TWENTY-THIRD ANNUAL REPORT

—OF THE—

Board of Police Commissioners

—OF THE—

CITY OF TOLEDO.

OFFICE OF THE BOARD OF POLICE AND HEALTH COMMISSIONERS, }
TOLEDO, O., January 1st, 1891. }

To the Honorable Common Council, City of Toledo:

GENTLEMEN:—In accordance with the requirements of section 1996 of the Revised Statutes of Ohio, we respectfully transmit herewith the annual report of the condition of the police department of Toledo for the year ending December 31, 1890:

The police force, as at present manned and officered, is efficient, and one creditable to the city of Toledo. It will be seen by the report of the chief that there are only 72 patrolmen in all, of which number 12 are detailed for special duty, leaving for patrol service only 60. This number is much too small to properly guard and protect the large area and population comprising the city of Toledo. By law the board are authorized to appoint 1 patrolman for every 1,000 inhabitants, which would entitle us to 82 patrolmen. This increase of the force is one urgently needed, yet the board have not felt authorized to make the appointments for the reason that the police fund seemed inadequate for that purpose. They have therefore required the small

number of policemen to perform all the police duty. Complaint is frequently made by people about the inefficiency of the police, but if the above facts are taken into consideration, we are confident unprejudiced people will say the force has been a hard-working and faithful body of men. The cost to the people for police protection is no greater than it was when our population was much smaller. We have a much smaller quota of policemen than other cities of our size, and much smaller than we need. We call the immediate and urgent attention of the Common Council and the public to the necessity of providing adequate means for a considerable enlargement of the force.

The reports of the health officer indicate that the health of the city has been and is now unusually good. Measures for efficient collection and destruction of garbage have been projected under the direction of the board, and we believe that cleanliness and healthfulness of the city have been thereby much benefited.

On the whole, we think that both the health and police departments of the city are in an excellent condition, and that the people have no reason for dissatisfaction with either, but rather reasons of approval and pride.

We call attention to the recommendations of the chief of police in his report, in which we concur.

Respectfully submitted,

J. KENT HAMILTON,

President.

V. J. EMMICK,	}	<i>Commissioners.</i>
AUGUST KRUSE,		
JOEL POTTER,		
JNO. A. WARING,		

ANNUAL REPORT OF CHIEF OF POLICE.

HEADQUARTERS POLICE DEPARTMENT, }
TOLEDO, OHIO, January 1st, 1891. }

To the Honorable Board of Police Commissioners, City of Toledo :

GENTLEMEN:—I have the honor to submit herewith my annual report for the year 1890.

It affords me great pleasure to be able to state—and show by facts and figures—that the department has performed honest and efficient work, and that Toledo continues to enjoy immunity from serious crime.

The total number of arrests for the year was 4,266—state cases, 762, and city cases, 3,504, and shows an increase of 316 arrests, in the aggregate, and a decrease of 114 arrests in state cases, as compared with the year 1889.

There was assessed in police court in fines the sum of \$27,005.15, and of this amount there was collected in city cases, \$8,493.10, and in state cases, \$2,394.60 ; total collections, \$10,887.70, an increase of \$2,191.00 as compared with the collections of 1889.

One thousand seven hundred and ninety-two dollars represents the value of stolen property unrecovered for the year. In this connection I will state that the value of stolen property can not well be fixed until it is recovered, for it is a well known fact that when property is reported stolen its value is greatly enhanced, and notwithstanding this fact, there has not been a single case of burglary, larceny or robbery

where the value of property taken exceeded \$200. This is certainly gratifying to me and creditable to our limited force.

The expenditures for the maintenance of the department, as shown in the accompanying statement, was \$80,929.02, and in this amount there is included an item of \$6,034.80, a loan and interest refunded; thus making the outlay about \$800 more than that of the previous year, and this increase is almost accounted for in the expense of alarm boxes alone. I think it will be conceded that the department has been economically managed.

