## TOLEDO POLICE DIVISION IN 1900

The Division in 1900 was comprised of the chief, one lieutenant, nine sergeants, and one hundred patrolmen. Most of the patrolmen (81) were assigned to beat duty. The rest of the patrolmen were assigned to various specialized details. These included detectives, patrol wagon drivers, patrol barn overseers, court officers and hostlers. Six additional officers were assigned as sanitary patrolmen with the duties of fumigating houses where contagious diseases existed and enforcing quarantine laws. In addition to these sworn personnel, the Division also employed a number of civilians - three turnkeys in the city prison, one engineer, two janitors, two matrons and a police surgeon.

The police in Toledo at that time were divided into two precincts with Cherry Street as the division line. The area north of Cherry and the East Side was taken care of by a station house on Lagrange Street between Erie and Huron. Three sergeants and thirty three patrolmen were assigned to this station. This station had a patrol wagon at its disposal. There was a prison at this station but it was not in use in 1900.

The rest of the city was covered by the central police station which was located at 20 Superior Street. A patrol barn with one patrol wagon adjoined this station. The central station was a four-story building also housing the city prison, police emergency hospital, police court room, and clerks office, offices of the health department, matron's prison for women and boys, a patrolmen's drill room, and a sleeping apartment for night patrolmen who had cases in court.

Since in 1900 the city of Toledo included an area of twenty-eight square miles, communications was a problem. Modern radio communication was not even a dream then and the telephone was not in wide use as yet. However, an alarm system was in use. There were 130 public alarm boxes located at various street intersections. These were operated by the American District Telegraph Company. This was in addition to quite a number of private alarm boxes. Consequently, it was not too difficult for the citizen to contact the department. Getting an officer to where he was needed was another matter, however. In those days, all patrolling was done on foot. Many times, the only way one could summon the police in case of an emergency, was to open the window and yell at the top of his lungs. By all accounts, however, service was provided with a fair degree of efficiency.

The patrol wagons which were mentioned earlier, were kept in the stations and only went out on call to pick up prisoners when an arrest was made. This was a great improvement over earlier days when the officer had to walk his prisoner into the **stationhouse**. One early officer working the downtown area had a solution to the walking problem which was compounded when he had a "falling-down drunk" as often was the case. This officer would borrow a wheelbarrow and transport his prisoner in this manner.

The problems of communications and hauling prisoners remained for a long time. Even through the late twenties, vehicles used by the Division had to work out of the stations in just about the same manner as these early patrol wagons. This was not resolved until 1930 and the advent of one-way radio.

## HISTORY OF THE TOLEDO DIVISION OF POLICE

Expansion was not the word of the day in 1900. The need was recognized for fifty additional patrolmen, a new station on the East Side and a third patrol wagon. Feeling was strong that this need would soon be filled.

In spite of all its problems, the police seem to have been able to perform quite well. It was said of the patrolmen that they were at all times ready for duty, willing workers and of great assistance to the detectives. The point was also made that the uniform men made many of the good arrests, that these were in no way confined to the plainclothes specialists.

- 1852 Volunteer police force authorized by city council with the same powers as the city marshall.
- 1860 Population of Toledo - 13,768
- 1866 Population of Toledo - 24,877 Control of police passed to state as governor appoints three men to serve as police commissioners. 1 captain and thirteen patrolmen appointed. State law set limit of 1 officer to each 1,500 population.
- 1867 Superintendent and sergeant appointed., pay set as follows:
- |                |         |     |      |
|----------------|---------|-----|------|
| superintendent | \$1,500 | per | year |
| captain        | 900     | "   | "    |
| sergeant       | 800     | "   | "    |
| patrolman      | 720     | "   | "    |
| jailer         | 600     | "   | "    |
- 1868 City divided into eight police districts to coincide with the eight political wards.
- 1869 First in service training- captain had to read the rules and regulations to the officers and men at least once a week.  
 Day shift hours reduced to 7:00 A.M. to 9:30 P.M. The previous hours were: Day shift - 7:30 A.M. to 9:30 P.M.  
 Night shift - 7:00 A.M. to 5:00 A.M.  
 Corrections reform --- chain gang abolished
- 1871 Nineteen men on police force, plus the appointment of 2 sanitary policemen whose duties consisted of enforcement of sanitation measures to protect public health.
- 1874 City ordinance changes the title of superintendent to chief of police.
- 1879 Use of photographs for criminal identification.
- 1880 Rank of detective established as permanent position.
- 1882 Adoption of the Bertillon System of measurements.

## HISTORY OF THE TOLEDO DIVISION OF POLICE

- pre - 1836 Justice was dispensed by justices of the peace & their constables.
- 1836 Toledo incorporated by an act of the state legislature.
- 1837 Calvin Comstock, first city marshall appointed.
- 1840 Population of Toledo- 1,340
- 1850 Population of Toledo 3,827
- 1852 Volunteer police force authorized by city council with the same powers as the city marshall.
- 1860 Population of Toledo - 13,768
- 1866 Population of Toledo - 24,877 Control of police passed to state as governor appoints three men to serve as police commissioners. 1 captain and thirteen patrolmen appointed. State law set level of 1 officer to each 1,500 population.
- 1867 Superintendent and sergeant appointed., pat set as follows:
- |                |         |          |
|----------------|---------|----------|
| superintendent | \$1,500 | per year |

## INTELLIGENCE/CRIME ANALYSIS UNIT

### INTERNAL AFFAIRS BUREAU

The following is a report on the activities and investigative workload for the Internal Affairs Bureau for the period of January 1, 1974 through December 31, 1974.

This unit was placed in operation on September 1, 1974 with the duties of the collection and analysis of street intelligence and subsequent dissemination of resulting information to the applicable field unit(s). Unit personnel appeared at all uniform rollcalls to explain their functions and to stress the importance of Field Interrogation Reports to the process. As a result of these contacts, a six-fold increase was realized in F.I.R.s by the end of the year. Information is now being gathered, on a regular basis, concerning subjects and situations having a possible relationship to serious crimes. The unit compiles and evaluates this information, converting it into a form which will be of value to field units. It is anticipated that by January 1, 1975, the unit will have enough data developed to begin publishing regular bulletins informing Division personnel of crime trends, suspects, and problem locations in various parts of the city. Those crimes of primary interest include robbery, burglary, and auto theft; although others may be included from time to time. Thus far, this unit has maintained good relations with field personnel which is essential to successful operations.

### Citizen Complaints Against Police Officers

With regards to the complaints made by citizens, the Internal Affairs Bureau investigated 408 complaints of this nature. For statistical purposes, citizen complaints are broken down into seven broad categories, and after investigation are further categorized as to type of finding in the particular investigation. The following chart is a summation of the 1974 citizen complaints.

INTERNAL AFFAIRS BUREAU

The following is a report on the activities and investigative workload for the Internal Affairs Bureau for the period of January 1, 1974 through December 31, 1974. During this time there were four men assigned to the bureau.

The bureau's function basically breaks down into two primary areas, those of departmental investigations concerning disciplinary matters originating within the Division; and those matters concerning citizen complaints against police officers.

Departmental Investigations

During the year of 1974 the bureau investigated 115 departmental complaints. Of these, 59 resulted in disciplinary hearings before the Chief of Police. Three of these cases were determined to be "Not Guilty", due to incorrect phrasing of orders; while the remaining 56 were found "Guilty". This makes the conviction rate on departmental hearings approximately 95%. The remaining 56 cases which did not arrive at the disciplinary hearing stage broke down as follows:

Unfounded -----	7 cases
Exonerated -----	9 cases
Not Sustained ----	4 cases
Sustained -----	36 cases

As can be seen 20 of these investigations did not require further actions due to their either being unfounded, not sustained, or exonerated. The 36 cases which were sustained were handled either through a verbal reprimand, or counseling by his commander. Included in this category, are three men who resigned or retired from the Division while an investigation directed at them was being conducted.

Internal Affairs also investigated 8 cases involving civilian employees of the Police Division, including 5 Police Aides. Of these cases, 4 were sustained; 3 were not sustained; and 1 was unfounded. The sustained findings in this particular group were arrived at as the results of hearings before Safety Director Donald Shanteau.

Citizen Complaints Against Police Officers

With regards to the complaints made by citizens, the Internal Affairs Bureau investigated 408 complaints of this nature. For statistical purposes, citizen complaints are broken down into seven broad categories, and after investigation are further categorized as to type of finding in the particular investigation. The following chart is a summation of the 1974 citizen complaints.

Type of Complaint	No. of Cases	% of Total Caseload
#1. Police Brutality	87	21 %
#2. Police Discourtesy	81	20 %
#3. Missing Property	20	5 %
#4. Lack of Police Service	63	15 %
#5. Delay in Police Service	14	3 %
#6. Improper Police Activity	100	24 %
#7. Conduct and Deportment	43	12 %

Total                      408 Cases                      100 %

When these 408 cases had been investigated, the findings were determined as follows:

Finding	No. of Cases	% of Total Caseload
UNFOUNDED	259	63 %
NOT SUSTAINED	58	14 %
EXONERATED	38	9 %
SUSTAINED	55	14 %

Total                      408                      100 %

In addition to these mentioned investigations, other tasks were assigned to this bureau. Some of the more time consuming ones are mentioned to illustrate the man hours involved.

- 120 Man Hours----- Compilation of statistics for Regional Planning Unit.
- 112 Man Hours----- Recruit background investigations.
- 94 Man Hours----- Prosecution of cases before Safety Director & Civil Service.
- 600 Man Hours----- Labor negotiations ( Bureau Commander )

There were numerous other functions fulfilled during the year, such as conferences, hearings, and discussions which also took a great deal of time, but which do not readily lend themselves to compilation or description.

Efforts are being made in conjunction with R.P.U. to raise additional support monies from governmental subdivisions in

Telephone: 419/ 243-4291

## TOLEDO METROPOLITAN DRUG UNIT ANNUAL REPORT 1974

This report is being compiled at the request of the Planning and Research Section of the Toledo Police Department. A search of files and records at the Metro Drug Unit disclosed the fact that no previous annual report for calendar years 1972-73 can be found. Statistics in this report have been formulated from quarterly breakdowns, case files, and records.

The Metro Drug Unit was established in August, 1971 to combat illegal drug activity at middle and upper echelon levels. Under a federal grant from LEAA funds, it was first monitored by the Council of Governments. It presently gets financial assistance and monitoring of the grant from the Regional Planning Unit.

Under R.P.U. the amount of the grant was set at \$40,000 annually with \$4,000 supplemental funds added. It is now recognized that this amount is totally inadequate to support the Unit at its present enforcement level of capability. Efforts are being made in conjunction with R.P.U. to raise additional support monies from governmental subdivisions in

the grant area.

Territorial jurisdiction of the Metro Drug Unit consists of Lucas and Wood Counties in Ohio and Monroe County in Michigan. So far as is known, this is the only metropolitan enforcement group in the country that operates in two states. Additional enforcement activity has been generated in Williams and Defiance Counties and in Bryan, Ohio as a result of mutual good feeling that exists with the two county sheriffs and the Chief of Police in Bryan.

Early in 1974 the Metro Drug Unit had been reduced to a complement of ten men. This included an officer from Bowling Green, an officer from Maumee, and a sergeant and seven officers from Toledo. Meetings were held and the decision made that more outside officers should be added to the Unit and changes made in its organizational structure.

With the concurrence of ALECC-Area Law Enforcement Cooperation Committee-the advisory group comprised of area sheriffs, chiefs, and other law enforcement officials, Chief Corrin McGrath of Toledo was named as chief executive officer of Metro. Agreement was also made at that time to add rank to the Unit for administrative and supervisory strengthening.

Chief McGrath assigned Captain James Wood of the Toledo Police Detective Bureau to be administrative head of Metro commencing July 1, 1974. His responsibility was to direct and coordinate all activities of the Unit as outlined by the Advisory Committee. Responsibilities to include, but not limited to, the development of operational procedures, regulations, and lines of communication with area law enforcement agencies and the Vice and Morals Squad of the Toledo Police Division. On August 1, 1974, Sergeant Fred Freer was added to the Unit as a supervisor.

Officers assigned to the Metro Drug Unit from police agencies other than the Toledo Police Department are chosen by their respective Chief, Sheriff, or Bureau head to serve at their discretion for varying lengths of time. Toledo officers will be assigned by Chief McGrath. Selection and length of service are under review at this time.

In line with Chief McGrath's orders, a better and more consistent policy of cooperation has been achieved with the Vice Squad, Juvenile Section, and Detective Bureau of the Toledo Police Department. Joint efforts are being continued with DEA, Drug Enforcement Administration, area police chiefs, sheriffs, IRS Customs, and Liquor Control.

Administrative changes include: change in working hours more in keeping with peak activity of drug sellers; holding weekly meetings; stepped up attendance at schools and seminars, particularly those nearby where cost is minimal; careful screening of requests for guest speakers to protect undercover capacity of men assigned; cancelling rental and lease agreements and buying equipment wherever possible with concurrence of R.P.U.

With the above as background, we come now to the statistics on enforcement activity for 1974:

Metro Cases	(arrests made)	203
General Cases	(no arrests)	30
Arrests Made		296
Drug Seizures	(Street value)	\$297,000.

Outstanding in the seizures for 1974 were two cases in which underground laboratories were confiscated. The first of these included equipment with an estimated cost of \$15,000. It had the capability of producing hashish oil to a level of \$5,000 per week. The second lab, equipment and supplies, had an estimated value of \$50,000 and could produce amphetamines or barbiturates in unlimited quantity.

During 1974, 86 speeches were given to selected groups of adults, business, fraternal, and social groups. A few presentations were made at elementary schools. Requests for speakers

to high school groups were referred to the Juvenile Section. Two men from that unit are detailed for narcotics investigations concerning juveniles. Our relationship with them and the entire Juvenile Section has been excellent.

Due to the increased enforcement activity on the part of the Metro Drug Unit, it was necessary to formulate new approaches to serving warrants. This developed into a mass raid concept on a team basis. If, for example, twelve warrants were generated, we would form four teams and assign three warrants to each team. By borrowing men and women from the Juvenile Section, Vice, and other departments, each team would consist of a minimum of five and a maximum of eight in plain clothes. To these we would add two uniform men to each team and place a uniform officer at the front and rear of each residence or business at the point of entry. In almost 100 raids, this formula led to successful arrests and seizures without any major resistance or injury to police or defendants. We will be varying our approach on this in the future, but will return to it from time to time.

Looking toward the future, the Metro Drug Unit has a dire need for additional funding. Operations are presently hampered by a lack of surveillance equipment, shortage of buy money, rapid turnover of personnel, and a limited understanding of our

functional purpose and capability on the part of governmental officials and the general public.

We are hopeful that this report for 1974 will clarify the situation and lead to the increased support necessary to sustain present efforts and help us to improve enforcement during the year 1975.

Respectfully submitted,

*Capt. James Wood*

Capt. James E. Wood

## METROPOLITAN DRUG UNIT: A REGIONAL RESPONSE

Organized narcotic networks disregard arbitrary jurisdictional boundaries and, as a result, the efforts of individual police agencies have not been highly effective. A broad-based regional approach has proven more effective in handling this problem.

The Metropolitan Drug Unit was originally organized in 1971 as a regional response to the problems of increased narcotic trafficking and drug abuse in the tri-County area. To date, the Unit has conducted over 550 operations resulting in nearly 1000 arrests and the confiscation of hundreds of thousands of dollars of illicit drug and drug manufacturing/refining equipment.

Conceived as an attempt to combat illegal narcotics networks, the Unit was designed to provide a multi-faceted approach at solving what had come to be viewed as a regional problem of serious dimensions. Functions of the Unit include:

.detecting those persons involved in illegal drug trafficking with particular emphasis on middle and upper echelon traffickers;

.enforcing the statutes pertaining to narcotics violations by coordinating arrests, searches and seizures with local police agencies;

.providing specialized training in narcotic violation enforcement procedures for local police agencies;

.educating the public regarding the use of dangerous drugs;

.gathering facts regarding illegal narcotic use in the three county area and providing the information to all the Federal, State, and Local police agencies concerned with the problems of illegal narcotics.

The multi-jurisdictional enforcement capabilities of the Metropolitan Drug Unit increase speed, efficiency and the chances for successful enforcement. For example, a recent Metro Drug Unit action was initiated by a lead developed in the City of Toledo which led to several arrests in Sylvania. Utilizing information from the Sylvania operation, a raid was conducted in Monroe County, Michigan, netting over \$50,000. worth of illegal narcotics. The entire time-lapse was only two hours. The clandestine grapevine of the narcotics traffickers could have stopped this chain of arrests had it not been for the multi-jurisdictional enforcement capabilities of the Metro Drug officers. Red tape and paperwork between the various police agencies involved would have provided enough time for the Monroe County traffickers to evade arrest.

Effectiveness of the Unit has been hampered in the past by the limited participation of police agencies outside of

ledo City limits. The unit was reorganized under the supervision of the Toledo Police Division in the spring of 1974. Captain James Woods of that division was named at that time to head the unit. The need for regional cooperation was stressed emphasizing that local communities, police and private agencies would have to become more actively involved if drug trafficking in the three county area was to be broken.

Restructuring of the Unit has led to revitalization and increased efficiency as reflected by the Unit's ever-increasing record of arrests and convictions. The current quarterly enforcement rate will far exceed any previous quarter since the creation of the Unit. Other improvements include a revised filing and records system. The Unit today is composed of 15 officers representing the police departments of: Lucas County; Bowling Green; Maumee; the State of Ohio; Monroe County, Michigan; Williams County; and Toledo.

Activities of the Unit, however, will have to be sharply curtailed if it does not receive additional funds. Captain Woods estimates that the Unit will need an additional \$60,000. this year in order to supplement the existing budget and maintain its program.

Presently the Unit is funded by a \$40,000. grant from the Regional Planning Unit. The amount of the grant was determined by calculations based on expenditures made when the Unit was not yet fully operational. Experience has proven the amount of the grant to be inadequate now that the Unit is fully functioning.

Housekeeping costs, such as office space, gasoline, and secretarial staff have consumed a great portion of the grant. Consequently the Unit is out of "buy-money", used for the purchase of illicit drugs during undercover work. Enlarged office space, more cars, and additional surveillance equipment is needed in order to increase the Unit's capabilities along with a continuing commitment of manpower from area law enforcement agencies.

