this class of individuals from abroad, who assemble here in hordes on days of any public entertainment, much to the annoyance of our citizens.

GENERAL STATISTICS.

Of the total number of arrests made during the year 1,376 were married and 2,127 were single; 2,838 were males, and 565 females; 3,026 could read and write, 115 read only, and 262 neither read nor write; 2,930 were white, and 473 were colored; 2,115 were native born, and 1,288 were foreign born. Of the total number furnished lodging at the Police Station during the year, 2,724 were males and 83 were females.

CONCLUSION.

In behalf of this Board, as well as the community at large, I congratulate William P. Scott, John M. O'Sullivan and Edward O'Dwyer, the excellent officers of our police, as also the subordinate members of the force, for the faithful manner in which they have discharged the important trusts attached to their positions. While it may be true that at times some of the minor rules are disregarded, the tables hereto annexed are sufficient evidence of the anxiety on the part of our police, to comply with the wishes of all good citizens in the maintenance of law and order, that our city merits.

Thanking you, gentlemen, for the courtesy which you have shown me, both personally and as Secretary of this Board, I am,

Yours respectfully,

JOHN H. McGUIRE, *Secretary.*