I desire to express my appreciation of the untiring efforts and final success of the board in securing quarters adjoining the station for patrol barn purposes; the many advantages which the site offered are fully realized. The barn is so connected with the station that instant communication can be had with the officers in charge, and the necessity of taking prisoners to and from the patrol wagon in the street is overcome, and the possibility of the escape of a prisoner, or a jostle with a stubborn "drunk" is rendered less liable.

I am reluctant to reiterate recommendations made in my former annual reports, and especially so because your honorable board appreciate and are in hearty accord with the same. However, I feel obliged to again call attention to the need of a sub-station with a patrol wagon. Our present station is already too small, aside from the prison, and with an anticipated increase of the force the building will be entirely inadequate; to say nothing of the impracticability of centering a larger force at this point.

That the patrol wagon and force is overworked is apparent by the service performed.

During the year the wagon responded to 2,233 miscellaneous calls, over 100 more than the previous year. And another matter that should be considered is the fact that calls seldom or never come singly.

The following list of outlying boxes and their approximate distance in a direct line from the patrol station will show the extent of territory covered:

Broadway and Wabash Crossing,	2 $\frac{1}{2}$ miles.
Air Line Junction,	2 $\frac{1}{2}$ "
Dorr Street and Brown Avenue,	2 $\frac{3}{4}$ "
Milburn Wagon Works,	2 $\frac{1}{4}$ "
Collingwood Avenue and Cherry Street,	2 $\frac{1}{2}$ "
Lagrange Street and Manhattan Road,	2 $\frac{1}{2}$ "
Summit and Michigan Avenues,	2 $\frac{1}{2}$ "
Craig Ship Yards,	2 $\frac{1}{2}$ "
East Broadway and Woodville Street,	2 $\frac{1}{2}$ "
Oak and Fassett Streets,	2 $\frac{1}{2}$ "

The work of the detective force during the year merits much commendation. To them is due the credit for the low rate of burglaries committed and the great per cent. of stolen property recovered.

Much extra duty was exacted from the entire force during the year, and the willingness with which all responded and the general good disposition shown entitles the force to my hearty approbation.

There were no particular cases of serious illness or disability in the department during the past twelve months, and but one death occurred, that of retired patrolman, Dennis Hart.

The numerical strength and division of the force is practically the same as last year, to-wit:

Chief,	1
Lieutenant,	1
Sergeants, day duty,	1
Sergeants, night duty,	5
Patrolmen, day duty,	15
Patrolmen, night duty,	45
Patrolmen, special duty, including three Supernumerary Patrolmen,	15
Detectives, regular,	3
Total,	86

Many inquiries are received from police departments of other cities

in regard to the police alarm system in use here, and for the information of other departments the following outline of our system is given :

The police alarm system consists of a central office, from which there are fifteen (15) metallic electrical circuits leading out through the city, reaching to the city limits in all directions. On these circuits are distributed 126 police alarm boxes. These boxes are placed at prominent street intersections, and other conspicuous and convenient locations for the use of both the police and public. When an alarm is received from any of the boxes, the central office immediately turns it in to the chief's office and the patrol station simultaneously, where it is received on automatic ink-printing registers. At the patrol station there is an electro-mechanical device, which the instant the alarm starts, rings a gong and releases the horses from their stalls.

In addition to the regular alarm circuit between the central office and the chief's office and the patrol station, a direct telephone system is maintained by which communication may be instantly established. The system is operated and maintained by the American District Telegraph Company, at a cost to the city of \$10 a box per annum.

The usual tabulated information will be found in the accompanying report of the secretary.

In conclusion I return my sincere thanks to your honorable body for your kindness and firm support in the performance of my duties.

Respectfully submitted,

EDWARD O'DWYER,

Chief of Police.

REPORT OF SECRETARY.

OFFICE POLICE AND HEALTH BOARD,)

TOLEDO, January 1st, 1891.)

To the Honorable Board of Police and Health Commissioners:

GENTLEMEN:—I have the honor to report the following annual statement of the finances of the police department, the police pension fund account, the police force roster, and the usual tabulated statements for the year 1890.