According to Mr. Gary Pence, Director of the Regional Planning Unit, "The Metropolitan Drug Unit represents a viable concept worth continuing, but to survive, a larger portion of its budget is going to have to be secured from local communities. The R.P.U. will be making requests of local communities for this support".

### STANDARDS AND GOALS

At a meeting on December 18, 1974 at the Commodore Perry Inn, the recently appointed mayorial Standards and Goals Task Force began to prepare a local response to state-developed criminal justice standards and goals. The committee, chaired by Councilwoman June Rose Galvin, has until January 10, 1975 to review the Draft State Standards and Goals. The task force will then have the responsibility of drafting and recommending applicable standards and goals for the Toledo/Lucas County area. Members of the task force are:

Mr. Chris Christoff -  
Chief Municipal Probation Officer,  
Judge Andy Devine -  
Municipal Court,  
Ms. Katherine Eberly -  
Member, Supervisory Board of R.P.U.,  
Chief Corrin McGrath -  
Toledo Police Department,  
Ms. Ruth Oatis -  
Member, R.P.U. Executive Committee,  
Ms. Rita O'Grady -  
Director, Family Court,  
Mr. Gary Pence -  
Ad Hoc Member  
Mr. Jacques Rietzke -  
Acting Director, Lucas County Probation  
Department,  
Mr. Vernon Ryan -  
Maumee Safety Director

## DIVISION OF POLICE

SAFETY BUILDING  
525 No. Erie Street  
Toledo, Ohio 43624

February 21, 1975

CORRIN J. McGRATH  
CHIEF OF POLICE  
LEADS OHQ48Q7

To: Corrin J. McGrath, Chief of Police  
From: Richard L. Kwiatkowski, Deputy Chief-Operations  
Subject: 1974 Annual Report, Operations Section

With the retirement of Deputy Chief Michael Liwo, I took command of the Field Operations Bureau in August of 1974. I was promoted to Deputy Chief in September of 1974, and placed in charge of the Field Operations Bureau by Chief of Police, Corrin J. McGrath.

The Field Operatons Bureau is the largest bureau in the Toledo Police Department. A total of 447 men are assigned to it. There are 379 patrolmen and command officers assigned to the five patrol shifts, 69 men and command officers assigned to the Traffic Section, and 42 men and command officers assigned to the Selective Enforcement Unit. The 57 command officers and 390 patrolmen are distributed among the shifts and units as follows:

	Captains	Lieutenants	Sergeants	Patrolmen
Patrol Five shifts	3	15	28	290
Traffic Section	1		5	63
Selective Enforcement		1	4	37
Totals	4	16	37	390

The goals of the Field Operatons Bureau, its purpose, is

to prevent criminal behavior, repress crime, apprehend offenders, recover property, regulate noncriminal conduct, and perform the many miscellaneous services expected by the citizens of the City of Toledo.

Calls for service increased by 35,752 over 1973, with 308,987 calls received in 1974 and 273,235 in the preceding year. This increased demand for police service was handled while police manpower was reduced from 761 sworn officers at the end of 1973 to the level of 726 police officers at the end of 1974. Most of this demand for increased service was the responsibility of the uniformed patrol force. We have since been further reduced in manpower due to retirements.

#### MANPOWER ALLOCATION

With this increase in calls for service, and the reduction in our operating strength, it was necessary in July of 1974 to redeploy our manpower to balance the workload. This was accomplished by enlarging the permanent afternoon shift to 18 men and adding a fourth permanent shift of 15 men and 3 command officers. The Fourth Shift worked the hours of 1900 X 0300. With these additions we have the capability of fielding over<sup>50</sup> patrol cars during peak periods. These 50 one and two man units are in addition to command cars, Selective Enforcement Units, and Traffic Units on the street at the same time.

#### ONE MAN CAR EXPANSION

In late August of 1974 it was decided to expand the one man car concept of patrol within this Department. A concentrated program was instituted to train officers interested in

one man patrol. A total of 157 officers were trained in 11 different 8 hour sessions in 1974.

One man cars were expanded in October and November and we now have 15 one man cars operating on each of the three rotating shifts. We have 7 additional one man cars operating on the 1900 X 0300 shift. Additional one man cars are utilized when manpower and vehicles are available.

#### TRAFFIC SECTION

Personnel assigned to the Traffic Section enforce street traffic regulations of the City, and State vehicle laws applicable to street traffic in the City of Toledo. They make arrests for traffic violations, investigate accidents, maintain records, and carry out those duties specifically assigned upon said Section by law.

The Traffic Section waged an all out effort on the reduction of traffic fatalities, both on regular patrol duty, and on a Federally funded project sponsored by the National Highway Traffic Safety Department termed F.A.R.E., which is an acronym for Fatal Accident Reduction through Enforcement. The combined program of enforcement resulted in a reduction of traffic fatalities from fifty (50) in 1973, to thirty-three (33) in 1974.

In November of 1974, Captain Donald T. Hickey assumed command of the Traffic Section, replacing Lieutenant Sidney S. O'Dell.

On June 1, 1974, the Toledo Police Division instituted usage of the Ohio Standard Revised Accident Report Form. The

purpose of this form is to standardize accident reporting throughout the State of Ohio, making statistically important data retrievable on a statewide basis.

### Statistics

The total man hours worked by the Traffic Section for the calendar year 1974 were 182,883.

Moving traffic violations for the entire Division dropped in 1974 from a total of 72,519 in 1973, to 68,346 in 1974. The percentage of decrease was -5.75%. The Traffic Section issued 83% of all moving violations in the Police division.

In the very serious category of D.W.I. we had an increase in arrests of nearly 7%, and in Operating W/O Due Regard the increase was 3%. It may be of interest to note that our greatest decrease category was in Excessive Noise violations, with a decrease of 79%. The greatest factor in this decrease is attributed to our noise ordinance being ruled invalid early in the year.

Property damage accidents decreased by 3.31% in 1974, but injury accidents showed an increase of nearly 96%. This dramatic increase in injury accidents can be attributed to a new classification system initiated July 1, 1974. Prior to this time, only the accidents in which one or more of the participants were immediately treated in a hospital were classified as injury accidents. Since that date, all accidents in which an injury is claimed, whether treated or not, are classified as injury accidents.

There was a total of 106,489 parking tickets issued in

1974, for a 21% increase over 1973. Of the 94,157 valid parking tickets issued, 57,581 were paid, for a total of \$340,076.

The Traffic Section accounted for 87% of all tickets issued in the City. The twenty-one police aides, who are part of the Traffic Section, issued 31% of all tickets issued in the City in 1974.

#### The F.A.R.E. Program

The F.A.R.E. Program, which is an acronym for Fatal Accident Reduction through Enforcement, is a program administered by the Ohio Department of Transportation through the National Highway Traffic Safety Administration, sponsored by the Governor's Highway Safety Program. The purpose of the program is to combat the increasing traffic fatalities through selective concentrated traffic enforcement. The program is Federally funded.

The Traffic Section received, and spent, \$77,155 in Federal Grant money on this program in 1974. A total of 7,127 man hours were spent on this program with 5,939 traffic citations issued. 1.20 man hours were used per citation, with a cost of \$13.16 per citation.

#### Harbor Patrol

The Harbor Patrol was in operation from April 1, to November 1, 1974. The Unit used 2960 man hours.

#### Police Aides

The Police Division has 21 full time police aides and 15 part time school crossing guards employed by the City of Toledo. They cover a total of 28 school crossing posts within the City.

The police aides also issue parking tickets when not assigned to school crossings, and are used in various assignments during the summer months.

The police aides and part time crossing guards are attached to the Traffic Section under the direct supervision of Sergeant Walter Zale.

1974 Annual Report of Monies Collected by the Traffic Section

A total of \$400,267.50 was collected by Traffic Section for the calendar year 1974. This is an increase in revenue of \$16,089.30 from 1973, or 4.18% increase. The total collected represents a \$32,044.50 increase from the 1974 estimate, or a 8% increase from the estimate.

SELECTIVE ENFORCEMENT

During 1974 the Selective Enforcement Unit worked City wide on both the North and South radio channels. They worked various hours at the discretion of their commander and are presently working the 2000 X 0400 relief.

They work in high crime areas and on special problems, as well as being used on a need basis by the dispatcher for various types of calls. They do supply marked units to the shift for use during peak periods, and are presently assigning three marked units daily for such use.

In July and August of 1974, the Unit participated in special surveillances for a rape suspect known as "The Rapist". A total of 3,171 man hours were used on that operation.

In October, the Unit instituted a saturation program whereby all units assigned were utilized in the same area.

This program also consisted of staking out a number of business places by members of the Unit. During this period, the Unit made a total 15 arrests for "on view" Aggravated Robberies as a result of the stake out program.

#### CANINE UNIT

In August of 1974 a three man Canine Unit was formed. The selected officers were matched with German Shepard dogs and began training on August 12, 1974 at the Police K-9 School under the direction of Mr. Charles Art, in Plymouth, Michigan. The officer-dog teams were graduated November 15, 1974 and are now operational.

Walter J. Christopher, D.V.M., 2210 Tedrow, Toledo, has taken over the veterinary care of the dogs of the Unit.

#### EQUIPMENT AND FACILITIES

Roll call facilities were lost due to expansion of the Investigative Services Bureau early in 1974. As a result a remodeling project was undertaken in the area of the Desk Sergeant later in the year. A new roll call facility was provided for in the remodeling, as well as relocating the sergeant's desk, enlarging and remodeling the captain's and lieutenant's offices, and relocating the Selective Enforcement and Hit Skip Squad in a shared office in the remodeled area of the first floor. Most of this work was completed or very near completion by the end of December 1974.

New equipment was provided for the uniform shift captains, lieutenants, and sergeants in the form of new desks, typewriters, chairs, file cabinets and storage lockers.

The roll call room was equipped with video tape equipment for training purposes, and is presently being used for such training.

Locking devices were provided for the shot guns in the form of locking shotgun racks mounted on the shields of district patrol cars. In early 1975 the patrol wagons were equipped with like equipment.

In October of 1974 we made a major uniform change when the traditional winter coat, the reefer, was replaced with a nylon jacket that has been very well received by the men. This new jacket has a zip out liner and a detachable collar.

#### TRAINING

1974 saw the start of roll call training conducted by the Field Operations Bureau. Subjects and outlines were provided by me to the various commanders for presentation to their men. Commanders were encouraged to institute their own training sessions on a regular basis, and did indeed do so. The third phase of roll call training will be originating from the Criminal Justice Training and Education Center in early 1975. This training will involve the use of video tape.

Many command officers through all ranks, as well as many patrolmen from the Field Operations Bureau attended a variety of formal training sessions in a classroom setting at the Criminal Justice Training and Education Center in 1974. Some of the courses attended included the following: Robbery Investigation; Search and Seizure; Supervisory and Middle Management; Police Instructor Course; Family Crisis Intervention; and a

firearms training course at Camp Perry, Ohio, for selected command officers.

#### ACTING COMMAND OFFICERS

I do not feel this report would be complete without some comment on the promotion situation, and how it is affecting my Section. We are operating with acting command officers in all ranks, because our promotional procedure is tied up in Federal Court. The rank of sergeant is especially critical because we are forced to use senior patrolmen to fill the rank. This situation becomes very critical during the summer months when vacations are at their peak. This lack of promoted sergeants results in supervision problems that are often difficult to control. I feel morale is affected, as well as discipline, accountability, and performance.

Unfortunately, the remedy for this situation does not rest with me, or within this Division.

#### GOALS AND OBJECTIVES FOR 1975

My main objective for 1975 is to be decentralized and functioning in the three district stations as soon as possible within the year. My energies will be directed toward an orderly transition to the district station concept of decentralization.

Hopefully new programs will be instituted under the direction of the chosen precinct commanders, that will enhance patrol, and give us new direction and new tools to better do our jobs. Training will be given to prepare the command officers and patrolmen to make their programs

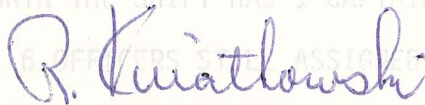

successful. Hopefully these programs will result in citizen satisfaction, which in turn will result in citizen participation.

With the precinct stations functional, new programs in operation, the proper training to go forward, commanders and command responsibility and accountability, hopefully we can get the crime rate stabilized, and prevent it from rising at the rate it has in the past.

Another priority for 1975 is to get a workable Emergency Procedure Manual ready and available for use if the need arises. These plans will give the street commanders and their men guides to follow in various types of emergency and disaster situations. These types of occurrences often take place without warning or time for planning. Our plans will give us a place to start in these situations, and tell us where to go from there.

I feel confident our Canine Program will be a proven success in 1975. I think the program will show street value as well as public relations value in the year to come.

If my feelings are realized and the program proves its worth, thought will be given to requesting expansion of the Unit in 1976 to give us more coverage and flexibility for the future.

Richard L. Kwiatkowski  
Deputy Chief - Operations

1974 ANNUAL REPORT

PROGRAMS FOR CAPTAIN SCOBLES SHIFT

JANUARY CAPTAIN SCOBLE BECOMES THE SHIFT CAPTAIN. A MEETING WAS HELD WITH THE SHIFT COMMAND WITH EMPHASIS ON SUPERVISION, GOAL EMPHASIS AND SUPPORT OFFICERS.

OUR SHIFT HAD THE FOLLOWING NUMBER OF PERSONNEL ASSIGNED TO IT:

1 CAPTAIN, 5 LIEUTENANTS, 9 SERGEANTS, and 100 PATROLMEN. AT THIS TIME WE HAD TWO DISTRICTS COVERED BY ONE MAN UNITS, DISTRICTS 161, 162, 181, & 182 PLUS TWO OFFICERS ASSIGNED TO RELIEF. SHIFT WORKED AFTERNOONS.

FEBRUARY THE NUMBER OF COMMAND OFFICERS ASSIGNED TO THE SHIFT REMAINED THE SAME AS IN JANUARY, WE HAD 98 OFFICERS ASSIGNED TO THE SHIFT IN FEBRUARY. DURING THIS MOUNTH WE REVIEWED THE CRIMMINAL CODE AT ROLL CALL IN ADDITION TO PROCEDURES. THE SHIFT WORKED AFTERNOONS. 6 OFFICERS ASSIGNED TO ONE MAN CARS.

MARCH DURING THIS MOUNTH, THE SHIFT HAD THE FOLLOWING MEN ASSIGNED TO IT. 1 CAPTAIN, 5 LIEUTENANTS, 10 SERGEANTS, AND 101 PATROLMEN. DURING THIS MOUNTH TWO COMMAND OFFICERS WERE SENT TO A TWO WEEK TRINING SCHOOL. ROLL CALL TRAINING STILL IN EFFECT. 6 OFFICERS STILL ASSIGNED TO ONE MAN CARS. THE SHIFT WORKED DAYS THIS MOUNTH. ONE OFFICER TOOK FIRST AID TRAINING.

APRIL DURING THIS MOUNTH THE SHIFT HAS 1 CAPTAIN, 5 LIEUTENANTS, 9 SERGEANTS, AND 100 PATROLMEN. 6 OFFICERS STILL ASSIGNED TO ONE MAN CARS. THE SHIFT WORKED NIGHTS.

MAY DURING THIS MOUNTH WE HAD THE FOLLOWING OFFICERS ASSIGNED TO THE SHIFT.  
1 CAPTAIN, 5 LIEUTENANTS, 9 SERGEANTS, AND 95 PATROLMEN. ROLL CALL TRAINING  
CONTINUED AND WE CONTINUED TO HAVE 6 OFFICERS ASSIGNED TO ONE MAN UNITS  
THE SHIFT WORKED AFTERNOONS.

JUNE DURING THIS MOUNTH WE HAD THE FOLLOWING MEN ASSIGNED TO THE SHIFT.  
1 CAPTAIN, 5 LIEUTENANTS, 10 SERGEANTS, AND 103 PATROLMEN. TRAINING CONTINUED  
AT ROLL CALLS. THE CAPTAIN TOOK A TRAINING COURSE ON POLICE MANAGEMENT SCHOOL  
FOR TWO WEEKS. WE CONTINUED TO HAVE 6 OFFICERS ASSIGNED TO ONE MAN UNITS.  
K9 TRAINING STARTED THIS MOUNTH. THE SHIFT WORKED DAYS. 24 MEN TOOK ONE MAN  
TRAINING.

JULY DURING THIS MOUNTH WE HAD 1 CAPTAIN, 5 LIEUTENANTS, 9 SERGEANTS, AND  
86 PATROLMEN ASSIGNED TO THE SHIFT. THE FOURTH WATCH STARTED THIS MOUNTH  
PERMANENT 1900 X 0300 HOURS WITH THEIR OWN COMMAND. ON THIS SHIFT 7 ONE MAN  
CARS WERE ADDED, 2 WAGONS, AND 2 TWO MAN CARS. ON THE SHIFT WE ADDED TWO OFFICERS  
TO A ONE MAN CAR UNIT 9, ONE ASSIGNED TO THE CAR AND ONE RELIEF, THIS ADDED  
TO UNITS 161, 162, AND ONE MAN RELIEF, AND 181, 182 AND ONE MAN RELIEF  
GAVE THE SHIFT OF 8 MEN ASSIGNED TO ONE MAN CARS. THE SHIFT WORKED NIGHTS.

AUGUST DURING THIS MOUNTH WE HAD 1 CAPTAIN, 5 LIEUTENANTS, 8 SERGEANTS AND  
103 PATROLMEN ASSIGNED TO THE SHIFT. TWO LIEUTENANTS AND ONE SERGEANTS  
WERE ASSIGNED TO SCHOOL FOR TRAINING. ROLL CALL TRAINING CONTINUED. 8  
OFFICERS WERE ASSIGNED TO ONE MAN UNITS. THE SHIFT WORKED AFTERNOONS.

SEPTEMBER THE SHIFT WORKED WITH 1 CAPTAIN, 5 LIEUTENANTS, 8 SERGEANTS, AND 89  
OFFICERS. THE CAPTAIN, TWO LIEUTENANTS AND SIX SERGEANTS WERE INVOLVED IN  
SCHOOL TRAINING. THE COURSES COVERED POLICE MGT., FAMILY CRISES AND INTER-  
VENTION AND SEARCH AND SEIZURE. 8 MEN WERE ASSIGNED TO ONE MAN UNITS. THE  
SHIFT WORKED DAYS.

OCTOBER DURING THIS MOUNTH WE HAD 1 CAPTAIN, 5 LIEUTENANTS, 8 SERGEANTS, AND 86 PATROLMEN ASSIGNED TO THE SHIFT. NYLON JACKETS WERE INTODUCED, ROLL CALL CONTINUED, THE RELIEF HOURS WERE CHANGED, ONE AND A HALF HOURS BETWEEN ROLL CALLS. 3 SERGEANTS ATTENDED A RAPE COURSE. 17 PATROLMEN TOOK ONE MAN CAR TRAINING. ONE MAN CARS WERE EXPANDED. SO, IN ADDITION TO UNIT 9, 161, 162, 181, 182, UNITS 151 AND 152 ALONG WITH A RELIEF OFFICER WERE ADDED FOR A TOTAL OF 11 OFFICERS ASSIGNED TO ONE MAN CARS. THE SHIFT WORKED NIGHTS.

NOVEMBER DURING THIS MOUNTH WE HAD THE FOLLOWING OFFICERS: 1 CAPTAIN, 5 LIEUTENANTS, 8 SERGEANTS, AND 99 PATROLMEN ASSIGNED. DURING THIS MOUNTH THE SERGEANTS STARTED TO FOLLOW UP ON CALLS THAT THE CREW WERE DISPATCHED TO, AND THE SERGEANTS TALKED TO THE COMPLAINANTS TO ASK AND GATHER INFORMATION IF THEY WERE SATISFIED WITH THE POLICE EFFORTS. THE SERGEANTS THEN MAKE OUT REPORTS AND THE SERVICE EVALUATED. THE SHIFT EXPANDED THE ONE MAN CARS AND WE HAD 23 OFFICERS ASSIGNED. NEW DISTRICTS WERE ADDED. WE NOW HAVE, 82S, A RELIEF MAN, 81S, 9, 131, 132, 9, 151, 152, 161, 162, 171, 172, 181, 182, 191, 192, AND RELIEF MEN. THE CAPTAIN, 1 LIEUTENANT, AND 2 OFFICERS ATTENDED TRAINING SCHOOL. THE SHIFT WORKED AFTERNOONS.

DECEMBER THE SHIFT HAD 1 CAPTAIN, 5 LIEUTENANTS, 8 SERGEANTS, AND 88 PATROLMEN ASSIGNED. 6 WAS ADDED TO A ONE MAN UNIT, GIVING A TOTAL OF 24 MEN ASSIGNED TO ONE MAN UNITS. AT ROLL CALL TRAINING CONTINUED AS IT HAS DURING THE PAST MOUNTHS.

THE SHIFT WORKED DAYS.

RESPECTFULLY:

CAPTAIN WALTER SCOBLE

## SUMMARY

REVIEWING THE PAST YEAR, IT IS NOTED THAT WE HAD MORE MEN ASSIGNED TO THE SHIFT UNTIL THE PERMANENT SHIFT STARTED IN JULY. DURING THE FIRST PART OF THE YEAR WE HAD 20 TWO MAN UNITS, 4 ONE MAN UNITS WITH TWO RELIEF MEN. IN ADDITION WE HAD 7 UNITS ASSIGNED TO THE RESERVE PATROL. (MOBILE) FOR A TOTAL OF 21 MEN. 8 MEN WERE ASSIGNED TO THE FOOT PATROL.

THE RESERVE MOBILE PATROL WAS ASSIGNED TO THE DISTRICTS THAT HAD THE GREATEST AMOUNT OF CRIME AND HAZARDS. THE FOOT DISTRICTS WERE SELDOM FILLED BECAUSE OF DAY TO DAY ASSIGNMENTS TO THE TURN KEY, RECORD BUREAU, MORALS SQUAD, COMMUNICATIONS BUREAU, ART MUSEUM, HOSPITAL DETAIL ETC.

THE COMMAND NUMBERS FOR THE CAPTAIN AND LIEUTENANTS REMAINED CONSTANT. THE DEMAND FOR THE SERGEANTS WAS STRAINED. IT WAS A PRACTICE TO HAVE ONE SERGEANT ASSIGNED TO THE TURN KEY ON A PERMANENT DAY JOB. AND THE SHIFT WOULD HAVE TO FILL THIS DETAIL WHEN THEY WORKED AFTERNOONS AND NIGHTS. AS A RESULT WE HAD 10 SERGEANTS ON DAYS AND 9 ON THE OTHER SHIFTS AND STILL FILL THE TURN KEY ASSIGNMENT. ON MANY OCCASIONS THE NEED FOR THE FIRST LINE SUPERVISOR WAS SHORT AND WE HAD TO MAKE ACTING SERGEANTS.

WHEN THE PERMANENT SHIFTS CAME INTO BEING A NEW PROBLEM DEVELOPED, A SHORTAGE OF CARS AND EQUIPMENT MIX-UPS.

THE ADDITION OF ONE MAN CARS HAS PROVEN EFFECTIVE, AND WE HAVE NO PROBLEMS IN THIS AREA.

WE HAD SEVERAL LARGE FIRES DURING OUR TOUR OF DUTY AND NO LARGE DISTURBANCES. I HAVE HELD MONTHLY MEETINGS WITH THE COMMAND OFFICERS ON THE SHIFT AND HAVE RECEIVED REQUESTS, SUGGESTIONS, AND INFORMATION AND SOLVED WHATEVER PROBLEMS WE HAD.

WE HAVE HELD INVENTORY OF THE OFFICERS EQUIPMENT SEVERAL TIMES DURING THE PAST YEAR, THE SERGEANTS PERSONALLY INVENTORY AND INSPECT THE POLICE CARS AND EQUIPMENT IN THE CARS, AT LEAST ONCE EVERY TWO WEEKS IN ADDITION TO THE DAILY INSPECTION CONDUCTED IN THE PARKING LOT EACH DAY.

I HAVE HAD MANY COMPLAINTS OF EQUIPMENT IN CARS THAT BELONGED TO OTHER UNITS. THIS PROBLEM WAS GREATLY IMPROVED WHEN WE MARKED AND REMARKED EACH PIECE OF EQUIPMENT AND MADE ACCOUNTABILITY MORE EFFECTIVE.

OUR ROLL CALL TRAINING DURING THE PAST YEAR CENTERED ON WORK PERFORMANCE, DEPARTMENT GOALS, PUBLIC RELATIONS, EQUIPMENT CARE, PROCEDURES, AND STATE AND LOCAL LAWS.

RESPECTFULLY SUBMITTED:

CAPTAIN WALTER SCOBLE

*W. J. Scoble*

EQUIPMENT AND FACILITIES

The sergeant's area was remodelled to provide a better working environment and to improve efficiency. An office was provided for selective enforcement duties and an assembly room was made available for the uniform members. This room was equipped with video tape equipment for training. The equipment for the Captain's office included one desk, four chairs, two lockers, one file cabinet, and one IBM electric typewriter.

## 1974 ANNUAL REPORT

### UNIFORM SHIFT RESPONSIBILITIES

In September 1974, Captain Patrick McNulty became the Shift Commander. At that time there were four Lieutenants and nine Sergeants assigned to the shift. One Sergeant was assigned to the District Stations Task Force and one Sergeant was disabled for the balance of the year.

The uniform shift is responsible for the preliminary investigation of all Class I crimes, arrest of the perpetrators, recovery of property, the notification of the Detective Bureau when a felony has been committed, and protection of the scene until a detective arrives on the scene in serious offenses. Uniform shift personnel are also responsible for the investigation of Class II offenses, minor traffic accidents, enforcement of traffic ordinances, and parking violations. They respond to citizen calls for service. Calls for assistance include the following categories: mentally deranged persons, suicides, dog bites, suspicious persons, assistance to motorists, wild animals, abandoned property, fires, burglar alarms, check safety of persons who may be living alone, check houses on vacation, strikes, hazardous places and situations, keep the peace in landlord and tenant situations, lost and runaway children etc.

### NEW EQUIPMENT AND FACILITIES

The desk sergeant's area was remodeled to provide a better working environment and to improve efficiency. An office was provided for Selective Enforcement Units and an assembly room was made available for the uniform personnel. This room was equipped with video tape equipment for training. New equipment for the Captain's office in 1974 included one desk, four chairs, four lockers, one file cabinet, and one IBM electric typewriter.

A new desk, three chairs, one file cabinet, and a new typewriter was purchased for the Lieutenant's office. New equipment for the Desk Sergeant included a desk, two chairs, one locker, one file cabinet, and a typewriter.

#### COMMAND OFFICER TRAINING

Uniform command officers successfully completed the following courses: Robbery Investigation, Search and Seizure, Supervisory and Middle Management Schools, Police Instructor Course, and Family Crisis Intervention Course. A Firearms Training Course was conducted at Camp Perry, Ohio, for selected command officers.

#### ROLL CALL TRAINING

A roll call training program was implemented and uniform patrol officers received training in the following areas: Probable Cause, Law of Arrest, Search and Seizure, Stop and Frisk, U.S. Supreme Court Decisions on Terry V Ohio, and Chimel V Cal., Weapons Safety - "Look for the Second Gun", Family Crisis Intervention and Landlord Tenant relations, One Man Car Operations, and the Ohio Criminal Code.

#### SUPERVISION

A new supervisory technique was implemented to check on the accuracy of reports, the behavior and attitudes of police officers responding to complaints. Sergeants make spot checks on reports, contact the complainants to determine if the response time was satisfactory, if the complainant was satisfied, and if the report was accurate. Corrective counseling is used to correct the officers where needed and hopefully to improve police service to the community. To provide for better control of shotguns they were assigned district unit numbers and a new system was designed to control car keys.

SUMMARY OF ACTIVITIES AND EMERGENCIES

In March several police units were assigned to the flood in the Point Place area for several days to evacuate people and to protect persons and property.

In April, 1974, there was a major fire which destroyed the Earle Hotel. We had 16 men there plus 10 traffic officers and the 600 units.

During the month of May we had several cars assigned to the Lagrange Street area for the entire month in attempt to catch the rapist who was active at that time. Also in May we had 8 men excused for the entire month to take part in negotiations for a new contract.

In September we had a multiple alarm fire at the Fischer Building on Cherry Street at Sherman Street. We had 14 men there in addition to the entire permanent 3X11 shift and several 600 units.

In October, we had two multiple alarm fires. One was at the Weisenberger Chevrolet Dealers on Sylvania. We had 8 men there plus 6 man from the Traffic Bureau. At the fire which destroyed the Paryski Publishing Co, Nebraska and Hoag Streets we had 16 men there in addition to men from the Traffic Bureau and Selective Enforcement. Also in October, we had a major disturbance at the University of Toledo Fieldhouse after a Rock Concert at which time many persons tried to crash the gate setting off the melee. We had 6 units on the scene plus the U.T. Campus Police and several off-duty Toledo Policemen who were hired by U.T.

On December 1, we had an unexpected snowstorm which dumped 14 inches of snow in Toledo and caused many motorists and other person to become stranded. Our entire shift at some time or another during the night aided the stranded motorists by taking them to shelters. The officers provided aid in getting shelters open and transporting personnel to the shelters to man them. This was a difficult task because there was an insufficient number of snow removal plows and equipment on the streets to clear all major streets and expressways.

During the year there were several disturbances at the Sports Arena which required several police units to quell. These disturbance occurred at Rock

### MANPOWER ALLOCATION

A review of available records in the Uniform Division (Captains McNulty's shift) revealed that in the year 1974 approximately 1,074 man-days were lost to the shift because of assignments to other bureaus. Special assignments included the Jail, Courtroom, Communications Bureau, Hospital Guards, and the Art Museum.

A new form has been designed to keep track of matters other than patrol which reduce the authorized strength of the shift such as, sick leave, vacations, military leave, union business, funerals, etc.

	Jail	Courtroom	Communications	Records Bureau	Hospital	Art Museum	Total
January	5	6	12	20	15	13	71
February	32	5	11	18	15	7	88
March	5	0	29	17	14	0	65
April	27	0	25	0	0	36	88
May	5	0	18	34	19	5	81
June	12	0	55	66	15	2	150
July	45	0	56	38	26	0	165
August	23	2	46	11	2	0	84
September	(Records not available)						
October	12	0	19	2	0	22	55
November	31	0	19	4	5	10	69
December	13	0	37	30	8	0	88

TOTAL 1074

Respectfully,  
  
 Captain Patrick McNulty

TO: DEPUTY CHIEF R.KWIATKOWSKI

FROM: CAPTAIN A.GRIMES

SUBJECT: 1974 YEAR END REPORT

SIR:

The main purpose of a police department is to provide a service to the community. This service consists of protection of life and property and an all out effort to prevent crime. This service is provided by the uniform patrol division through the use of constant and ever present patrol throughout the community. Placing uniformed officers in marked and unmarked cars on the street has been and still is the most effective way to accomplish the stated service. The crime rate throughout the country has been rising at a fantastic rate and the system of patrol described above has been challenged many times and by many different individuals and groups. In spite of this a better or more effective system has yet to be devised.

The uniform patrol bureau has always and will probably continue to be the backbone of any police department. It is normally the largest bureau in any department and therefore requires the largest budget. Of necessity the best equipment available is needed if the job is to be done in the right manner. Constant training is also needed, not only for the uniform bureau but for the entire department. With this in mind the following report is submitted so that you will have some idea of what was accomplished and the manpower and materials that were needed or used to do the job.

Respectfully,  
*A. Grimes*  
Captain A. Grimes

TO: DEPUTY CHIEF KWIATKOWSKI

FROM: CAPTAIN A. GRIMES

SUBJECT: 1974 YEAR END REPORT

SIR:

I assumed command of this shift on the first day of August, 1974. The shift was previously under the command of Captain R. Gray, who was transferred.

This shift worked approximately 210,405 man hours during the year 1974. The average number of men assigned per month, including command officers, was approximately 111 men.

The section of the building used by the uniform division was remodeled during 1974. The Sergeant's Desk was moved, while the Captain's and Lieutenant's office were redone and enlarged. Unfortunately, the Sergeants lost their office.

A new assembly room was made where the press room and Sergeants office had been. Tables and chairs for the roll call training have been placed in the room. Also a cabinet to hold the video equipment for training has been built in the assembly room.

A battery room was built behind the Sergeant's Desk to recharge batteries. Holders for portable radios are also in the battery room. The shotguns are now stored in a cabinet behind the desk. A room has been built for extra equipment or equipment from cars that are laid up. New equipment has been purchased for the Uniform Division. This includes:  
1 electric typewriter - 2 manual typewriters - 4 metal desks -7 chairs and 8 metal cabinets.

Respectfully;

*Captain A. Grimes*

TO: DEPUTY CHIEF RICHARD KWIATKOWSKI  
FROM: CAPTAIN DONALD T. HICKEY - COMMANDER TRAFFIC SECTION  
DATE: FEBRUARY 3, 1975  
SUBJECT: 1974 ANNUAL REPORT

The commanding officer assigned by the Chief of Police to supervise the Traffic Section shall be responsible for direction and control of all members assigned for duty to his command.

Personnel assigned to the Traffic Section shall enforce the street traffic regulations of the city and the State vehicle laws applicable to street traffic in the City of Toledo, make arrests for traffic violations, investigate accidents, maintain records and carry out those duties specifically upon said section by law.

The Traffic Section waged an all out effort on the reduction of traffic fatalities both on regular patrol duty and on a federally funded project sponsored by the National Highway Traffic Safety Department termed F.A.R.E. which is an acronym for Fatal Accident Reduction through Enforcement.

The combined program of enforcement resulted in a reduction of traffic fatalities from fifty (50) in 1973 to thirty three (33) in 1974.

In November of 1974, Captain Donald T. Hickey assumed command of the Traffic Section, replacing Lieutenant Sidney S. O'Dell.

On June 1, 1974 the Toledo Police Division instituted usage of the Ohio Standard Revised Accident report form. The purpose of the form is to standardize accident reporting throughout the State of Ohio making statistically important data retrievable on a statewide basis. The report form is more detailed and initially caused confusion as to the required information needed by the state and also because of the increase in time needed to complete the report. Both problems have subsided as the men have become accustomed to completing the reports. The problem will be covered, also, more completely in In Service Training in 1975.

The tabulating and subsequent filing of the new report form required a change in office procedure and new accident report file cabinets were required due to the different size of the report forms. Both adjustments were made and procedures are proceeding satisfactorily.

## 1974 ANNUAL REPORT - TRAFFIC SECTION

STATISTICS

The total man hours used by the Traffic Section for the calendar year 1974 were 182,883. The unit totals are:

	<u>MAN HOURS</u>
Command Officers	15,712
Traffic Control Units	36,807
Radar Units	19,743
Harbor Patrol	2,960
Hit Skip Squad	3,652
Warrant Squad	3,584
Multiple Tag Unit	1,856
Tow Trucks *	3,518
Junk Vehicle & 18 hr. Checks	3,732
Police Aide Program (Patrolman)	1,540
Police Aide Program (Civilians)*	35,352
School Safety Education	3,592
Car Tows (Office Special)	1,880
Traffic Bureau Office	
Uniform Personnel	4,320
Office Personnel (Civilians)	12,105
Accident Squads	21,539
Three Wheel Cycles	10,991

\* Does not include civilians on tow truck duty or part time school crossing guards

## 1974 ANNUAL REPORT - TRAFFIC SECTION

WORKLOAD

One of the main thrusts of duties performed by Traffic Section personnel is the enforcement of traffic violations. We have included statistics on traffic violations written by the entire police division as well as Traffic Section officers.

	1973	1974	PERCENTAGE OF INCREASE/DECREASE
MOVING TRAFFIC VIOLATIONS			
RED LIGHTS	5164	4682	- 9.3%
SPEEDING	41,088	38,279	- 6.8%
OPERATING W/O DUE REGARD	4070	4191	+ 3.0%
DWI	1485	1587	+ 6.9%
IMPROPER TURNS	2647	2746	+ 3.7%
ONE WAY STREETS	542	531	- 2.0%
DRIVERS LIC. VIOLATIONS	5273	5400	+ 2.4%
CROWDING DRIVER	10	7	-30.0%
RIGHT OF WAY	2946	2703	- 8.2%
LEFT SIDE OF STREET	458	486	+ 6.1%
SAFETY STOPS	1713	1696	- 1.0%
TRUCKS ON BOULEVARD	67	67	N/C
LICENSE PLATE VIOLATIONS	792	747	- 5.7%
IMPROPER LIGHTS	777	754	- 3.0%
EXCESSIVE NOISE	1784	377	-78.9%
MISCELLANEOUS	2810	3162	+12.5%
HIT SKIP VIOLATIONS	893	931	+ 4.3%
TOTALS	72,519	68,346	- 5.75%

## 1974 ANNUAL REPORT - TRAFFIC SECTION

Traffic Section personnel issued the following moving violation citations. They are listed on a monthly basis and on a unit basis. Comparison statistics for the Traffic Section for the calendar year 1973 are not available.

MONTH IN 1974	TRAFFIC CONTROL UNITS	RADAR UNITS	ACCIDENT SQUAD UNITS	F.A.R.E.
JANUARY	1279	2144	341	
FEBRUARY	1011	2250	311	
MARCH	997	2862	477	F.A.R.E.
APRIL	1458	2384	460	964
MAY	1139	2741	441	979
JUNE	971	2700	354	1227
JULY	1098	2604	328	
AUGUST	1110	3170	381	
SEPTEMBER	868	3290	291	
OCTOBER	1438	3894	402	749
NOVEMBER	1218	2837	315	869
DECEMBER	913	2120	394	1151
TOTALS	13,500	32,996	4495	5939
% OF SECTION TOTAL	23.71%	57.95%	7.89%	10.43%
% OF DIVISION TOTAL	19.75%	48.27%	6.57%	8.68%

TOTAL OF MOVING VIOLATION CITATIONS ISSUED BY THE TRAFFIC SECTION 56,930

PERCENTAGE OF TOTAL CITATIONS ISSUED BY THE TRAFFIC SECTION 83.29%

MOVING CITATIONS PER MAN HOUR

TRAFFIC CONTROL UNITS .367 PER MAN HOUR

RADAR UNITS 1.671 PER MAN HOUR

ACCIDENT SQUADS .209 PER MAN HOUR

F.A.R.E. UNITS .833 PER MAN HOUR

In determining an Enforcement Index and Severity Index one must define hazardous violations. All violations except Trucks on Boulevard, License Plate Violations, Improper Lights, Excessive Noise and Hit Skip Violations are considered to be hazardous. The total of hazardous violations occurring in 1974 are 65,470.

The total of Injury plus Fatal Accidents amounted to 5,651.

An accurate Enforcement Index is not possible to calculate at this time as we do not have an accurate method to withdraw the percentage of convictions with penalty attached, for the citations that were written. Any figure that we might arrive at would be only a guesstimate and, in our opinion, would be worthless as a measuring guide.

In the very near future we are instituting a scientific sampling of conviction rates from all of the various judges and referees that preside in Traffic Court. By this method we will be able to forward an accurate Enforcement and Severity Index.

Our Fatal and Injury Accident ratio to Property Damage Accidents is 1 - 170 - 533. According to the Northwestern University Traffic Institute, the optimum is 1 - 55 - 200 however our vast deviance from that figure can be attributable to our reporting procedures.

Both the uniformed patrol force and the Traffic Section presently investigate vehicle crashes. The Accident Investigation Squad from the Traffic Section, investigates all Injury and Fatal Accidents as well as all those involving a city owned vehicle. We have no method of withdrawing the total number of accidents investigated by traffic units therefore we cannot offer an accurate workload statistic as it relates to Traffic Section accident volume investigations.

The overall statistics in regard to accident experience in the City of Toledo present some interesting facts. Traffic fatalities were reduced from fifty (50) in 1973 to thirty three (33) in 1974. Property damage accidents decreased 3.31% however Injury Accidents increased 95.74%.

## 1974 ANNUAL REPORT - TRAFFIC SECTION

The decrease in property damage accidents and the increase in injury accidents are inversely related. On July 1, 1974 we initiated new criteria for classification of injury accidents. Prior to that time, only the accidents in which one or more of the participants were immediately treated at a hospital were termed " Injury Accidents ". Since that date, all accidents in which an injury is claimed, whether treated or not, is classified as an Injury Accident. For this reason, some statistics, as presented, are invalid for comparison studies.

I respectfully submit the following statistical data on accident experience in the calendar years 1973 and 1974. I have attached percentage increases and decreases, however as pointed out, they may not be true comparisons.

MONTH	<u>1973</u>	P.D.	INJ.	FATAL	TOTAL	<u>1974</u>	P.D.	INJ.	FATAL	TOTAL
JAN.	1690	208	2	1898	1939	211	4	2150

TOTALS	-3.31%	+95.7%	-34.0%	+1.22%

## PARKING ENFORCEMENT

Parking enforcement is another major task of the Traffic Section. In addition to the enforcement by the Traffic Control Units and other regular patrol units, the Traffic Section fields a six (6) man unit utilizing three wheel motorcycles for the specific purpose of parking enforcement.

Twenty one (21) Police Aides, civilians that are used as crossing guards during the school year, also issue parking violation tickets when not assigned to such crossings. In 1974 they issued a total of 33,387 tickets. This amounted to 31.35% of all parking tickets issued in 1974.

## ANNUAL REPORT - TRAFFIC SECTION

The remainder of the Traffic Section issued 59,263 parking tickets for a grand total of 92,650 tickets being issued by Traffic Section personnel. This figure represents 87% of all parking tickets issued in the city.

A breakdown of specific violations follow, as well as the monthly data of Traffic Section enforcement action. A comparison study, with percentage change, for the calendar year 1974 compared with 1973 is included.

VIOLATION	1973	1974	PERCENTAGE OF CHANGE
PARKING METERS	39989	46610	+16.6%
IMPROPER LIGHTS	74	153	+106.8%
ALLEY PARKING	568	575	+1.2%
DOUBLE PARKING	432	552	+27.8%
RESTRICTED ZONES	37307	46473	+24.6%
LIMITED AREA	6850	7626	+11.3%
MISCELLANEOUS	1019	2578	+153.1%
BUILDING LINE AND CURB	871	815	-6.4%
LEFT SIDE OF STREET	1038	1107	+6.6%
TOTALS	88148	106489	+20.8%

## TRAFFIC SECTION ENFORCEMENT ACTION

JAN.	7197	OCT.	9031
FEB.	6151	NOV.	8115
MAR.	6737	DEC.	6100
APRIL	7503	TOTAL	92650
MAY	6111		
JUNE	10610		
JULY	7889		
AUG.	6298		
SEPT.	10908		

## 1974 ANNUAL REPORT - TRAFFIC SECTION

By city ordinance, certain parking tickets are voided by the Traffic Section Command Officers for valid reasons. These include meter violations for off duty officers in court, tickets received by other governmental agencies while on official business, tickets written in error, etc. Following is a breakdown of tickets voided on a monthly basis in 1974.

MONTH	NUMBER VOIDED
JAN.	959
FEB.	934
MAR.	911
APRIL	1049
MAY	950
JUNE	885
JULY	978
AUG.	1944
SEPT.	961
OCT.	1833
NOV.	928
DEC.	950
TOTAL	12332

This figure represents a void factor of 11.58% of all parking tickets issued in 1974. Of the 94157 valid parking tickets issued in 1974, 57,581 were collected for a total \$340,076.00. ( See Annex A )

The Traffic Section maintains a tow truck detail on which one uniformed Patrolman and one civilian are assigned. The total hours of the civilian working the tow truck are not available for this report as their time schedules were maintained by the motor pool sergeant. We are now maintaining their time schedules.

## 1974 ANNUAL REPORT - TRAFFIC SECTION

Total man hours used by the uniformed patrolmen working the tow truck detail was 3518. Reduced to man days, this totals 439 man days.

Total vehicles towed was 866 which amounts to 1.973 per man day. Please note that this statistic includes only the uniformed patrolman and does not include the civilian tow truck operator.

\$12990.00 was received as revenue as the results of vehicles towed ( See Annex A )  
The number of calls for services by the tow truck units are not available.

## HIT SKIP ACCIDENT SQUAD

The Hit Skip Accident Squad utilized 3652 man hours. An effectiveness evaluation as well as an activity breakdown is included. ( see Annex B/)

## WARRANT SQUAD

Two patrolmen are assigned to the Traffic Warrant detail. Total hours utilized by these officers were 3,584. In 1974 we did not require the officers to document their personal activity in serving warrants ( they merely kept track of total warrants issued, recalled and served by all members of the Division ). We have corrected this and the information will be available, on a monthly basis, in 1975. Warrant activity as it relates to traffic offenses includes the following:

MONTH	WARRANTS ISSUED	RECALLS	SUBJECTS BOOKED	SUMMONSES	CLEARANCES
JAN.	365	176	274	6	453
FEB.	280	212	241	9	462
MAR.	411	170	248	7	429
APR.	374	141	194	3	345
MAY	418	104	222	8	337
JUNE	465	152	146	14	298
JULY	484	179	235	-	414
AUG.	436	154	195	5	349
SEPT.	284	116	169	3	285
OCT.	427	162	190	6	352
NOV.	324	141	153	-	294
DEC.	391	132	202	-	334

1974 ANNUAL REPORT - TRAFFIC SECTION

The total statistics for the calendar year 1974, for the Warrant Squad are:

WARRANTS ISSUED	RECALLS	SUBJECTS BOOKED	SUMMONSES	CLEARANCES
4659	1839	2469	61	4352

HARBOR PATROL

The Harbor Patrol was in operation from April 1, 1974 to Nov. 1, 1974. The Unit used 2960 man hours. The Harbor Patrol's activities and expenditures are included in Annex C.

THE F.A.R.E. PROGRAM

The F.A.R.E. Program, which is an acronym for Fatal Accident Reduction through Enforcement, is a program administered by the Ohio Department of Transportation through the National Highway Traffic Safety Administration sponsored by the Governor's Highway Safety Program. The purpose of the program is to combat the increasing traffic fatalities through selective concentrated traffic enforcement.

Several of Ohio's larger cities were selected to participate in the special effort. The City of Toledo was one of the included cities.

A Federal Grant which is connected with the program allows re-imbusement to the city for the employment of qualified traffic enforcement officers to work overtime hours to patrol geographical areas which have experienced or are expected to experience a high frequency of traffic fatalities. The Grant also allows for the re-imbusement of workmen's compensation and retirement plan costs as well as associated motor vehicle operating expenses, including vehicle depreciation.

The City of Toledo participated in the program in 1974 during the months of April, May, June, Oct., Nov., and Dec. The following is a statistical breakdown of costs, activities and workload, as well as comparison statistics of accident experience during 1974 as compared to similar time periods in 1973.

We received, and spent, \$77155.35 in Federal Grant money in 1974.

## 1974 ANNUAL REPORT - TRAFFIC SECTION

MONTH	<u>1973</u>	P.D.	INJ.	FATAL	TOTAL	<u>1974</u>	P.D.	INJ.	FATAL	TOTAL
APR.		116	18	1	135		100	13	0	113
MAY		396	62	2	460		332	61	0	393
JUNE		226	40	2	268		184	36	0	220
OCT.		142	21	0	163		185	19	0	204
NOV.		137	19	0	156		173	53	2	228
DEC.		232	24	1	257		218	49	1	268
TOTALS		1249	184	6	1439		1192	231	3	1426

## COMPARISON PERCENTAGES BASED ON MONTHLY ACCOUNTING, 1974 COMPARED TO 1973

MONTH	P.D.	INJURY	FATAL	TOTAL
APR.	-13.79%	-27.8%	-100%	-16.29%
MAY	-16.2 %	- 1.6%	-200%	-14.56%
JUNE	-18.6%	-10. %	-200%	-17.91%
OCT.	+30.3%	- 9.5%	N/C	+25.15%
NOV.	+26.3	+178.9%	+200%	+46.15%
DEC.	- 6.0%	+104.2%	N/C	+ 4.28%
TOTAL	-4.56%	+25.54%	-50.0%	- .09%

Again, the injury accident statistics may not be valid for comparison purposes as we changed criteria for classifying injury accidents. ( See Page 6, this report )

We used a total of 7127.5 man hours and issued 5939 traffic violation citations. ( See Page 4, this report ) which is 1.20 man hours per citation. Total cost per citation was \$13.164.

1974 ANNUAL REVENUE REPORT OF MONIES COLLECTED BY TRAFFIC SECTION

A total of \$400,267.50 was collected by the Traffic Section for the calendar year 1974. ( See Annex A ) This is an increase in revenue of \$16089.30 from 1973 or 4.18% increase. The total collected represents a \$32044.50 increase from the 1974 estimate, or an 8.0% increase from the estimate. ( All figures are included in Annex A-1, A-2, A-3 )

PUBLIC RELATIONS CONTACTS

Members of the Toledo Police Traffic Section spoke to twenty seven (27) groups during 1974. The groups ranged in scope from Service Clubs to labor union meetings. We also participated in Police Week Demonstrations at the Southwyck Mall in May of 1974.

In addition to speaking engagements, either the Section Commander or a Command Officer attended numerous co-ordinating meetings with business leaders of the community for purposes of planning bicycle races, large parades or scheduled events such as the Fireworks display at Walbridge Park.

MISCELLANEOUS FUNCTIONS

In 1974 two (2) Traffic Section Command Officers participated in on-campus Police Administration studies at two of the leading Universities in the country

Sergeant Walter Zale, Supervisor of the Police Aids, completed a twelve (12) week course on Police Traffic Management at Central Missouri State University at Warrensburg, Missouri.

1974 ANNUAL REPORT - TRAFFIC SECTION

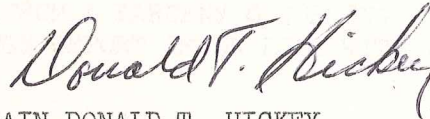

Sergeant Larry Armstrong completed a six (6) week course entitled, " The Principles of Police Administration " at Northwestern University, Evanston, Illinois.

Both officers were exposed to various aspects of police administrative concepts which will enhance the total expertise of management practices within the Toledo Police Division. Both officers finished the courses with grade averages that ranked them either at, or near, the top of the class.

1974 ANNUAL BUDGET REQUEST

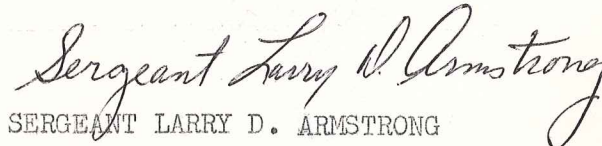

The total budget request for the Traffic Section in 1974 was \$41624.00. ( See Annex D ) This, of course, included no salaries, fringe benefits, vehicles, fuel, etc.

RESPECTFULLY

CAPTAIN DONALD T. HICKEY  
TRAFFIC SECTION COMMANDER

TO: CAPTAIN DONALD T. HICKEY - COMMANDER TRAFFIC SECTION  
 FROM: SERGEANT LARRY ARMSTRONG  
 DATE: JANUARY 6, 1975  
 SUBJECT: HIT SKIP ACCIDENT SQUAD STATISTICS FOR 1974

The following statistics represent the workload and clearance rates of the Hit-Skip Squad for the calendar year 1974. When possible, I have included comparison statistics of percentages of the calendar years 1973 with 1974.

1974	1973	1974 to 1973 Comparison	
Total number of reported hit-skip accidents	4017	4000	+0.42%
Workable Hit-Ships (Hit Skip accidents where some type of info is available on the hit-skip vehicle)	1869	2027	-8.45%
Total clearances	1639	N/A	N/A
Percentage of clearances on all accidents	40.8%	N/A	N/A
Percentage of clearances on workable acc.	87.6%	N/A	N/A
Citations issued as a result of a hit-skip	1181	1114	+5.6%
Conviction rate on citations issued	99.4%	N/A	N/A
Percentage of all accidents in which one or more drivers attempted to evade responsibility by fleeing the scene	15.36%	16.87%	-1.51%
Notifications to suspects	2200	N/A	N/A

No private property hit-skip accidents were investigated in 1974. In 1975 we will investigate all workable hit-skip accidents on private property will be investigated.

Attached is Ptl. Sackman & Scobie's Annual Report. In 1975 all statistics will be computed and reported monthly.

Respectfully

*Sergeant Larry Armstrong*  
 Sergeant Larry Armstrong

Jan. 3, 1975

To Capt. Donald Hickey  
Sgt. Larry Armstrong

Subject: Hit- Skip Div. 1974 Work Report

There were 1181 Moving Citations issued by the Hit- Skip Div. for the year of 1974 as compared to 1114 Moving Citations issued for 1973.

Hit- Skip Accidents totaled 4017 for 1974 of which 1869 hit-skip accidents had information on the hit-skip vehicle; these were all on-street or injury type accidents. Hit-Skip accidents totaled 4000 for 1973 of which 2027 accidents had information on the hit-skip vehicle. Note: The 1973 total included approx. 05% private property accidents. During 1975, all private property accidents with any information on the hit- skip vehicle will also be investigated.

Approx. 2200 first and second notifications were mailed to hit- skip drivers (suspects) from this office during 1974.

Of the 1869 hit-skip accidents which had information on the hit- skip vehicle, a total of 1639 hit-skip accidents were solved; this means a clearance rate of about 87%.

Of the 1181 moving citations issued, 7 citations resulted in not guilty findings.

In reference to the boating inspections. This matter was discussed at the Symposium and it is our feeling that this is covered extensively by the 10 Flotillias of the Coast Guard Aux. people, they have a very active program of inspection and they give the inspection decal. Further inspection, other than when stopped for a boating violation, on our part, may border on harrasment.

The only problem we encountered this past season, and this has been with us since the establishment of the patrol, is the proper posting of speed and wake signs in the Ottawa River. This problem was discussed with Mr. Steve Mullins, Field Operations Coodinator Division of Watercraft, when he visited us last summer.

We agreed to try the State Bouy Markers, these are approved and established by State Law and are available to us free, in limited numbers. I have requested that the river be posted and am waiting for a legal opinion as to our jurisdictional limitations on this river. Jurisdictional problems are another reason we feel the WARNING system is the only way to go on the Ottawa River.

The problem is further complicated by the City Limits only going to the center of the river and one third of the North end of the river is in Michigan.

Page 3

Extensive repairs are needed on the boat for the coming season. I have obtained two (2) quotations from Harrison Marina, one for repairs and rebuilding transmissions and reduction gears, the other is for complete replacement of the transmissions and reduction gears. It has been recommended that the rebuilding be done at this time as the boat is a 1969 model and replacement is a necessity if the boat is to be run at peak efficiency for the coming season.

Considering that the boat is stored inside at Harrison's Marina it does not seem practical to have the boat moved and the work done elsewhere.

It is also my opinion that it would be impractical for the Municipal Garage to do the job as they would have to remove the motors (2), take them to the shop, order the special parts and still have the other related repairs to do. Harrison's has done this type of work for us in the past and the results have been very satisfactory.

ROBERT J. DUCK  
CHIEF OF POLICE

LEADS OHQ48Q7

To: Michael D. Liwo, Deputy Chief  
From: Lieutenant Sidney S. O'Dell  
Subject: Budget Request for 1974

Sir:

I respectfully present the following requests for your consideration.

5 radar sets to replace 5 that are over two years old and becoming maintenance problems. \$7,000.00

4 Crown Graphic Cameras for the Accident Investigation Units to replace smaller and less efficient cameras that they are now using. \$1,600.00

8 office chairs to replace various aging chairs in the Traffic Bureau. \$800.00

10 new file cabinets for the Traffic Bureau to replace aging cabinets that fall over and drawers fall out of. \$1,500.00

6 small IBM Electric typewriters for the Accident Squad Room, my office and Civilian office replacement. \$1,800.00

4 additional automobiles for the Traffic Bureau, so that we can have a couple of spares in case of breakdown. \$12,000.00

2 Harley Davidson Servicycles as a continuing replacement program. \$5,000.000

Film supplies for the Accident Investigation Squad. \$24.00

Film supplies for the Junk Automobile Detail including 2 new Polaroid Cameras. \$100.00 for the cameras(2). Polaroid film for the Junk Automobile Detail \$300.00.

1,000 traffic ticket holders for the patrolmen. \$3,000.00.

1 Clerk 1 for the Traffic Bureau civiliam detail. This position was vacated this year and never replaced. With the added paperwork that the Traffic Bureau is involved in the hiring of this clerk is imperative. \$8,000.00.

Respectfully,

*Sidney S. O'Dell*

In the beginning of 1974, the Selective Enforcement Units were assigned city-wide patrol duties in the 1st and 2nd districts. Our unit's primary assignment was to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas. The unit's primary assignment was to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas. The unit's primary assignment was to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas.

In July, a personnel unit was assigned to the 1st and 2nd districts exclusively, with the unit's primary assignment being to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas. On September 27th, the personnel unit was reduced to three officers of experience within the unit.

During the month of July and August, this unit participated in special surveillance operations for a race riot, and the direction of two juvenile groups was obtained a total of 3,177 man-hours in this operation.

### ANNUAL REPORT

In October, this unit instituted a special surveillance procedure, through which all units were assigned to the same area for a period of time.

### SELECTIVE ENFORCEMENT UNITS

From information received from the 1st and 2nd districts, the Selective Enforcement Units are assigned to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas. During 1974, our unit was assigned to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas.

1974

### II. SUMMARY:

1. Selective Enforcement Units worked a total of 71,754 man-hours for the year of 1974. Assigned to the 1st and 2nd districts, our unit was assigned to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas.
2. During the time from January 1st to December 31st, we provided 23,717 man-hours for patrol duties, including both day and night work, and 14,347 man-hours working in division duties in the 1st and 2nd districts. From July 1st to September 27th, we used 3,177 man-hours in special operations and available for use by the 1st and 2nd districts for all types of calls for police action. We used 1,000 man-hours for special surveillance duties during the year. We also used 3,532 man-hours for special surveillance duties during the year. In addition, we used 4,134 man-hours for special surveillance duties during the year. In addition, we used 4,134 man-hours for special surveillance duties during the year.
3. In addition to the 71,754 man-hours, 14,347 man-hours of our unit were assigned to other duties, including the 1st and 2nd districts, and were assigned to provide a deterrent to the sale of narcotics in commercial areas and to provide a deterrent to the sale of narcotics in residential areas.

## 1974 ANNUAL REPORT - SELECTIVE ENFORCEMENT UNITS

### I. NARRATIVE:

In the beginning of 1974, the Selective Enforcement Units were assigned city wide, working both north and south channels. Our units were also being sent by the dispatcher to answer all types of complaints in conjunction with work on felony crimes in the high crime areas. At this time, we had five basic units working from 1200 to 2000 hours and the remaining personnel assigned from 2000 to 0400 hours.

In July, all personnel were re-assigned to the 2000x0400 shift exclusively, with five units in marked cars and used by the shift Captain and the dispatcher. On September 27th, the marked units were reduced to three because of vacancies within the unit.

During the months of July and August, this unit participated in special surveillances for a rape suspect under the direction of the Juvenile Bureau and utilized a total of 3,171 man-hours in this operation.

In October, this unit instituted a saturation procedure, whereby all units were assigned to the same channel and general area. This also consisted of staking out a number of business establishments from information received from the Daily Bulletin, the Investigative Bureaus and other sources within and without the department. During this period, our crews made fifteen arrests for "on-view" Aggravated Robberies.

### II. STATISTICS:

- A. 1. Selective Enforcement units worked a total of 74,784 manhours for the year of 1974. Assigned to the unit was 1 Lieutenant, 4 Sergeants and 38 Patrolmen.
2. During the time from January 1st to June 30th, we expended 23,719 manhours in uniform, working both marked and unmarked cars and 14,983 manhours working in civilian clothes in unmarked vehicles. From July 1st to September 26th, we used 7,200 manhours in marked cars and available for use by the dispatcher for all types of calls for police action. We used 10,080 manhours in unmarked vehicles during regular working hours. We also used 1,522 manhours in overtime, all in unmarked vehicles for our "Rape Special" during July and August. From September 27th to December 31st, we used 4,320 manhours in marked vehicles and 12,960 manhours in unmarked vehicles.
3. In addition to the 74,784 manhours, members of this unit were assigned to other duties, either for light duty assignment or special assignment as follows:

Record Bureau

272 Manhours

Police Gym	296	Manhours
Morals Squad	8	"
Detective Bureau	64	"
Traffic Bureau	8	"
Communications	<u>632</u>	"
Total manhours	1280	

B. Workload: The Selective Enforcement Units have been responsible for concentrating units in the high crime areas of the city with the main attention given to robbery and burglary complaints along with any other concentrated type of crime. Our units also handled or assisted the uniform shift with large gatherings of people, major disturbances, flood and heavy snow conditions and any other type of emergency conditions that existed. If and when computerization is set up within the department to pinpoint crime areas, this will assist us in the deployment of our personnel and reduction of crime.

1. Statistics. Our caseload included 922 stakeouts with a average of 4 hours per stakeout. Utilizing two man crews this added up to 7,376 manhours. There were 15 "on view" Aggravated Robbery arrests made during this operation which averaged out to be 491 manhours per arrest. We also had 938 special surveillances assigned to this unit with a average time spent during their eight hour tour of duty of 1 hour per crew for a total of 1,876 manhours. We used a total of 39,545 manhours, including overtime for the "Rape Special" in unmarked units which were used for stakeouts, special surveillances and patrol in the high crime areas. Our crews also spent a total of 35,239 manhours in uniform, available to the Shift Captain and the dispatcher for all types of calls for police action.

2. Equipment Inventory. Our unit has the following equipment assigned to us:

- 15 Shotguns and cases
- 3 Carbines and cases
- 1 Magnetic Red Light
- 2 Boxes of .30 Cal. Carbine Ammunition
- 5 Carbine magazines, 15 rounds each
- 55 Rounds of loose .30 Cal. Carbine Ammunition
- 62 Rounds of No. 1 Buck, 12 Gauge Shotgun Ammunition
- 2 Metal boxes for Shotgun and .30 Cal. Ammunition
- 1 Four drawer metal file cabinet
- 28 UHF Portable Radios
- 19 UHF Portable Radio Ear Plugs
- 6 Pairs of Police Coveralls
- 1 Metal desk
- 1 Long Carriage typewriter
- 1 Wooden swival chair

- 1 Scanner Radio, Serial No. 20-50554
- 3 Marked Cars
- 1 Unmarked Ford Van Truck
- 3 Unmarked cars

In addition to the above assigned vehicles, we utilized some 18 additional vehicles which are assigned to the Adult and Juvenile Investigative Bureaus.

- 3. Property booked. This information is not available.
- 4. Persons booked. Our units made the following arrests in

1974:

Adult Felony Arrests	390
Adult Misdemeanor Arrests	690
Juvenile Felony Arrests	38
Juvenile Misdemeanor Arrests	69

Total arrests: 1187

Adult Felony arrests:

- Aggravated Murder-4
- Voluntary Manslaughter-2
- Felonious Assault-22
- Kidnapping-2
- Child Stealing-2
- Rape-1
- Sexual Battery-2
- Corruption of a Minor-1
- Escape-3
- Felony Attempts-2
- CCW-Loaded weapon-55

Possession of Drugs-20  
Bastardy-3  
Contempt-2  
State Peace Bond-12  
Misc. Misde. Warrants-25  
Traffic arrests-158  
Parole Violations-12  
Transporting Narcotics in a Motor Vehicle-3  
Maintaining a auto for the storage of hallucinogens-3  
Safekeeping-7  
Glue Snifing-1  
Possession of Fireworks-4  
School Trespass Violation-1  
Tampering with Motor Vehicle-1  
Child Abuse-1  
Park Curfew Ord.-2

Juvenile Felony Arrests:

Murder-1  
Aggravated Robbery-6  
Robbery-1  
Breaking and Entering-21  
B & E of a Motor Vehicle-1  
Grand Theft-1  
Auto Theft-2  
CCW-4  
Conspiracy with intent to rob-1  
Aggravated Assault-1

Juvenile Misdemeanor Arrests:

Petty Theft-6  
Ohio Youth Comm. Warrants-2

5/2/8  
6/14/5  
7

Possession of Hallucinogens-8  
Traffic Arrests-14  
Improper handling of firearms-2  
Disorderly Conduct-9  
Operating Motor Vehicle without the owners consent-3  
Runaways-8  
Drug holder-1  
Failure to Disperse-4  
Traffic Warrant-1  
Order of Arrest-Drugs-1  
Criminal Damage-3  
False ID-1  
Tampering with a Motor Vehicle-2  
Minor Warrants-2  
Tampering with a Coin Machine-2

5. Public Relations Contacts. None.
6. Supportive Services. None.
7. Miscellaneous. Members of the Selective Enforcement Units attended several schools on police related subjects during this year with the following manhours:

K-9 Dog School-808  
Police Schools-440  
Code Training-56  
Civil Service Evaluation-14  
Range Firing-35

Total manhours-1,353.

Men were excused from duty for the following reasons:

Military Leave-344 Manhours	Sick-3,236
Funeral Leave-176 Manhours	Sick Family-224
Union Business-64 Manhours	Disabled-1,104
Official Business-16 Manhours	

Total Manhours-5,164

A total of 2,574 manhours were used for Overtime Court.

Vacation time amounted to a total of 5,636 manhours.

8. Total Budget Request-1974. None.

### III. GOALS AND OBJECTIVES:

Our primary goal is to reduce crime. We intend to accomplish this task by saturation patrolling of high crime areas, stake-outs at known targets of criminal activity. We hope to have better information from the Crime-Analysis Intelligence Unit on locations of possible major crimes. By using this saturation and flexibility, this unit feels it can accomplish this goal.

Our objectives are for newer and more modern equipment, training of all personnel in such areas as tactical operations and eliminating the process of assigning personnel to this unit by seniority basis rather than ability to perform duties demanded of this unit. We would also like to have the name of this unit changed, as Selective Enforcement has always been connected with traffic enforcement rather than suppression of crime, which has been our primary duty.

The following statistics represent the workload and clearance rates of the Unit for the calendar year 1974. When possible, I have included a comparison of percentages of the calendar years 1973 with 1974.

	1974	1973	1974 vs 1973
Number of reported hit-and-run accidents	4117	4509	+9.1%
Number of hit-and-run accidents where some type of info is available on the hit-and-run vehicle	2839	3027	-6.5%
Number clearances	1639	N/A	N/A
Percentage of clearances on all accidents	40.8%	N/A	N/A
Percentage of clearances on available info.	57.8%	N/A	N/A
Number issued as a result of a hit-and-run	1181	1114	+5.9%
Clearance rate on citations passed	99.1%	N/A	N/A
Percentage of all accidents in which one driver has been cited to share responsibility by causing the crash	16.0%	16.8%	-4.8%
Number of citations	2200	N/A	N/A

No private property hit-and-run accidents were investigated in 1974. In 1973, 20 hit-and-run accidents on private property will be investigated.

Attached is Sgt. Charles J. Sackie's Annual Report. In 1975 all hit-and-run will be reported and reported as such.

Respectfully,  
*Raymond J. Armstrong*  
 Sergeant, Los Angeles

TO: CAPTAIN DONALD T. HICKEY - COMMANDER TRAFFIC SECTION  
 FROM: SERGEANT LARRY ARMSTRONG  
 DATE: JANUARY 6, 1975  
 SUBJECT: HIT SKIP ACCIDENT SQUAD STATISTICS FOR 1974

The following statistics represent the workload and clearance rates of the Hit-Skip Squad for the calendar year 1974. When possible, I have included comparison statistics of percentages of the calendar years 1973 with 1974.

1974	1973	1974 to 1973 Comparison
Total number of reported hit-skip accidents	4017	4000 +0.42%
Workable Hit-Ships (Hit Skip accidents where some type of info is available on the hit-skip vehicle)	1869	2027 -8.45%
Total clearances	1639	N/A N/A
Percentage of clearances on all accidents	40.8%	N/A N/A
Percentage of clearances on workable acc.	87.6%	N/A N/A
Citations issued as a result of a hit-skip	1181	1114 +5.6%
Conviction rate on citations issued	99.4%	N/A N/A
Percentage of all accidents in which one or more drivers attempted to evade responsibility by fleeing the scene	15.36%	16.87% -1.51%
Notifications to suspects	2200	N/A N/A

No private property hit-skip accidents were investigated in 1974. In 1975 we will investigate all workable hit-skip accidents on private property will be investigated.

Attached is Ptl. Sackman & Scobie's Annual Report. In 1975 all statistics will be computed and reported monthly.

Respectfully

*Sergeant Larry Armstrong*

Sgt. Larry Armstrong

Subject: Hit- Skip Div. 1974 Work Report

There were 1181 Moving Citations issued by the Hit- Skip Div. for the year of 1974 as compared to 1114 Moving Citations issued for 1973.

Hit- Skip Accidents totaled 4017 for 1974 of which 1869 hit-skip accidents had information on the hit-skip vehicle; these were all on-street or injury type accidents. Hit-Skip accidents totaled 4000 for 1973 of which 2027 accidents had information on the hit-skip vehicle. Note: The 1973 total included approx. 05% private property accidents. During 1975, all private property accidents with any information on the hit- skip vehicle will also be investigated.

Approx. 2200 first and second notifications were mailed to hit- skip drivers (suspects) from this office during 1974.

Of the 1869 hit-skip accidents which had information on the hit- skip vehicle, a total of 1639 hit-skip accidents were solved; this means a clearance rate of about 87%.

Of the 1181 moving citations issued, 7 citations resulted in not guilty findings.

February 12, 1974

Under the new guidelines of the Uniform Crime Reports there is now a new division in the Larceny category - Larceny over \$150.00 and Larceny under \$150.00 - whereas in the past the diacritical figure was \$50.00.

Crimes Against Property decreased 342 as compared to the month of December, 1973. In the category of Crimes Against the Person, there was a decrease of 3 as compared to the previous month.

In the month of January, 1974, the Detective Bureau handled 42 adult robbers of which 21 were noted as being drug related individuals. The Juvenile Bureau handled 11 juveniles and 1 adult for a total of 54 robbers processed for the month.

The Detective Bureau also investigated and processed 29 adults on burglary charges of which 21 were drug related individuals; 7 adults for receiving stolen property, of which 4 were drug related and 1 grand larceny in which the arrested person was noted as being drug related. Further, the Juvenile Bureau handled 41 juveniles and 2 adults on Burglary charges for a total of 72 persons processed on Burglary or Attempt Burglary for the month of January.

It should be noted that the Juvenile Bureau does not make an effort to determine if the persons processed on felony charges have a background for the use of drugs.

It is evident from the large number of persons arrested in the month of January for Robbery and Burglary that the members of this division have been exerting a very good effort in regards to these offenses.

It is also relevant to note the large number of adults arrested on these charges who have a drug related background.

I urge all members of this division to continue to exert every effort in the suppression of serious crime.

Robert J. Duck,  
Chief of Police

ROBERT J. DUCK, Chief of Police

## ADULT INVESTIGATIVE SECTION

The physical layout of the Adult Investigative Section was completely re-arranged during 1974. Individual offices were removed and the "open area" concept was installed. Instead of individual squads within the section, the entire section was divided into two main categories - Crimes Against Persons and Crimes Against Property. What was formerly the Robbery and Homicide Squads were merged into the Crimes Against Persons Section. The Auto, Burglary, Check and Special Squads were merged into the Crimes Against Property Section.

As of January 1, 1974, the Adult Section was comprised of 69 detectives, 3 police personnel assigned to the Crime Lab; 1 civilian assigned to the Crime Lab; and 3 civilian stenographers.

As of December 31, 1974 the Crime Lab personnel were placed in another section. This fact plus a decrease of 9 personnel in the section, left 62 detectives and 1 civilian stenographer at the years end.

During the year, at least one major robbery ring was dissolved. In December, the final arrest of those involved in this ring was completed, making a total of 9 male and one female participant arrested who were responsible for 64 aggravated robberies, including bars, banks, stores, carry-outs, etc. Members of the Robbery-Homicide Unit spent hundreds of man hours on these cases before bringing it to a successful conclusion.

Theft Unit investigators successfully completed an investigation into thievery at the City Municipal Garage. This resulted in 7 males being arrested and charged with 9 felonies and 3 misdemeanors. This required over 223 man hours over a period of two months.

The Auto Theft investigators dissolved a major ring operating throughout Ohio and Michigan. The investigation extended over a 6 month period and cleared 33 Toledo auto thefts and numerous clearances in Southern Michigan. The three ring leaders were all convicted of various felonies.

### Workload

20,863 offenses against the property of others were assigned to the Property Section. 2,958 arrests were made of persons committing these offenses. Following is the list of specific assignments:

#### Theft Section

2 Command Officers  
9 Investigators      7,764 Assigned Complaints      1,775 Arrests

#### Check Section

2 Command Officers  
2 Investigators      3,816 Assigned Complaints      1,479 Arrests

### Burglary - Auto Section

3 Command Officers  
14 Investigators      9,287 Assigned Complaints      516 Arrests

### Robbery - Homicide Section

4 Command Officers  
17 Investigators      1,620 Robbery Complaints Assigned      239 Arrests  
1,131 Homicide Complaints Assigned      2,048 Arrests \*

\* This includes arrests made from cases assigned to "Warrants Pending file". Such cases are not formally listed as "assigned" cases.

This section also handled 504 guns and other weapons which were confiscated by the Police Division.

1,352 were bound over to the Grand Jury.

Personnel from the Adult Investigative Section made talks to civilian groups, and appeared on radio and TV a total of 35 times.

Two abandoned automobile auctions were conducted by this section. 72 vehicles were auctioned and a total of \$12,580.00 was obtained as a result. Most of this money was used to pay towing and storage fees, but \$937.85 was turned in to the General Fund of the City of Toledo.

### Equipment

- 38 motor vehicles
- 38 portable radios
- 1 bolt cutter
- 1 30-06 Remington carbine
- 2 sawed-off double barrel shotguns
- 2 regular shotguns
- 3 carbines, 1 with scope
- 48 battery chargers
- 3 Polaroid cameras
- 2 pairs of field glasses
- 2 spotlights
- 2 bullet proof vests
- 2 pairs of leg irons
- 3 pairs of handcuffs, one with chains
- 3 tape recorders
- 11 fingerprint kits
- ammunition for all weapons listed above

The objective of the Adult Investigative Section is to raise the total clearance rate by at least 1%. We hope to achieve this by maintaining a closer relationship with the uniformed branch and maintain and develop better lines of communication with all facets within our division.

February 10, 1975

TO: Corrin J. McGrath, Chief of Police  
FROM: Raymond C. Vetter, Assist. Chief of Police  
SUBJECT: Annual Report - 1974, Adult Investigative Section

Narrative

The physical layout of the Adult Investigative Section was completely re-arranged during 1974. Individual officers were removed and the "open area" concept was installed. Instead of individual squads within the section, the entire section was divided into two main categories - Crimes Against Persons and Crimes Against Property. What was formerly the Robbery and the Homicide Squads were merged into the Crimes against Persons Section. The Auto, Burglary, Check and Special Squads were merged into the Crimes against Property Section.

As of January 1, 1974, this Adult Section was comprised of 69 detectives, 3 police personnel assigned to the Crime Lab.; 1 civilian assigned to the Crime Lab.; and 3 civilian stenographers.

As of December 31, 1974, the Crime Lab. personnel had been removed from my supervision. Besides this, we had a decrease of 9 personnel during the year. At year's end, we had 62 detectives and 1 civilian stenographer.

During the year, at least one major robbery ring was dissolved. In December, the final arrest of those involved in this ring was completed, making a total of 9 male and one female participants who were responsible for 64 aggravated robberies, including bars, banks, stores, carry-outs, etc. Members of the Robbery-Homicide Unit spent hundreds of man-hours on these cases before bringing it to a successful conclusion.

Also, Theft Unit investigators successfully completed an investigation into thievery at the City Municipal Garage. This resulted in 7 males being arrested and charged with 9 felonies and 3 misdemeanors. This required over 223 man-hours over a period of two months.

The Auto Theft investigators dissolved a major auto theft ring operating throughout Ohio and Michigan. The investigation extended over a 6 month period and cleared 33 Toledo auto thefts and numerous clearances in Southern Michigan. The three ring-leaders were all convicted of various felonies.

Workload

20,863 offenses against the property were assigned to the Property Section. 2,958 arrests were made of persons committing these offenses. Following is the list of specific assignments:

	<u>Theft Section</u>	
9 Investigators	2 Command Officers	- Total 11
7,764 Assigned Complaints	1,775 Arrests	
	<u>Check Section</u>	
2 Investigators	2 Command Officers	- Total 4
3,816 Assigned Complaints	1,479 Arrests	

Burglary-Auto Section

14 Investigators	3 Command Officers	- Total 17
9,287 Assigned Complaints	516 Arrests	

Robbery-Homicide Section

17 Investigators	4 Command Officers	- Total 21
1,620 Robbery Complaints Assigned	239 Arrests	
1,131 Homicide Complaints Assigned	2,048 Arrests*	

\*This includes arrests from cases assigned to "Warrants Pending file".  
Such cases are not formally listed as "assigned" cases.

This section also handled 504 guns and 69 other weapons which were confiscated by the Police Division.

1,352 persons were bound over to the Grand Jury.

Personnel from the Adult Investigative Sections made talks to civilian groups, appeared on radio and TV a total of 35 times.

Two abandoned automobile auctions were conducted by this bureau. 72 vehicles were auctioned and a total of \$12,580.00 was obtained as a result. Most of this money was used to pay towing and storage fees, but \$937.85 was turned in to the General Fund of the City of Toledo.

Equipment

- 38 motor vehicles
- 38 portable radios
- 1 bolt cutter
- 1 30-06 Remington carbine
- 2 sawed-off double barrel shotguns
- 2 regular shotguns
- 3 carbines, 1 with scope
- 48 battery chargers
- 3 Polaroid cameras
- 2 pairs field glasses
- 2 spotlights
- 2 bullet proof vests
- 2 pair leg irons
- 3 pair handcuffs, one with chains
- 3 tape recorders
- 11 fingerprint kits

Ammunition for all weapons listed above

The objective of the Adult Investigative Bureau is to raise the total clearance rate by at least 1%. We hope to achieve this by maintaining a closer relationship with the uniformed branch and maintain and develop better lines of communication with all facets within our division.

  
Raymond C. Vetter  
Assistant Chief of Police

Captain - Crimes Against Persons Section Supervisor  
Captain - Crimes Against Property Section Supervisor

Captain - Staff Section Supervisor

Lieutenant - Warrant Coordinator, Relieves duties of Lieutenant in other sections one weekend each month and Staff Captain when need arises

Desk Personnel - Two Sergeants, Two Acting Sergeants - Assigned to Adult Investigation Complaint Desk on a 24 hour basis. Three are permanent shifts, one is relief.

Staff - Court Officer - Handles Felony Arraignments in Municipal Court and Liaison with Court Administrators and other staff duties assigned by the Staff Captain.

Stenographer - Responsible for all section secretarial duties.

The Staff Function is to maintain equipment inventory files, Grand Jury cases, days off and vacation for all personnel, unclaimed motor vehicles auctions, daily procedures necessary to maintain the orderly operation of the Section. Also arrange for police speakers at various civic and educational functions.

## JUVENILE SECTION

### Missing Persons

#### Local Persons Reported Missing

As of December 31, 1974, there were 42 sworn officers and one civilian, a stenographer, assigned to this section. This was a reduction of four officers and one stenographer during the year.

The section received 13,861 complaints in 1974 as compared to 12,008 in 1973, an increase of 1853. In addition, 2,563 runaways or missing persons were recorded, which was down 181 from the previous year. It might be noted that this is the first decrease in such reports since 1959. Of the 13,861 complaints received, 5,888 were inactivated. Of particular significance is that 2679 of the inactives were for the theft of bicycles.

A total of 7,758 juveniles were charged with offenses in 1974 as compared to 8,273 in 1973, a decrease of 515. Although the total number of juveniles charged was down, there was an increase of 202 charged with Class I offenses, 1196 to 1,398.

The number of adult arrests was also increased from 414 to 564. One hundred and fifty-six (156) of these were for Class I offenses. In the rape category, 49 adults were charged with this offense as compared to 29 in the previous year.

Our extra clearances increased from 1331 in 1973 to 1572. Other members of the division made final dispositions on 2119 juveniles, up 1928 over the previous year.

Our objectives for 1974 were to increase the number of final dispositions by other members of the division; increase our juvenile arrests for serious offenders; and increase the number of extra clearances. These were all attained.

Our objectives for 1975 are to:

- I - Increase the number of bicycle theft clearances by 10%.
- II.- Decrease the number of bicycle thefts by 10%.
- III.- Increase the number of final dispositions by other members of the division by 30%.

*Kenneth C. Rebensal*  
Kenneth C. Rebensal, Captain  
Juvenile Section  
Investigative Services Bureau

31 December 1974

To: Corrin J. McGrath - Chief of Police  
Thru: Raymond C. Vetter, Assistant Chief of Police  
From: Sergeant William Case, Internal Affairs Bureau  
Subject: Work Report for 1974 - Internal Affairs Bureau

Sir:

The following is to be considered a report on the activities and investigative workload for the Internal Affairs Bureau for the period of from January 1, 1974 through December 31, 1974. During this time period there were four men assigned to the bureau.

Our function basically breaks down into two primary areas, those of departmental investigations concerning disciplinary matters originating within the Division; and those matters concerning citizen complaints against police officers. We shall attempt to describe the departmental investigations first.

During the year of 1974 our bureau investigated one hundred and fifteen (115) departmental complaints. Of these, fifty-nine (59) resulted in disciplinary hearings before the Chief of Police. Three of these cases were determined as "Not Guilty", due to incorrect phrasing of orders; while the remaining fifty-six (56) were found "Guilty". This makes a conviction rate on departmental hearings of approximately 95%. The remaining fifty-six cases, which did not arrive at the disciplinary hearing stage, broke down as follows:

59  
56  
1/3

(WORK REPORT FOR INTERNAL AFFAIRS BUREAU - 1974 - CONTINUED)

"Unfounded" ----- 7 Cases

"Exonerated" ----- 9 Cases

"Not Sustained" ----- 4 Cases

"Sustained" ----- 36 Cases

As can be seen, twenty (20) of these investigations did not require further actions, due to their being either unfounded, not sustained, or exonerated. The thirty-six cases which were sustained, were handled either through a verbal reprimand or counseling by his commander. Included in this category, are three men who resigned or retired from the Division while an investigation directed at them was being conducted.

Internal Affairs Bureau also investigated eight (8) cases involving civilian employees of the Police Division including five (5) Police Aides. Of these cases, four (4) were sustained; three (3) were not sustained; and one (1) was unfounded. The sustained findings in this particular group were arrived at as the results of hearings before Safety Director Shanteau.

---

With regard to the complaints made by citizens, the Internal Affairs Bureau investigated four hundred and eight (408) complaints of this nature. For statistical purposes, citizen complaints are broken down into seven broad categories of types of complaints, and after investigation are further categorized as to the type of finding in the particular investigation. The following chart is a summation of the 1974 citizen complaints:

(WORK REPORT FOR INTERNAL AFFAIRS BUREAU - 1974 - CONTINUED)

Of the four hundred and eight (408) citizen complaints received during 1974 they fell into the following seven major categories:

- #1. - Police Brutality ----- 87 Cases --- 21% of Total Caseload
  - #2. - Police Discourtesy----- 81 Cases ---20% of Total Caseload
  - #3. - Missing Property ----- 20 Cases --- 5% of Total Caseload
  - #4. - Lack of Police Service -----63 Cases --- 15% of Total Caseload
  - #5. - Delay in Police Service -----14 Cases --- 3% of Total Caseload
  - #6. - Improper Police Activity -- 100 Cases -- 24% of Total Caseload
  - #7. - Conduct and Deportment --- 43 Cases --- 12% of Total Caseload
- 408 Cases --- 100% of Caseload

When these four hundred and eight cases had been investigated, the findings were determined to be as follows:

- #1. - "UNFOUNDED" ----- 259 Cases ----- 63% of Total
- #2. - "NOT SUSTAINED" ----- 58 Cases ----- 14% of Total
- #3. - "EXONERATED" ----- 38 Cases ----- 9% of Total
- #4. - "SUSTAINED" ----- 53 Cases ----- 14% of Total

408  
 355  
 ---  
 53

In addition to these mentioned investigations which are our primary function, other tasks were assigned us because of our unique position within the Division. These other jobs consumed a great deal of time and effort within the bureau. Some of the more time consuming ones are mentioned to illustrate

(WORK REPORT FOR INTERNAL AFFAIRS BUREAU - 1974 - CONTINUED)

this point and are described in man-hours of combined total effort time:

120 MAN HOURS - COMPILATION OF STATISTICS FOR REGIONAL PLANNING UNIT

112 MAN HOURS - RECRUIT BACKGROUND INVESTIGATIONS

94 MAN HOURS - PROSECUTION OF CASES BEFORE SAFETY DIRECTOR AND CIVIL SERVICE

600 MAN HOURS - LABOR NEGOTIATIONS (BUREAU COMMANDER)

There were numerous other functions fulfilled during the year of 1974, such as conferences, hearings, and discussions which also took a great deal of time, but which do not readily lend themselves to compilation or description.

In summation, the Bureau of Internal Affairs investigated one hundred and twenty-three (123) departmental complaints; four hundred and eight (408) citizen complaints; prosecuted fifty-nine (59) cases of disciplinary violations before the chief; conducted thirteen (13) appeal hearings before the Safety Director and Civil Service; and performed numerous other functions which were assigned us.

Respectfully,

William Case  
Acting Lieutenant  
Internal Affairs Bureau

February 3, 1975

CORRIN J. McGRATH  
CHIEF OF POLICE  
LEADS OHQ48Q7

TO: DEPUTY CHIEF ERWIN P. OEHLERS  
FROM: LIEUTENANT LEONARD J. STACHURA  
SUBJECT: 1974 ANNUAL REPORT

### NARRATIVE.

Turnkey records show that in the year 1974 there were 12,383 males booked in the Mens' Jail and 2,284 females booked in the Womens' Jail.

Reorganization in the Police Division structure resulted in the jails and courtroom units being placed under the direction of the Deputy Chief of Community Resources. A new position was established, that of a Jail Supervisor, headed by a Lieutenant, to oversee the operations of both the Mens' and Womens' Jails. Also to oversee the courtroom detail.

A Jail Task force was formed in August, 1974, to revise and streamline existing rules, regulations, orders and procedures, which pertain to the operation of the jails. Job descriptions were drawn up and a number of new jail orders and procedures instituted.

Rule 18-Local Rules of Criminal Procedure was adopted by the Judges of the Municipal Court and its conditions put into practice by the jail personnel.

Liason was established with the Work Release Program. Procedures and objectives of the program were outlined.

The Mens' Jail was renovated during the year. New shower facilities were added, new double steel bunk beds and mattresses were installed in all the single cells, E block was renovated by installing 10 steel bunk beds and mattresses, installing 3 stainless steel stool-lavatories and constructing new visiting booths.

On November 1, 1974, a contract was signed by the City of Toledo with the City of Columbus, to house long term woman prisoners. The necessary plans and procedures were formulated to carry this out.

A new procedure whereir the Jail personnel were instructed and began processing felons was implemented in November. This new procedure has been working out satisfactorily.

LEADS OHQ48Q7

## II. STATISTICS

### A. Man-hours.

1. Courtroom Bailiffs - 13 patrolmen -	27,040 Man-hours
1 sergeant -	2,080 "
TOTAL	29,120 "
2. Jail Personnel - 9 patrolmen -	18,720 Man-hours
3 sergeants -	6,240 "
TOTAL	24,960 "
3. Jail & Courtroom Supervisor	
1 lieutenant	2,080 Man-hours
<u>OVERALL TOTAL</u>	<u>56,160 Man-hours</u>

### B. Workload. - Jail Personnel

Security is the main responsibility. Other duties and obligations are to see that none of the prisoners civil rights are violated, humane treatment of all prisoners, allowing phone priveleges, serving meals, seeing to their medical needs, allowing for visitors, arranging for O.R. or bond releases, fingerprinting and processing prisoners, correct booking of all arrests, arranging transfers to other facilities, safekeeping of property, clenliness of the cell block and arrangement for court.

Jail personnel in their searches of prisoners have discovered and assisted in the prosecution of persons found in the possession of drugs and stolen property.

Jail Sergeants administer breath-a-lyzer tests in addition to supervising the jail personnel.

Courtroom Bailiffs are responsible for courtroom security and the handling of in custody cases. Other functions consist in the processing of records and dispositions of cases heard in the courts, the proper handling of continued cases, new cases, in custody cases, entering all dispositions in the log book, forwarding dispositions to the Record Bureau, oversee that prisoners are transported to the institution as directed by the courts, to oversee that sentences handed out by the judges are carried out, such as pay outs, referrals to probation, etc.

Jail matrons duties are identical to that of the men working in the mens jail.

Lieutenant inspects to see that the rule, regulations, orders and proper procedures are being carried out. Attempts to revise and streamline these as the need arises.

### 1. Statistics.

- a. 12,383 males booked
- b. 2,284 females booked
- c. 1,715 breath-a-lyzer tests administered
- d. 51,431 meals served in both the Mens' & Womens' Jail
  - 19,777 breakfasts
  - 16,179 lunches
  - 15,475 dinners

### 2. Equipment Inventory.

- a. (2) breath-a-lyzers
- b. (5) pr. handcuffs
- c. (1) pr. wirecutters
- d. (1) portable oxygen unit

### 3. Property Booked.

Property held as evidence all forwarded to the property room. All other prisoners property returned upon release.

### 4. Persons Booked.

Number of persons booked listed above. No number available as to arrested persons charged with other crimes due to violations or crimes discovered by jail personnel.

### 5. Public Relation Contacts.

Jail personnel have spoken to a number of school and other groups being escorted through the Safety Building.

### 6. Supportive Services.

- a. 14,667 males and females booked in the city jail.
- b. 51,431 meals served to male and female prisoners.
- c. Following records filed:
  - All persons arrested entered on "blotter" with other personal data.
  - All arrests cross indexed.
  - All prisoners fingerprinted.
  - Arrest card completed on all arrests.
  - Turnkey memorandum sheet listing persons in custody and cell being held in.
  - Court sheet containing persons going to court.
  - Dispositions entered on all persons having gone to court.
  - Felons processed when no one available in the BIR bureau.

## 7. Miscellaneous.

Request that when manpower becomes available, consideration be given to adding two men to the court security unit and one man to be used in the jail section on days for the large work load.

## 8. Total Budget Request.

Respectfully Submitted,

*Leonard J. Stachura*  
Lieutenant Leonard J. Stachura

## JAIL SECTION

Turnkey records show that in the year 1974 there were 12,383 males booked in the Men's Jail, and 2,284 females booked in the Woman's Jail.

Reorganization in the Police Division structure resulted in the jails and courtroom units being placed under the Deputy Chief of Community Resources. The position of Jail Supervisor was established, which is filled by a Lieutenant, to oversee the operations of both the Men's and Woman's jails. He also heads the courtroom detail.

A jail Task Force was formed in August, 1974 to revise and streamline existing rules, regulations, orders and procedures which pertain to the operation of the jails. As a result job descriptions were drawn up and a number of new jail orders and procedures were instituted.

Rule 18 - Local Rules of Criminal Procedure was adopted by the judges of the Municipal Court, and its conditions were put into practice by the jail personnel.

Liason was established with the Work Release Program, and procedures and objectives of the program were outlined.

The Men's Jail was renovated during the year. New shower facilities were added, double steel bunkbeds with mattresses were installed in all the single cells, "E" Block was renovated by installing 10 steel bunks and three stainless steel lavatories. New visiting booths were constructed to enhance the privacy of prisoners visitations.

On November 1, 1974 a contract was signed by the City of Toledo with the city of Columbus, Ohio to house long term woman prisoners. The necessary plans and procedures were formulated to carry this program out. Also that month a new procedure started wherein the jail personnel were instructed how to, and began, processing felons.

X

To put together a new and complete picture in School Traffic Safety it is most important that we compare our accident picture for 1972 as related to 1973. The pieces of our picture then begins to fall together, giving the year 1973 one of high acceleration in School Traffic Safety.

It is gratifying to report on the accident picture for the entire year of 1973. This involves school children from Kindergarten level through the eighth grade for our 114 schools in the three school systems of the City of Toledo. During the year 1973 we recorded 223 accidents in comparison to a 1972 total of 268 accidents. This is a decrease of 16.8%.

We attribute this decrease in accidents of school children to our new educational format developed and placed into operation by the Toledo Police School Traffic Safety Bureau during the school year of 1972.

During this time frame we have also experienced a 10.2% reduction in bicycle accidents. Even though the participation in the number of bicycle drivers has increased, this reduction can be attributed to our educational programs carried on in the schools and also in the city parks during the summer of 1973.

Information pertaining to our program has extended from our neighboring state of Michigan to Mayagues, Puerto Rico where we were instrumental in forming and supplying with both educational and material equipment a new School Safety Patrol system.

In taking a close survey of our School Safety picture it is a rewarding feeling to see that our many hours of educational work with our school children is finally paying some dividends toward our total traffic safety picture.

## SAFETY COLORING BOOK

A first in the history of the Toledo Police Department was introduced into the city school systems at the kindergarten and first grade levels by the School Traffic Safety Bureau with the beginning of the 1973-1974 school year.

This first was a coloring booklet known as "Color Me Safe" depicting the Toledo Police Officer showing, helping and explaining the safety rules that are being taught by the members of the School Traffic Safety Bureau at the kindergarten and the first grade level.

This coloring booklet was received with such a degree of acclaim by the educators that many requests for this publication were received and granted to nearby school systems, outside the City of Toledo.

Approximately 6,000 copies of "Color Me Safe" have been placed in the hands of our younger children for their "learning by doing".

## BICYCLE PROGRAM IN THE SCHOOL SYSTEM

A new concept in the education of bicycle driving and the care and upkeep of the vehicle was introduced into the school systems of Toledo.

With written information, pass out pamphlets and the mock up of bisected working parts of the bicycle, we were able to show and explain to the students why the bicycle functions as it does.

This being a two day program, the first day is devoted to lecturing and using our "show and tell" program.

On the second day of the program the students bicycle was inspected and licenses were issued when needed to complete our in depth bicycle program.

This was the second Safety Award received in a two year period by this Bureau from the Ohio Department of Highway Safety for programs introduced and carried on by the School Traffic Safety Bureau.

X

### SUMMER BICYCLE PROGRAM 1973

The 1973 summer program carried us into the many city parks with the same type of program of inspecting and licensing of bicycles that we had developed in the city school systems.

This being another first for the Police Department in carrying the inspecting and licensing to the bicycle operator, instead of forcing the bicycle operator to go to the license.

This form of program resulted in issuing 1,096 bicycle licenses and many more persons taking advantage of our inspecting and safety information.

The program was received with such a high degree of success in the field of bicycle safety that an award was issued by the Ohio Department of Highway Safety showing it to be a "Special Recognition to the City of Toledo for an Outstanding Program in Bicycle Safety for 1973".

This was the second Safety Award received in a two year period by this Bureau from the Ohio Department of Highway Safety for programs introduced and carried on by the School Traffic Safety Bureau.

X

## BICYCLE IDENTIFICATION CARD

The bicycle identification card is now being circulated in our school systems.

This card is a two part issue with one half being carried by the bicycle operator and the other half being retained by the school.

On the half retained by the bicycle operator all the vital information such as name, phone number, address, etc. along with the bicycle rules are shown.

The second half is retained by the school. This also has all the vital information on it plus a place for violations, type and date of such violation and bicycle license number.

In this manner the school can readily identify who belongs to what bicycle, as many are driven to school.

### TELEVISION APPEARANCE

Working with Buckeye-Cab television a series of short films regarding our "Patrolman Jim" were made.

Safety steps on bicycles, seasons and holidays were produced for television production.

X

## SAFETY GUARD OF THE DAY

The radio affiliation of our School Safety Program was finally switched to radio station WOHO. In past surveys taken, it was found, this station, above all others, reached the age levels we are dealing with. The Safety Guard of the Day program is being carried on with many spot announcements on safety. The Safety Guard being recognized as Guard of the Day has his or her name announced on WOHO for that particular day. This person also receives from WOHO a "Certificate of Appreciation", and from the Police Department a sweatshirt with the police decal on it. This sweatshirt is taken to the home of the guard by a member of the School Traffic Safety Bureau. It is here that the projection of a positive image of the police officer in the community is shown.

## TELEVISION APPEARANCE

Working with Buckeye Cablevision a series of pre-school programs featuring our "Patrolman Jim" were made.

Safety steps on bicycles, seasons and holidays were produced for television production.

## INDIVIDUAL CLASSROOM VISITS

Working with the Career Education Program in the Toledo Public Schools, a rapport between the members of the School Traffic Safety Program, students and teachers is having a positive reaction. In the individualized visits a motivation for the student is achieved.

While the student is gaining a positive attitude of the Police Officer, the Police Officer is able to inject more respect for the policeman's role in his everyday work, which of course is helping the student in all ways, including safety.

On the High School level, Driver Education Classes were visited to add the enforcement representation to the three E's of driver Education.

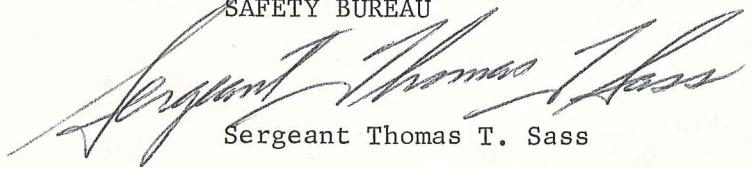

Our ever expanding Safety Patrol Leadership Camp was held along with many meetings with Safety Patrol members. Recognition and installations of new guard members were also attended.

The evenings also found us active in programs presented for various service organizations, PTA, Kiwanian, Exchange Club, etc.

With only four police officers involved in this monumental task of School Traffic Safety, we found it to be a demanding, yet a very rewarding, experience. The pace being swift with all of our thoughts having joined in one common goal - THE SAFETY OF CHILDREN.

Respectfully

TOLEDO POLICE SCHOOL TRAFFIC

FROM: SERGEANT ROBERT K. SHERWIN  
SUBJECT: POLICE COMMUNITY RELATIONS SECTION ANNUAL REPORT

SIR:

The routine duties of the officers assigned Police Community Relations Section, involve each officer working closely with the schools, neighborhood community centers, church and citizen organizations within their respective districts of the city. This involves keeping in close personal contact on a day in day out basis with the school administrators, teachers, students, public and private agency personnel, religious and citizen organization leaders and most important the citizens themselves.

A brief breakdown of these community contacts, consists of daily visits to the schools and community centers, being present and assisting in crowd control at athletic events, attending school and community meetings and social events, giving talks and making presentations in the schools and before community groups and organizations that will lead to citizen co-operation and participation through the development of a greater degree of understanding of the mission and needs of Law Enforcement.

## NEW PROGRAMS DEVELOPED IN 1974

A new program titled "Invitation to Understanding" was jointly developed and planned by the Police Community Relations Section of the Toledo Police Division and the Toledo Board of Education Directors of Social Studies, Dr. Wesley Jones, and the Director of Health & Safety

MERRIN J. McGRATH

Education Mr. David Schaffer.

The primary goal of this program is to develop positive attitudes towards, the police and the need for a Criminal Justice System in today's society.

This program is offered to one class at each of three grade levels in each school, the first, third and fifth grades. Two schools were selected from each High School District.

Members of the Police Community Relations Section of the Toledo Police Division conduct three sessions for each class. In the first, the officer appears in uniform, explains what his function is, and the various kinds of equipment he uses. A film is shown. The children learn about the need for rules, the persons who make rules and the persons who make laws.

In the third grade, rules are tied into a unit on social control which embraces rights and responsibilities, the reasons for rules, how to change unjust rules or laws; and crime prevention in relation to the child.

The fifth grader learns how groups accomplish their purposes by lawful and peaceful means; through pressure groups, petitions, picketing etc. They talk about the Bill of Rights and how it protects them and other people. This group is prepared for a tour of the Safety Building.

There has been 10 additional schools schedule for the second semester and 20 schools a semester during the 1975-76 school year.

This program has been further expanded into the Washington School District and into the Toledo Catholic Schools. Officers involved are of different ethnic backgrounds, and they visit schools in all parts of the city. Teachers have been asked to relate the information provided in the sessions to social studies projects.

RECREATION CRIME PREVENTION PROGRAM

Another new program was developed in 1974 which involved community Relations Section Officers working closely with the City of Toledo Recreation Division in attempting to prevent vandalism and unlawful activities in the parks. Officers worked 1500 hours to 2300 hours patrolling the parks and engaged in many crime preventive activities.

Encl. Training and Recruiting Annual Report (1974)

January 29, 1975

Police Training and Recruiting Section Annual Report for 1974

Introduction

On January 22, 1974, the Toledo Police Academy was merged with the Regional Criminal Justice Center by the order of the administration of the City of Toledo.

March 2nd. & 3rd., 1974, the Police Academy staff and its equipment was physically moved into the Criminal Justice Center at 316 Michigan Street., and placed under the jurisdiction of the director of the center. The academy staff was renamed Police Component, and its function was to conduct basic and in-service training for all regional law enforcement agencies. Our staff complement consisted of four (4) members.

The Criminal Justice Center facilities (office and classrooms) were in the process of remodeling when the transfer occurred. The training staff occupied two offices, and with the exception of the police Component Leader; the other staff members and all equipment had to be moved three times due to remodeling operations. Our files, library, resources, and equipment were stored on three floors throughout the building in packing cases. Working under severely handicapped conditions, we had to revise our forms, rules and regulations, and the curriculum to a regional format. It was not until June 16th, 1974, that remodeling and construction was completed for office space and two classrooms. Our first class, an 80 hours Management Course, began on June 17th, 1974.

The following report delineates the scope of activities planned, synchronized, made operational and conducted during the year 1974.

- Training Programs -

Recruit Training

The police component conducted three Basic Law Enforcement courses for regional officers, and graduated sixty-two officers. This involved 15,442 staff man hours for instructional and staff supportive services.

- In-Service Training -

A Management Training Course of 80 hours was programmed, and twenty-seven command officers were graduated, of which twenty were from the Toledo Police Division. Administrative services were provided for the external instructors.

A 40 hours Management Supervision Course was offered, and 14 Toledo Police Division personnel and 18 area officers completed the course.

A 24 hours Family Crisis Intervention Course had an enrollment of 11 Toledo Police Division officers and 12 regional officers who completed the course.

Search and Seizure Course of 16 hours was presented. 36 Toledo Police Division officers and 12 regional officers completed the training.

A Bomb and Incendiary Investigations Course of 16 hours was conducted, which had an enrollment of 17 Toledo Police Division officers and 21 area officers.

Sixteen hours of instruction in a Sex Offender as a Police Problem course was presented, which had an enrollment of 24 Toledo Police officers and 14 regional officers.

Instructor Certification Training, consisting of a 40 hours course had an enrollment of 12 Toledo Police Division officers and 5 area police personnel.

A course of 16 hours entitled Crisis Intervention in the Case of Forcible Rape was conducted for 22 Toledo Police Division personnel and 11 regional officers.

Police Human Relations Course of 24 hours had an enrollment of 23 Toledo Police Division officers and 13 area officers.

A Criminal Investigation Course of 80 hours was provided, which had an enrollment of 23 Toledo Police Division officers, and 15 regional peace officers.

A Planned, Programmed, Budget System Course of 16 hours was conducted for 22 Toledo Police Division command officers and 6 City of Toledo civilian employees exclusively, although Chiefs of 5 major police agencies were invited to participate.

There were 11 courses of 8 hours duration in "One Man Patrol" training conducted for the Toledo Police Division, which provided instruction for a total of 157 Toledo patrolmen.

- Summary of Training Projects -

Three (3) Basic Law Enforcement Courses were conducted for Regional peace officer agencies. Sixty-two officers were graduated which involved 15,442 man hours of training.

Nine (9) In-Service courses were conducted for area officers who enrolled 116 students and received 3,648 hours of training.

Twelve courses were presented for the Toledo Police Division, who enrolled 394 officers and received 21,048 hours of professional in-service training.

Total in-service courses graduated 515 personnel and involved 24,696 man hours of training. Toledo Police Division man hours of training totaled 21,048 hours. All training functions totaled 40,138 man hours.

- Firearms Training -

The Firearms Training Program was suspended in May of 1974 since it was

Search and Seizure Course of 16 hours was presented. 36 Toledo Police Division officers and 12 regional officers completed the training.

A Bomb and Incendiary Investigations Course of 16 hours was conducted, which had an enrollment of 17 Toledo Police Division officers and 21 area officers.

Sixteen hours of instruction in a Sex Offender as a Police Problem course was presented, which had an enrollment of 24 Toledo Police officers and 14 regional officers.

Instructor Certification Training, consisting of a 40 hours course had an enrollment of 12 Toledo Police Division officers and 5 area police personnel.

A course of 16 hours entitled Crisis Intervention in the Case of Forcible Rape was conducted for 22 Toledo Police Division personnel and 11 regional officers.

Police Human Relations Course of 24 hours had an enrollment of 23 Toledo Police Division officers and 13 area officers.

A Criminal Investigation Course of 80 hours was provided, which had an enrollment of 23 Toledo Police Division officers, and 15 regional peace officers.

A Planned, Programmed, Budget System Course of 16 hours was conducted for 22 Toledo Police Division command officers and 6 City of Toledo civilian employees exclusively, although Chiefs of 5 major police agencies were invited to participate.

There were 11 courses of 8 hours duration in "One Man Patrol" training conducted for the Toledo Police Division, which provided instruction for a total of 157 Toledo patrolmen.

- Summary of Training Projects -

Three (3) Basic Law Enforcement Courses were conducted for Regional peace officer agencies. Sixty-two officers were graduated which involved 15,442 man hours of training.

Nine (9) In-Service courses were conducted for area officers who enrolled 116 students and received 3,648 hours of training.

Twelve courses were presented for the Toledo Police Division, who enrolled 394 officers and received 21,048 hours of professional in-service training.

Total in-service courses graduated 515 personnel and involved 24,696 man hours of training. Toledo Police Division man hours of training totaled 21,048 hours. All training functions totaled 40,138 man hours.

- Firearms Training -

The Firearms Training Program was suspended in May of 1974 since it was

determined that the Federal Bldg. indoor range was a hazard to health from powder and lead fumes which permeate the firing area. The Adams Conservation club range use was terminated in August, because of contract disagreement between the City of Toledo and the club trustees.

The Divisions Range Officer and the Planning and Research Unit have worked on firearms range development. Again, budgetary impediments preclude the development of a permanent, fully operational firearm training facility which has been sought after since 1970.

- Staff Training -

Two staff members attended the 80 hours Management Course. One staff member attended the 16 hours of Planned Programmed Budget System course. Two staff members completed the 40 hours Instructor Certification course sponsored by the Ohio State Vocational Education Department. One staff member attended a 40 hours Seminar conducted for Training Directors, attended a 40 hours course in Crisis Intervention in Washington, D.C. and another 3 day seminar on Family Crisis Intervention, in Rosemont, Illinois. The information gleaned from these courses has been incorporated into the training programs offered at the Criminal Justice Training and Education Center.

- Publications Library -

The Training Section maintains liaison with numerous publishers to remain current concerning publications and periodicals relating to police training and education. The Training staff arranged to obtain discounts of various degrees for publications purchased in quantity lots. Ninety-eight (98) criminal code manuals were purchased and sold to members of the Toledo Police Division and area law enforcement agencies. We are subscribers to the "Police Chief", "Law and Order", and the "Criminal Law Reporter".

- Film Library -

With funds generated through police training programs presented at the Criminal Justice Training and Education Center, the Training section purchased a series of 16 MM films from the Motorola Teleprograms, and films from other producers at a cost of \$5,500.00. These visual aids are being utilized for training purposes in basic law enforcement courses - in-service programs, and for public relations purposes by both the Toledo police and area law enforcement agencies. An additional projector was also acquired for loan purposes to any police agency requiring this equipment. Transparencies were made by the staff members for instructors in the various training programs that were sponsored during the year, by the Criminal Justice Center and the Toledo/Lucas County Regional Planning Unit. Videotaping equipment was used extensively to record the various lectures that were presented by external and internal instructors who participated in the various programs offered by the Center.

- Physical Conditioning Program -

Participation- Sergeant Ramon Carr is in charge of the Division Physical conditioning program, and also serves as an instructor for basic law enforcement classes and the One Man Patrol course. Statistics provided by Sergeant Carr reveal that 306 members of the Division and their sons have participated in the activities. Total participation amounted to 2975 times during the year. Activities include two basketball teams; one softball team; Jogging program - 28 officers involved; volley ball games once per week. Boxing and defensive tactics are provided to any officer or his male children who desire this instruction. Members of the FBI and Metro Drug Unit engage in various physical activities.

- Special Activities -

In compliance with the request of the Chief of Police, the Training Section assigned one of its staff members to organize a Police display of its equipment, past and present, and to publicize its functions at the Southwyck Shopping Center. This program involved 80 man hours in the preparation and three days of exhibition supervision.

The production of Roll Call videotape training modules was initiated at the request of the chief in August of 1974. Planning, research, employment of technical advisers, script, dialogue, and the full time service of a staff member resulted in the completion of three (3) reels of videotape at the end of the year. Six division command officers were trained to operate videotape equipment at roll calls. This is a continuing program.

On November 5th, 1974, the Training Section was assigned the task of organizing and training a police Recruiting Team. A staff member was assigned to this task, and has devoted 370 man hours to train a team of nine (9) recruiters. The staff member has scheduled appearances at radio and TV stations, with various organizations and procured the essential brochures and displays necessary to assure city-wide coverage of the Patrol officer Recruitment effort.

Monthly meetings are conducted with area police chiefs and security directors to determine problems of the various departments and to exchange viewpoints relating to crime problems, legislative changes, and coordination of regional educational programs.

A regional training committee assembles monthly to plan training courses which they feel are essential to meet the needs of the area law enforcement agencies.

The training Section has interacted with the Toledo Police Division Bureau Chiefs and Staff Officers to determine training needs and to coordinate training efforts.

- Miscellaneous Activities -

The Police Component staff answered hundreds of telephone calls relating to police training, employment as police and security officers, and inquiries from the public concerning the services offered by the Criminal Justice Center. Daily numerous visitors from police agencies, governmental offices, publishers, and sales personnel visited the center, requesting information and a tour of the facility.

Numerous inquiries were made concerning the police component operations by police departments and educational institutions, who requested survey forms to be executed and data concerning curriculum and training methods.

A telephone procedure Seminar - was conducted at the Criminal Justice Center by Ohio Bell Telephone Co. A total of four sessions were conducted, during May 15th. & 16, 1974. The course was attended by 104 Toledo Police Division officers. Administrative services were provided by the police component staff.

In the area of public relations, the component staff members appeared as speakers on TV, radio, and before various community organizations as directed by the Center Director or by order of the Chief of Police.

February 5, 1975

TO: DEPUTY CHIEF JOHN R. WEINANDY, TECHNICAL SERVICES  
FROM: LIEUTENANT KENNETH RAMSDELL, POLICE CRIME LABORATORY  
SUBJECT: 1974 ANNUAL REPORT

The Toledo Police Crime Laboratory has had an increase in case load for 1974 as have all the other sections of the department. The laboratory is responsible for the various analysis of illegal drugs and narcotics, blood alcohols, carbon monoxide determinations, poisons, and other related testing by chemical and instrumental analysis. It is also responsible for the operation of the polygraph, ballistics, casting of tool marks, footprints and tire marks. Document examinations is also one of the other examinations performed by the laboratory along with other types of examinations for physical evidence to be used in court for expert testimony. The lab also maintains the breathalyzer training of Sergeants for driving under influence cases. Two senior operators are also licensed by state to perform the upkeep and maintenance of the breathalyzer and for court testimony. The removal of explosive devices or ordinance is another laboratory function. Crime scenes are investigated when requested.

The laboratory was removed from the jurisdiction of the Detective Bureau and placed under Chief Weinandy, head of Technical Services.

Laboratory personnel is utilized by the Metro-Drug unit at the scenes where illegal drugs and narcotics are produced. The expansion of the services of this bureau to include other counties and cities is also being contemplated.

A complete remodeling of the facilities and the addition of new equipment for the numerous examinations is in the process of being expedited.

The purchase of a bomb disposal or rescue trailer for the removal of dangerous ordinance and explosive devices is under way. New instruments for the laboratory are being considered.

Personnel consists of 1-Captain, 1-Lieutenant, 1-Sergeant, and a civilian chemist. Some of the equipment in the laboratory proper is now, or close to being, obsolete and will be replaced under the federal grant that has been obtained.

It is also part of the responsibility of the personnel to give speeches in the field of public relations when requested and feasible. As you see from the statistical page of this report, that many tours were conducted through the laboratory. There were three visits made to Bowling Green University to acquaint future attorneys with the polygraph and other laboratory functions. As an added note, one of the personnel also teaches at one of the local technical institutes in the field of Law Enforcement.

The following goals hope to be reached in 1975: The polygraph use will be increased as purchase of two new instruments will be made. More detailed and comprehensive reports in the ballistic field will be obtained, with the acquisition of a new comparison microscope. Better service from the time of submission of cases and return of reports will be, and is, another hope of the lab. The time loss of personnel to field investigations will be shortened although court appearances will undoubtedly be increased. The Sergeants will be retrained and new Sergeant trainees for breathalyzer operators will again be undertaken. Three new evidence technicians will take over some of the field investigations. It is also the goal to have two more civilian chemists hired and trained in the forensic science field, and as each new piece

of equipment is added to the laboratory, better and more fields of forensic evidence will be available to be utilized.

As it can be seen from the statistical page of this report, the civilian chemist has been under a severe case load and has been doing an exceptional job in her field.

POLICE CRIME LABORATORY

The Toledo Police Crime Laboratory has had an increase in case load for 1974, as have all the other sections of the department. The laboratory is responsible for the various analysis of illegal drugs, and narcotics, blood alcohols, carbon monoxide determinations, poisons, and other related testing by chemical and instrumental analysis. It is also responsible for the operation of the polygraph, ballistics, casting of tool marks, footprints, and tire marks. Document examination is also one of the other examinations performed by the laboratory along with other types of examinations for physical evidence to be used in court for expert testimony. The lab also conducts breathalyzer training for sergeants for use in cases of driving under the influence. Two senior operators are also licensed by the state to perform the upkeep and maintenance of the breathalyzer, and to testify as experts on it in court. The removal of explosive devices or ordinance is another laboratory function. Crime scenes are investigated when requested.

The laboratory was removed from the jurisdiction of the Adult Investigative Section and placed under the Deputy Chief of Technical Services.

Laboratory personnel are utilized by the Metro-Drug Unit at the scenes where illegal drugs and narcotics are produced. The expansion of the services of this section to include other counties and cities is also being contemplated.

A complete remodeling of the facilities and the addition of new equipment for the numerous examinations is in the process of being expedited.

The purchase of a bomb disposal or rescue trailer for the removal of dangerous ordinance and explosive devices is under way. New instruments for the laboratory are being discussed.

Personnel consists of 1-captain, 1-lieutenant, 1-sergeant and a civilian chemist. Some of the equipment in the laboratory proper is now, or close to being, obsolete and will be replaced under the federal grant that has been obtained.

It is also part of the responsibility of the personnel to give speeches in the field of public relations when requested and feasible. There were three visits made to Bowling Green State University to acquaint future attorneys with the polygraph and other laboratory functions. As an added note, one of the personnel also teaches at one of the local technical institutes in the field of law enforcement.

The following goals hope to be reached in 1975:

The polygraph use will be increased as the purchase of two new instruments will be made. More detailed and comprehensive reports in the ballistic field will be obtained with the acquisition of a new comparison microscope. Better service from the time of submission of cases and return of reports will be, and is, another hope of the lab. The time loss of personnel to the scene of field investigations will be shortened, although

court appearances will undoubtedly be increased. The sergeants will be retrained and new sergeant trainees for breathalyzers operators will again be undertaken. Three new evidence technicians will take over some of the field investigations. It is also the goal to have two more civilians chemists hired and trained in the forensic science field, so that as each new piece of equipment is added to the laboratory better processing of forensic evidence will be utilized.

1974 ANNUAL REPORT

Captain, F. J. Wiegand

In addition to the information and statistics from the various sections, the following may be of some interest:

In 1974 the "reefer" was abolished as part of the official police uniform and was replaced by a waist length nylon jacket. 500 New jackets were purchased for all uniformed officers.

Criminal Information Center (C.I.C)

Started in December, 1974, were personnel for the staffing of a Criminal Information Center (C.I.C). This Center is part of a grant project... Districting of Police Personnel. The primary purpose is to supply information/assistance to the Uniformed Officers... All inquiries to the NCIC, LEADS, or local... Tows, and Record Checks will be channeled thru this Center via Radio/Telephone.

TO: Deputy Chief J Weinandy,  
FROM: Captain, F. J. Wiegand,  
SUBJECT: Supplemental Annual Report.

### Word Processing:

Word Processing has been installed and is functioning in a temporary location, due to lack of available space in the Safety Building.

Investigators from the Adult and Juvenile Sections have been dictating about seventy to eighty percent (70%-80%) of their supplemental by telephone in to the recording tanks. Stenographers retrieve the data from the tanks, type same upon the proper report forms, and forward to the Investigators for reviewing and initialing.

When Word Processing is returned to the Safety Building, the system can and may provide methods to produce the Stolen Autos Hot Sheets, General Pick Up Orders, and other Orders, quickly and efficiently with the most recent magnetic card typewriters, which can reproduce an original typewritten paper many times.

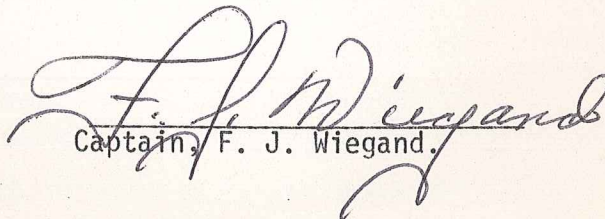

### Criminal Information Center (C.I.C)

Hired in December, 1974, were personnel for the staffing of a Criminal Information Center (C.I.C). This Center is part a grant provided for planning the proposed Districting of Police Personnel. The primary purpose of the Center will be to supply information/assistance to the Uniform Division.

All inquires to the NCIC, LEADS, or locally for Warrants/Wants, Stolen/Wanted Autos, Tows, and Record Checks will be channeled thru this Center via Radio/Telephone.

When the Center is completely designed, it should provide quicker response time to all members of the Police Division regarding aid and inquiries. The Center's personnel will also be used in the area of Crime Analysis.

Respectfully submitted.

  
Captain, F. J. Wiegand.

TO: John Weinandy, Deputy Chief Technical Services  
Through: Robert E. Gray, Captain of Communications  
From: Howard W. Williamson, Roman F. Gardocki  
Sergeant's of Communication's  
Subject: Annual report for 1974

1974 was a constructive and innovative year for the communications bureau. In July the command structure within the bureau received an added degree of balance when a Captain was placed in charge.

During the year the Communications Center received an additional 35,752 calls for service from the public over the preceding year. These added calls brought us to a total of 308,987 dispatched calls for the current year. Assisting in achieving the service of these additional requests were the revamping of the complaint card, which not only realized a point of further clarity but provided additional retrieval information such as the disposition codes, and the adoption of a procedure where calls were divided into three different classifications to facilitate a more appropriate response time. These classifications are Urgent, Expeditious, and Routine. Each is designated by a different accent colored card.

A telephone study revealed that an average of 5,000 calls are received daily by the police department. Of these 1,700 are Emergency calls received in the dispatchers section, and 3,300 are administrative and received on the departments three position switchboard.

The Police department has increased its mobil-radio capacity with the addition of 30 portable in car radio's during the current year.

We are looking forward in 1975 to achieving a greater degree of reliability and service to both the department and the citizens of Toledo. We anticipate that the following will aid in this endeavor.

We are contemplating the adoption of a limited Aural Brevity Code to assist in obtaining a higher degree of radio comprehension.

An additional revision in the complaint card's will assist in multiple car dispatches by eliminating the necessity of making out more than one complete complaint card. This being accomplished by a numerical card numbering system.

Two additional status display cabinets, each with cardmin-deropanel and power supplies, are to be installed in preparation for the implementation of the three district plan. These additions will expand the communications facility to four complete dispatching positions.

In April the Centrex telephone capability is expected to become operational for all police extensions. While most extensions will have the capability of being reached through direct dialing from Ohio Bell telephones, only a limited number will be listed in their directory. All extensions may be reached through inner-office dialing. This system will eliminate the use of the Police switchboards but they will be retained as an emergency back up system.

Early delivery is expected on 325 portable radio batteries to replace and supplement the existing supply. An additional 30 batteries are ordered to replace those being used by the Police Aids. Forty-five (45) "TACTEC" in-car portable radios will be installed, with 12 extra batteries and 2 charger's, each capable of charging 12 batteries.

The department has applied for 30 mobil in-car radios to participate in the Ohio Law Enforcement Emergency Radio Network (LEERN), which will operate on specially selected frequencies to provide radio and data communications to properly equipped police vehicles which require emergency contact with a unit of another jurisdiction. It is anticipated that this system will be operational within the year 1975.

CORRIN J. McGRATH  
CHIEF OF POLICE  
LEADS OHQ48Q7

TO: Deputy Chief, J Weinandy,  
FROM: Captain, F. J. Wiegand  
SUBJECT: Annual Report.

The Identification and Record Sections of the Toledo Police Division duties are varied. Primarily both sections provide technical services and information to the entire Criminal Justice System.

Progress in the Record Section has been made during the past year of 1974, which may not be visible to the casual observer.

Word Processing has been installed and is functioning, providing the Investigators with a system for dictating supplemental investigation reports.

Bicycle licenses are being prepared for the future computer, by key punching the information from the registration form. At the present time we are in transition, using both key punch cards and a manual filing system.

Hired in December, 1974 were personnel for staffing a Criminal Information Center, (C.I.C). This Center once completely designed, should be able to assist the Uniform Patrol Officers, with quick and accurate information.

A major addition to the Identification Section has been the Evidence Technicians, even though they are assigned jointly to the Crime Laboratory and the Identification Section. These Technicians are receiving training in every aspect of crime scene searches.

A Consultant from a Police Consulting Firm has arrived, to assist in improving the Recording System.

Respectfully submitted

*F. J. Wiegand*

ANNUAL REPORT  
POLICE PROPERTY ROOM

1974

I. NARRATIVE

We listed approximately 5600 articles in the property book and placed in its place in property room. Hand guns listed must have envelope and pink card made out describing same and sent to Record Section. Bicycles also have a separate card describing same and sent to Juvenile Section.

We also handle all narcotics from Toledo Police, Metro Drug Unit including Lucas, Wood, Defiance and Williams County. Also the University of Toledo.

II. STATISTICS

a. Man Hours -

We have 1880 man hours per man assigned and 500 hours for the relief man for vacations, sickness, etc. A total of 4260 man hours for 1974.

Personnel

Officer Roy F. Beidleman  
Officer Albert J. Bilek  
Officer John Helman

b. Workload -

We are responsible for all in coming and out going property, license plates found and junked, narcotics, supplies and auctions.

1. Statistics:

We keep complete records of all property found, stolen and recovered. License plates found, stolen and junked and the destruction of same every 60 days.

We destroy all narcotics and burn same at least three times a year.

We have 3 to 4 auctions per year and have turned in to the General fund the following:

February	\$4,681.00
May	4,724.00
September	<u>3,621.56</u>

13,026.56

1. Continued:

We also turned over to the General Fund the following in unclaimed money:

June	\$ 1,082.71
December	<u>500.00</u>
	\$ 1,582.71

We handle all office supplies for the bureaus and are responsible for keeping this supply adequate to handle the demand.

We destroy all hand and long guns that have not been returned or are no longer needed as evidence. This numbers approximately 400 to 500 guns per year. All guns are cleared through the bureaus before they are destroyed.

2. Equipment:

We store 5 to 10 case of Goblets per year for the Mayor of the City.

3. Property Booked:

We log approximately 5600 articles of property found, stolen and recovered per year and only about 1800 of these are returned to the owners.

5. Public Relations Contacts:

We receive approximately 60 phone calls per day and 40 of these are from the public inquiring about recovered bicycles, radios, televisions, etc. We are in constant contact with the public because we have 10 to 15 people in our office daily.

6. We receive in excess of 10,000 calls per year. Whenever possible, property is mailed back to owners. We make approximately 20 calls pertaining to mailing of property.

7. We request the renovation of our office because of constant contact with the public and the office decor creates a very poor image of the Police Division.

8. We requested a budget of approximately \$2,100.00. We also submitted for the last 2 years a request for new shelves with a drawing of same for the approximate cost of \$2,500.00.

February 5, 1975

TO: Sgt. Fred Addis,  
FROM: Ptlmn. C. Parton,  
SUBJECT: Annual Report.

Sir:

In the year of 1974 the office of Police motor equipment was responsible for the repair and maintenance of all Police Division motorized equipment totaling 243 assorted types of vehicles and 1 harbor patrol boat. In addition we purchased and put in service 60 new cars, 7 wagons, 3 motorcycles, 3 Cushman scooters, and a new bus for the transfer of prisoners to the workhouse.

We are also responsible for the purchase of supplies, and the advising to the creditors office of materials that we accept delivery at our office. Our office must keep records of all the purchase order issued for the Police Division.

At the present time we have three civilian employees who along with myself make up the permanent personnel of this section. In addition to the almost full time job of moving cars to dealers, the municipal garage and other places to get the repairs needed accomplished, we wash all Police patrol vans, the workhouse bus, the Chief, Mayor, City Manager, Safety Director, and tow truck as often as is practical, weather permitting. In the past we have had as many as 5 civilians in this section and in 1971 we lost 2 as the result of an austerity program and they have never been replaced.

The past year Police vehicles logged some 4,980,000 miles at an average cost of 11 cents per mile. Our maintenance and repairs cost the Police department \$572,933.00 including gas and oil. The Police vehicles were involved in 291 reported accidents with a estimate cost of \$56,767.00 for body repairs. This is up 68 accidents from the 223 in 1973, the cost of accident repairs in 1973 was \$32,591.00.

We have a budget request in for some new Police motor equipment for 1975 that totals approximately \$463,600.00 to replace worn out equipment.

Respectfully

Ptlmn. C. Parton #53

ANNUAL REPORT - TOLEDO POLICE ARMORY 1974

NARRATIVE:

The manufacture of bullets, purchase, distribution of weapons, and special equipment. This would include all but auto and radio equipment. The preventive maintenance of most Police equipment. Installation of some, such as gun racks in motor vehicles. Record keeping of card files by name and numbers of equipment issued. Correspondence with Manufacture and Sales of special Police equipment. Disposal of confiscated weapons from the Police Property room. The supervision of 25 people assigned to the Toledo Police Bullet room, from the Lucas County Welfare Department.

STATISTICS:

6,000 Police Man-hours. Bullet room closed most of the year. There were two retirements, one man on sick leave, one man used for relief at the Police Property room. 500 Man-hours at Police Property room.

All people from the Lucas County Welfare Department have been assigned to the Building Maintenance Department in the Safety Building because the Police Range and shooting program have been closed most of the year. When the Range is in full operation we use these men in our bullet loading program. We do keep their time and records.

WORKLOAD:

Manufacture 200,000 - 400,000 wadcutter bullets. Rebuild, check and keep in good repair all shotguns, rifles, revolvers, tear gas guns, gas foggers, leather goods, jackets. Repaint and repair helmets. Install and maintain gun racks in Police motor vehicles, mark or number all equipment, keep records, issue most equipment. Supply parking lot registration cards for City Employees. Repair radar cases and measuring equipment for the Traffic Bureau and correspondence.
